[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Banks and FinTech Companies
Inquiry Category	Password and login problems
Inquiry Sub-Category	Password Policy
Description	This category addresses customer inquiries regarding the online bank or FinTech company's password creation and maintenance requirements, including complexity, length, and frequency of password updates.
Data Size	5,091 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Online Bank and FinTech Company" customer inquiry. (Purchased data will not be masked.)

_____ your _____ _____ _____ _____ accounts after a certain _____ _____ failed _____ _____ for security purposes?

_____ you _____ to _____ _____ accounts _____ failed logins?

After _____ _____ _____ failures, _____ my account be locked _____?

Do _____ have a _____ measure _____ _____ out _____ after a few _____ _____?

_____ _____ use an automatic _____ _____ up _____ security?

_____ _____ system lock _____ accounts _____ trying _____ times?

_____ _____ system _____ out accounts if _____ _____ too many failed _____ _____?

_____ _____ _____ stop user accounts from being _____ if _____ _____ _____ incorrect authentication _____?

Do you offer _____ _____ feature that _____ quickly _____ _____ _____ for safety _____?

Is it automatic _____ user accounts _____ _____ _____ _____ unsuccessful _____?

_____ _____ _____ lock _____ _____ after failed login attempts?

_____ your system shut _____ _____ if _____ are too _____ _____ _____ attempts?

Is _____ _____ that _____ _____ locks out user accounts _____ _____ _____ attempts?

Do your _____ lock _____ accounts _____ _____ _____?

Is there a way _____ _____ _____ _____ _____ _____ multiple incorrect logins _____?

Does your system _____ _____ _____ _____ _____ _____ if there _____ _____ high _____ of failed login attempts?

_____ _____ possible _____ system locks out user _____ after _____ lot _____ _____ attempts?

_____ _____ system block you _____ _____ _____ _____ if there _____ _____ lot of unsuccessful login _____?

When the number _____ _____ _____ attempts is _____ _____ the systemlock _____ _____?

_____ _____ _____ _____ locked out _____ a _____ number of _____ for security, is it _____?

Is _____ a way _____ _____ lock out _____ _____ _____ incorrect _____ attempts happen?

_____ _____ able to lock _____ _____ after too _____ failed _____ tries?

_____ _____ are lots of failed login _____ _____ _____ _____ prevent you _____ using _____ accounts?

_____ there _____ _____ lot of _____ attempts, _____ _____ _____ _____ the system _____ lock out the accounts _____ a _____ point?

Do _____ _____ a _____ that locks _____ _____ _____ safety _____ after repeated _____ logins?

Does _____ system _____ up your _____ after _____ _____?

When users fail _____ log in multiple _____ are _____ _____ _____ to _____ _____ _____?

_____ there _____ _____ lot _____ _____ _____ _____ does _____ system automatically lock out accounts?

_____ _____ _____ with multiple failed _____ get _____?

_____ some failed attempts, _____ _____ system _____ _____ accounts out?

_____ _____ know if the system locks _____ _____ out _____ _____ unsuccessful _____?

_____ _____ possible that _____ _____ _____ allow _____ access if _____ repeatedly fails to authenticate _____?

Does _____ _____ _____ out your accounts after a _____ _____ failed _____?

_____ you have _____ account _____ _____ for _____ logins?

Do _____ offer _____ _____ lock-out _____ _____ the event _____ unsuccessful _____ attempts?

_____ you _____ if the system locks out _____ _____ _____ _____ unsuccessful login _____?

_____ you offer _____ _____ account lock out _____ unsuccessful _____ _____?

Is the _____ _____ _____ _____ _____ accounts out _____ a _____ number of tries?

Is it possible _____ the system _____ _____ _____ _____ after _____ failed _____?

_____ you use measures _____ restrict _____ _____ _____ they _____ to _____ in frequently?

_____ _____ is a _____ of failed _____ attempts, _____ your _____ _____ you _____ _____ your accounts?

_____ _____ _____ a _____ of failed _____ attempts, does your _____ prevent you _____ using _____ _____?

Is _____ a _____ to automatically lock _____ _____ when _____ _____ _____ login attempts?

Can _____ _____ _____ _____ _____ system locks out _____ _____ after many _____ attempts at login?

_____ you _____ automated account _____ out policies after _____ _____ in _____?

Does your _____ prevent _____ _____ _____ your _____ if _____ is a _____ of _____ attempts?

_____ guys _____ _____ _____ many login attempts?

Is an _____ _____ lock-up implemented _____ _____ unsuccessful _____ efforts?

_____ the system lock out user _____ after _____ _____ _____ _____?

Is _____ possible _____ _____ system _____ _____ _____ accounts _____ failed login attempts?

_____ it automatic _____ _____ account to be _____ out _____ _____ _____ lot of unsuccessful _____?

_____ _____ _____ of _____ to _____ into _____ _____ _____ high, does _____ system lock the accounts out?

Will _____ account be locked _____ after _____ _____ _____ _____ login attempts?

_____ _____ able to secure user _____ _____ implementing an _____ _____ mechanism?

_____ your _____ _____ accounts _____ _____ failed attempts?

Is _____ automatic for the system _____ _____ out _____ accounts _____ _____ _____ many _____?

Does _____ _____ lock _____ your accounts _____ failed _____ attempts?

_____ _____ system lock out _____ after _____ lot of _____ _____?

_____ your system automatically _____ _____ _____ _____ logins?

_____ the system locks _____ user _____ _____ many _____ _____ for protection?

Do _____ _____ if the _____ locks _____ _____ accounts after _____ failed _____?

Does your software _____ _____ _____ with multiple _____ _____?

_____ _____ _____ _____ lock out accounts _____ many failed _____ attempts?

_____ the _____ of attempts _____ _____ into _____ _____ get high does the _____ _____ lock out _____?

Is _____ _____ for _____ _____ _____ be locked _____ when _____ are many attempts _____ security?

Is your _____ _____ _____ locks _____ _____ _____ a _____ of failed sign-in attempts?

_____ _____ system lock out user _____ _____ too many unsuccessful _____ _____?

_____ there are a _____ _____ _____ _____ can the _____ _____ out the _____ at _____ certain point?

Is _____ possible _____ the system _____ _____ user accounts after _____ _____ _____ attempts?

_____ you _____ _____ automatic _____ lock-up _____ security?

If _____ lots _____ unsuccessful _____ _____ the _____ lock out _____ accounts at a _____ _____?

Is _____ a _____ to _____ lock _____ _____ when many _____ _____ attempts are _____?

Is _____ possible that the system _____ _____ _____ _____ if _____ repeatedly _____ _____ register?

Is it _____ _____ _____ _____ system locks accounts _____ _____ login attempts?

Does _____ software _____ _____ with failed _____?

After failed _____ attempts, _____ your system _____ _____ _____?

_____ my account be locked up _____ _____ _____ after _____ the _____ _____?

If _____ lots of _____ attempts, _____ it automatic for _____ _____ to _____ _____ _____ out?

Is ____ ____ ____ lock-down for accounts ____ ____ to ____ in?

Do you know if ____ ____ an ____ ____ for accounts with ____ ____ ____?

Can you ____ me ____ the ____ locks ____ ____ accounts for ____?

____ ____ ____ ____ out accounts when a lot of ____ ____ unsuccessful?

____ you tell me ____ the system ____ ____ user ____ because ____ ____ logins?

Does ____ ____ ____ ____ up when ____ ____ multiple login errors?

____ ____ ____ automatic ____ lock out ____ there ____ excessive ____ login efforts?

If ____ ____ fails ____ would the ____ prevent ____ access?

____ you offer ____ ____ feature that locks out accounts ____ safety ____ ____ ____ ____ logins?

____ you ____ an automatic account ____ ____ ____ too ____ login attempts?

Is ____ possible that ____ ____ ____ accounts after ____ login ____?

Will ____ ____ be ____ ____ security ____ after I fail many ____?

When the number ____ attempts to get ____ an ____ ____ ____ ____ ____ system automatically lock ____ ____?

____ the ____ ____ ____ restrict ____ access after login failure?

Is it ____ that ____ ____ would ____ ____ access ____ ____ repeatedly fails toauthenticate?

____ ____ ____ able to ____ ____ accounts if ____ are ____ many attempts ____ get into ____?

Can ____ ____ ____ ____ the ____ locks out users after ____ ____ attempts?

Do ____ ____ ____ ____ ____ ____ policies ____ several unsuccessful sign in attempts?

____ your ____ prevent you ____ ____ your ____ if they ____ a ____ of ____ login ____?

____ ____ ____ security measure that locks out ____ ____ too many ____ are ____?

Should ____ use ____ measures to ____ ____ ____ they fail to ____ ____?

Do your systems prevent you from ____ your ____ ____ ____ ____ a ____ of ____ ____?

____ you offer a security ____ ____ ____ ____ out accounts ____ safety reasons ____ unsuccessful ____?

Is ____ ____ that ____ system ____ prevent further ____ ____ someone fails toauthenticate ____?

Is ____ a way to ____ ____ accounts with ____ ____ ____?

Does ____ system ____ ____ from using your ____ if ____ ____ ____ of failed login ____?

____ there are a lot ____ ____ ____ ____ ____ ____ ____ prevent you from using your ____?

____ ____ ____ too ____ ____ ____ attempts, ____ your system lock out your accounts?

____ you offer automated ____ ____ ____ ____ unsuccessful sign-ins?

Do you have ____ ____ ____ out for ____ ____ ____ attempts?

When ____ are ____ ____ ____ ____ get ____ ____ account, does the system automatically ____ it ____?

Is your system preventing ____ from ____ your ____ ____ ____ lot ____ ____ ____ attempts?

Is ____ ____ ____ ____ system to ____ ____ after ____ failed login attempts?

____ my account be locked ____ security ____ ____ a ____ of ____ ____ attempts?

____ ____ an automatic account ____ up ____ too many ____ ____?

Does ____ ____ ____ ____ ____ after a certain number ____ failed ____ for security?

____ ____ system ____ out ____ after a certain number of ____ ____ ____?

____ the system lock the ____ ____ at ____ certain number ____ ____ for ____?

Will ____ ____ be locked up ____ ____ reasons ____ many ____ ____ attempts?

____ your ____ use ____ lock ups after ____ ____?

After failed ____ attempts, ____ ____ ____ ____ accountlocks?

____ ____ ____ be ____ up for security reasons after ____ ____ many ____?

Do ____ ____ a security ____ ____ quickly locks out ____ ____ ____ reasons?

Is ____ possible to lock ____ ____ accounts ____ a certain number ____ ____ ____ ____?

____ ____ ____ that ____ system locks out accounts after many ____ ____ ____?

After ____ failed attempts, ____ the ____ lock the ____ ____?

____ the number ____ attempts to ____ ____ the account ____ high, does ____ system ____ lock ____ ____?

Do ____ ____ automated measures to ____ users when ____ ____ ____ ____ in ____ several times?

Is it ____ to ____ ____ accounts ____ ____ ____ messed up with ____ logins?

____ the ____ lock ____ ____ ____ multiple login errors?

Do you _____ _____ measures _____ _____ _____ when they _____ to log _____ again?

_____ _____ _____ way to automatically shut down _____ _____ _____ incorrect _____ _____ are made?

Does your system _____ account lock ups _____ _____ _____ _____?

Does _____ system impose account _____ _____ after _____ _____?

Does the _____ safeguard _____ by _____ _____ _____ multiple login _____?

Is it possible for your _____ _____ _____ _____ _____ accounts after _____ _____ failed _____ attempts?

_____ _____ account locking feature _____ _____ system for _____ logins?

_____ _____ a _____ _____ _____ locks out accounts _____ _____ many fail sign-in attempts?

Do _____ have _____ _____ measure that _____ _____ accounts when they _____?

_____ _____ _____ lock out accounts _____ _____ number _____ failed tries?

Do you _____ a _____ feature _____ locks _____ _____ after _____ logins?

Is an _____ account lockdown _____ _____ excessive _____ login _____?

Will _____ account _____ _____ _____ _____ reasons after too _____ failed logins?

Does _____ _____ _____ _____ accounts after multiple _____ failures?

Do you _____ if the _____ _____ user _____ out _____ _____ _____ login attempts?

_____ it _____ to automatically lock _____ _____ _____ many _____ failures?

Is your security _____ that locks out _____ _____ _____ many _____ _____?

_____ it _____ that _____ _____ locks out _____ _____ _____ number of _____ _____ attempts are high?

Does _____ _____ lock _____ _____ with _____ login errors?

_____ _____ system lock your _____ _____ after a _____ number _____ _____ attempts?

Will _____ _____ _____ _____ user access _____ login failure?

Is account _____ _____ _____ access _____ a _____ measure?

_____ _____ have a _____ that _____ _____ accounts quickly after unsuccessful _____?

Is it _____ _____ automatically shut _____ accounts _____ _____ _____ failures?

Do _____ provide _____ security feature _____ will _____ _____ _____ for safety _____?

Is it possible _____ _____ _____ prevents _____ _____ _____ failed logins?

Is the system able to _____ _____ accounts when there _____ _____ _____ _____ _____ login _____?

Are _____ able _____ lock _____ your accounts _____ many _____ sign-in _____?

Do you _____ _____ security measure _____ _____ out accounts _____ _____ work _____?

_____ _____ _____ _____ that locks out _____ after too _____ _____ sign in attempts?

Is the system _____ _____ user _____ after _____ number _____ unsuccessful _____ _____?

_____ _____ _____ able to lock _____ accounts when _____ _____ of _____ _____ get _____ is high?

_____ there a built-in feature to _____ lock out _____ when _____ incorrect _____ _____ _____ _____?

_____ _____ _____ _____ account _____ down _____ after a few unsuccessful _____ attempts?

_____ you _____ _____ _____ that locks out accounts after repeated _____ _____?

Is there an automatic account _____ _____ place _____ _____ _____ _____ attempts?

Is _____ _____ way _____ automatically locking out accounts _____ _____ _____ _____ attempts _____ made?

Do _____ offer _____ _____ _____ out policies _____ several unsuccessful sign-in _____?

Is there _____ _____ _____ lock-up _____ unsuccessful _____?

If you freeze _____ that _____ messed _____ _____ _____ logins, do _____ do _____ _____?

Can _____ expect _____ _____ to be _____ after _____ logging _____?

_____ there an automatic account shut _____ implemented _____ _____ _____ _____ efforts?

Your _____ locks _____ after failed _____ _____?

Do _____ provide _____ security feature _____ locks out _____ for safety _____ after _____ _____ _____?

If _____ are too _____ failed _____ _____ _____ _____ system _____ out the accounts?

Is _____ a _____ to _____ lock out accounts _____ incorrect _____ _____ are _____?

_____ you offer _____ security feature _____ _____ locks _____ accounts for _____ _____?

_____ _____ automated locks on accounts _____ _____ invalid _____?

Is _____ a chance that _____ _____ locks out _____ accounts _____ _____ _____ login _____?

_____ your _____ stop _____ from using _____ accounts if _____ have _____ lot _____ _____ attempts?

Do you know if _____ system _____ out _____ after a _____ _____ _____ _____ _____?

_____ your system prevent _____ _____ using _____ accounts _____ _____ a _____ of _____ attempts?

_____ _____ system lock _____ accounts out _____ unsuccessful _____?

_____ _____ _____ if _____ system automatically locks out accounts _____ login _____?

_____ _____ _____ _____ account shut-down for excessive _____ login attempts?

Is _____ _____ for _____ system _____ _____ _____ by locking them after _____ _____ errors?

_____ your _____ get locked out _____ a _____ login _____?

Is it possible that _____ _____ would prevent further _____ _____ _____ fails _____ _____ _____ verify?

_____ _____ system _____ _____ _____ after login failures?

Do you offer automated _____ locked _____ policies _____ _____ _____ _____?

_____ _____ a way _____ _____ lock out _____ _____ there _____ multiple _____ login attempts?

Will _____ account _____ _____ up for _____ reasons after many _____ _____?

_____ _____ software block _____ with _____ _____ logins?

Is it _____ _____ the system _____ lock out _____ at _____ certain _____ _____ _____ attempts?

_____ _____ _____ _____ _____ secure accounts by _____ them after login errors?

_____ _____ _____ _____ accounts for failed _____ attempts?

_____ _____ _____ _____ the system locks _____ _____ accounts after _____ unsuccessful login attempts?

Does your system lock _____ _____ accounts _____ _____ few _____ _____?

When the number of _____ _____ _____ _____ an account _____ up, _____ _____ _____ _____ out accounts?

_____ _____ tell me _____ the _____ locks _____ accounts _____ protection?

_____ you have a _____ that quick locks _____ accounts _____ _____ _____?

Do you have _____ _____ _____ _____ policies after _____ _____ sign-in attempts?

_____ there a _____ _____ the system locks _____ _____ _____ after unsuccessful login _____?

Is it _____ _____ your _____ locks _____ accounts after _____ _____ failures?

_____ _____ _____ feature _____ _____ automatically _____ out accounts _____ multiple incorrect login _____ occur?

Does _____ system _____ out accounts when _____ are _____ _____ of _____ login _____.

_____ there an automatic _____ _____ out instituted _____ _____ _____ logins?

Is _____ _____ _____ lock out implemented for _____ unsuccessful _____?

Does _____ _____ lock _____ _____ unsuccessfullogin attempts?

If the _____ _____ failed login attempts _____ _____ does _____ system lock _____ _____?

Is _____ possible that the _____ _____ _____ accounts _____ repeated _____ failures?

Is your _____ _____ of automatically _____ _____ _____ after failed login _____?

_____ your system _____ you from _____ _____ accounts _____ _____ have a lot of _____ _____ _____?

_____ the number _____ _____ _____ get into an account get _____ _____ the _____ automatically _____ out _____?

Do your systems prevent _____ _____ _____ your _____ if you _____ _____ lot _____ _____ login _____?

_____ _____ _____ block _____ _____ multiple failed logins?

Is _____ auto-locks accounts _____ exceeding _____ _____ _____ tries?

Does _____ _____ lock _____ accounts _____ there _____ _____ certain number of failed _____ _____?

_____ your _____ preventing _____ _____ using your _____ _____ _____ are _____ lot of failed logins?

Does your system _____ _____ _____ when _____ _____?

_____ _____ have a security _____ that _____ shuts down accounts for _____ _____ after _____ _____?

_____ the system able to secure _____ _____ locking _____ _____ _____?

_____ _____ system _____ out accounts _____ many failed attempts _____ security _____?

_____ it possible to _____ _____ _____ _____ on _____ _____ repeated log-in failures?

For accounts with _____ _____ of _____ failures, is _____ an _____ _____?

_____ my account be locked up _____ _____ _____ _____?

_____ you able to _____ down _____ _____ _____ invalid logins?

Do you _____ _____ _____ _____ that _____ out accounts after a _____?

_____ _____ is a _____ of _____ _____ attempts, do _____ systems prevent you from _____ _____ _____?

After _____ _____ _____ attempts, can _____ system block _____ to _____?

_____ there _____ automatic account _____ out _____ unsuccessful login _____?

Do you _____ automated _____ _____ out _____ _____ repeated _____ sign _____ attempts?

Do you offer _____ _____ locked _____ policies in _____ _____ of _____ _____ attempts?

_____ you use _____ _____ to restrict users _____ when _____ don't _____ _____ consistently?

_____ _____ system lock out accounts _____ _____ fail login _____?

Do you _____ a security feature _____ _____ out _____ quickly _____ _____ _____?

Do _____ _____ automated locks _____ accounts with _____ _____ logins?

Is _____ system _____ _____ from using your _____ _____ _____ are lots of _____ login _____?

_____ _____ possible to automatically _____ _____ _____ with _____ log-in failures?

Is _____ possible _____ your _____ _____ _____ accounts _____ a few failed _____?

Is there a way _____ _____ would _____ further _____ _____ _____ repeatedly _____ toauthenticate?

_____ your system lock the _____ after _____ _____ _____?

Is there _____ _____ measure that _____ _____ accounts after a _____ _____ failed _____ _____?

_____ you provide _____ _____ _____ quickly _____ out _____ for _____ reasons after unsuccessful _____?

Is your _____ able _____ block access _____ _____ few _____ _____ attempts?

When there _____ too many tries _____ get _____ _____ account, _____ the _____ _____ it _____?

_____ _____ is _____ _____ _____ _____ login attempts, will your system prevent you _____ _____ _____ accounts?

Does your system _____ _____ from _____ your _____ _____ there _____ _____ lot of unsuccessful _____ _____?

If there _____ _____ large number _____ _____ _____ attempts, _____ your _____ prevent you _____ using _____ accounts?

_____ _____ _____ _____ lock _____ accounts after too many unsuccessful _____ tries?

_____ there a _____ to automatically lock _____ _____ when _____ _____ more than _____ incorrect _____ _____?

_____ my _____ be locked _____ security _____ after a _____ _____ login _____?

_____ _____ a security measure that _____ _____ _____ after many failed _____?

_____ _____ login _____ does your _____ enforce account lock _____?

_____ _____ _____ _____ measure that _____ out _____ after a number _____ failed sign-in _____?

_____ _____ a way to automatically lock _____ accounts _____ _____ lot of _____ _____ attempts _____?

Is _____ an automatic locking out _____ _____ _____ multiple incorrect _____ _____ _____ made?

_____ your system _____ to prevent you _____ using your _____ _____ _____ have _____ _____ of _____ login attempts?

_____ _____ _____ _____ _____ _____ accounts when there are _____ lot of failed _____ attempts?

Can I _____ my _____ to _____ _____ down _____ _____ unsuccessfully?

Is it _____ for _____ system _____ keep _____ _____ locked out _____ _____ reasons?

_____ you _____ _____ _____ the system locks user accounts out after _____ _____ _____?

_____ you _____ _____ _____ feature that _____ locks out _____ when _____ fail _____ log in?

Does _____ software _____ _____ _____ _____ failed connections?

Does your _____ _____ involve locking out _____ _____ after _____ _____?

_____ _____ system _____ _____ accounts based on _____ _____ of failed _____ attempts?

Is it _____ _____ the system would _____ _____ _____ if someone _____ fails to _____ _____?

_____ your system _____ account _____ after _____ _____ attempts?

_____ the _____ _____ the accounts out after _____ _____?

_____ it possible _____ _____ software blocks accounts _____ _____ failed _____?

_____ _____ is a _____ of failed _____ _____ does _____ system prevent _____ _____ using _____ accounts?

Will my _____ be locked _____ security reasons _____ a _____ _____ failed _____ _____?

Does your system _____ _____ _____ when _____ _____ number _____ failed login attempts _____?

Do _____ freeze _____ for messed _____ _____?

_____ _____ have _____ _____ _____ that locks out accounts _____ _____ _____ after failing logins?

_____ you _____ automated _____ _____ _____ policies following unsuccessful sign _____?

_____ your _____ _____ accounts for _____ _____ logins?

Do you _____ _____ _____ lockout policies _____ there _____ _____ sign-in attempts?

_____ _____ _____ if _____ system _____ out _____ accounts for protection?

_____ _____ _____ _____ feature in _____ system _____ for failed logins?

_____ you offer automated _____ _____ out policies following _____ _____ _____?

Do _____ _____ _____ _____ on _____ _____ have multiple invalid logins?

_____ my account _____ _____ _____ for _____ purposes after _____ _____ _____ failed login attempts?

Do _____ _____ automatic account _____ after unsuccessful _____ _____?

_____ _____ a way to automatically _____ out accounts _____ _____ lot _____ incorrect _____ attempts _____ _____?

_____ there an automatic _____ locked _____ _____ _____ unsuccessful login _____?

_____ _____ system deny account access _____ _____ login _____?

_____ _____ system lock _____ _____ after failing _____?

Is there an _____ account _____ _____ _____ there _____ excessive _____ login _____?

Will _____ account be locked after too _____ _____ _____ _____?

Do _____ _____ _____ _____ lock-ups following failed sign-in _____?

_____ there _____ _____ lot of _____ login attempts _____ the _____ automatically _____ _____ accounts?

_____ _____ system lock out user _____ after _____ _____ of unsuccessful _____?

Automatic _____ _____ accounts with _____ log-in failures _____ a _____.

Do you _____ a _____ feature _____ locks _____ _____ _____ safety _____ _____ a while?

Is it _____ _____ have _____ accounts _____ _____ many wonky _____?

_____ there a way to _____ _____ _____ _____ _____ there _____ more than one _____ _____ attempt?

Do _____ _____ a security _____ _____ locks accounts _____ _____ many failed _____ attempts?

When _____ _____ _____ attempts to _____ into _____ account _____ _____ does _____ system _____ out accounts?

When _____ _____ _____ _____ to _____ _____ the _____ _____ too _____ does the system automatically lock out accounts?

Do _____ _____ _____ tries _____ in access _____?

Do your software _____ _____ _____ _____ _____ failed logins?

_____ there _____ _____ account _____ implemented for _____ unsuccessful _____ attempts?

Is _____ _____ the system _____ out _____ when the _____ of _____ _____ attempts _____ high?

Do your _____ prevent _____ from _____ _____ _____ _____ you _____ a high _____ of failed login _____?

Does your system prevent _____ _____ _____ your _____ if _____ are _____ _____ logins?

_____ _____ number of _____ to get _____ the account _____ up, does the _____ _____ lock _____ the _____?

_____ _____ possible that the system _____ _____ accounts _____ multiple _____ errors?

Do you use _____ security _____ _____ locks _____ _____ after too many _____ _____ _____?

_____ the number _____ _____ to _____ into the account _____ high _____ _____ _____ lock out _____?

Is it possible _____ the _____ _____ _____ _____ _____ at _____ numbers of tries?

_____ _____ _____ automated _____ lock-down _____ following unsuccessful sign-in attempts?

_____ my account be locked _____ _____ _____ once _____ _____ failed many _____ attempts?

Will _____ account _____ locked _____ for security _____ after _____ few _____ _____?

If _____ is a _____ of _____ _____ attempts, _____ _____ _____ keep _____ from _____ your accounts?

_____ _____ _____ a _____ of failed _____ attempts _____ your system prevent _____ from _____ _____ accounts?

Do _____ _____ _____ account _____ out _____ after failing sign-in _____?

Will _____ system _____ _____ _____ accounts _____ a _____ number of failed _____?

Is _____ possible for the _____ _____ deny _____ _____ _____ _____ at a certain _____ of _____ attempts?

Do you have a security measure _____ _____ _____ accounts _____ a _____ _____ failed _____ _____?

When the number _____ tries to get into _____ _____ _____ high, _____ _____ _____ automatically lock _____ _____ accounts?

_____ there _____ _____ lot _____ _____ _____ attempts, _____ your systems prevent you from _____ your _____?

_____ _____ have automated locks on accounts _____ _____ invalid _____?

_____ your _____ block accounts with _____ _____ _____?

Does _____ systems _____ out _____ after _____ _____ number of _____ _____ attempts?

Does _____ security _____ lock _____ accounts _____ safety reasons after _____ _____ _____ logins?

_____ _____ _____ _____ locking out _____ accounts _____ when multiple incorrect _____ attempts occur?

_____ it possible _____ the system to _____ out _____ when _____ are _____ _____ for _____?

_____ my account _____ locked for security _____ after so _____ _____ _____?

_____ you think your system prevents you _____ using _____ accounts _____ there are _____ _____ _____ _____ _____ attempts?

Does your ____ keep ____ from ____ ____ ____ if there are ____ ____ unsuccessful ____ attempts?

Do you ____ ____ measures ____ ____ users when they fail ____ ____ ____?

____ ____ ____ capable of automatically locking ____ accounts after ____ ____ failures?

I wonder ____ there ____ a ____ to automatically lock ____ accounts when ____ incorrect ____ ____ ____ ____.

____ there a ____ measure ____ ____ out ____ after too ____ unsuccessful sign-in ____?

____ ____ ____ a ____ ____ failed logins, ____ your system ____ you ____ using your accounts?

Does the system lock ____ ____ ____ ____ number ____ ____ login attempts is ____ ____?

Can ____ system block ____ ____ ____ ____ attempts?

Does the ____ automatically ____ accounts ____ ____ failed ____?

Will my ____ ____ ____ up for security reasons ____ ____ many ____ ____ attempts?

____ ____ a ____ ____ of automatically locking ____ accounts when ____ incorrect ____ ____ are made?

Do ____ have ____ security feature ____ ____ out accounts ____ safety ____ after a ____ ____ unsuccessful ____?

Does ____ system ____ ____ accounts ____ there ____ ____ number of failed ____ attempts?

____ ____ ____ ____ lock out accounts for ____ reasons ____ a ____ of ____ logins?

____ ____ a chance ____ ____ locks ____ ____ accounts after many unsuccessful ____?

Is it possible ____ the ____ to ____ further ____ ____ someone repeatedly ____ to ____ ____?

____ the system ____ ____ accounts ____ they have multiple ____ ____?

____ accounts with ____ ____ failures, ____ there an ____ lock ____?

Do you ____ automated measures to ____ ____ ____ they fail to ____ in ____ ____ ____ ____?

____ there an automatic ____ down for ____ ____ ____ ____ failures?

____ it possible that the ____ would prevent ____ access ____ ____ failed ____ ____ ____?

If ____ are ____ ____ ____ ____ attempts does ____ system lock out ____?

____ ____ system ____ out accounts after too many ____ ____ ____?

Is it possible ____ ____ ____ automatically blocks accounts with ____ ____ ____?

Does your system prevent you ____ using ____ ____ ____ ____ ____ many ____ attempts?

____ there are a ____ ____ of failed ____ ____ ____ the ____ lock out ____?

Can ____ ____ ____ be ____ out ____ my account after repeated ____ ____ attempts?

Are ____ ____ ____ lock out accounts after too ____ failed ____ ____?

____ there a chance the ____ locks out ____ accounts ____ ____ ____ login ____?

Do ____ ____ ____ measure ____ ____ out accounts after too ____ failed ____?

Does ____ ____ keep ____ ____ ____ your ____ if there ____ ____ lot ____ unsuccessful login attempts?

Is ____ system ____ ____ lock ____ ____ out ____ a certain ____ of attempts?

If you have ____ ____ ____ failed login attempts, ____ your ____ ____ ____ from ____ your ____?

____ ____ ____ ____ used when ____ ____ to log in multiple times?

Is ____ possible that the ____ ____ ____ accounts after ____ ____ login ____?

Are automated account ____ ____ offered after ____ unsuccessful ____ ____?

When the ____ ____ ____ to access ____ accounts go ____ ____ ____ system ____ lock out ____ accounts?

____ ____ ____ a security ____ that ____ ____ ____ for ____ reasons after unsuccessful attempts?

Does ____ ____ ____ ____ from using ____ accounts if there are ____ lot of ____ ____?

Is ____ a ____ ____ automatically locking ____ ____ when ____ are ____ ____ login attempts?

____ the ____ of attempts ____ get into the account ____ ____ ____ does the ____ ____ ____ accounts?

Will your ____ ____ you ____ using your ____ ____ ____ ____ a ____ ____ unsuccessful login attempts?

Is there a ____ measure that locks ____ accounts ____ ____ ____ ____ ____?

Will the system disabled ____ ____ ____ ____ ____ login failures?

Are ____ ____ out ____ ____ failed logins ____?

____ there a ____ ____ that ____ out accounts if there ____ ____ ____ failed sign-in ____?

____ ____ system ____ up ____ ____ ____ lot of failed login attempts?

____ your system ____ ____ ____ ____ ____ ____ if there ____ a lot of failed ____ attempts?

____ you have a ____ of failed login ____ ____ ____ ____ ____ you ____ using ____ accounts.

____ ____ ____ lock out accounts ____ there ____ ____ number of ____ login attempts?

_____ unsuccessful access _____ _____ to _____ closure, _____ this a _____ measure?

If there _____ a _____ of _____ login attempts, is it _____ that _____ _____ _____ _____ _____ _____ your accounts?

_____ _____ give _____ security _____ that _____ out accounts for safety reasons _____ _____ _____?

Is it _____ _____ _____ _____ _____ accounts at a certain number _____ attempts for _____ _____?

_____ it your system that _____ _____ _____ accounts _____ _____ failures?

If there _____ _____ lot of unsuccessful _____ _____ _____ automatic for _____ _____ to _____ locked _____?

_____ _____ _____ lock out _____ _____ you fail a _____ of logins?

_____ _____ _____ block accounts with _____ logins?

_____ my _____ _____ locked up _____ _____ _____ of failed login tries?

_____ the system lock out _____ _____ _____ _____ a _____ of _____ _____ get _____ an account?

_____ _____ _____ if _____ system locks _____ user accounts after _____ login _____?

Is _____ system locked _____ accounts _____ _____ _____ failed login _____?

_____ you know if the _____ _____ out _____ accounts _____ _____ unsuccessful _____?

Does _____ security feature lock _____ _____ _____ safety _____ _____ a _____ unsuccessful logins?

_____ _____ automatic _____ lock _____ the accounts _____ there are _____ _____ of attempts?

_____ you _____ out _____ after login _____?

When the number _____ _____ _____ get into _____ _____ gets _____ _____ the _____ automatically lock the account _____?

_____ you _____ _____ _____ feature _____ immediately locks out accounts _____ _____ reasons?

_____ my account be _____ up _____ _____ _____ after _____ many _____ login tries?

Does _____ _____ lock out _____ _____ _____ login failures?

_____ _____ _____ if _____ system locks out user accounts after _____ _____ of _____ _____?

_____ _____ like to _____ if _____ system _____ prevent _____ _____ if someone _____ fails toauthenticate.

_____ _____ locks on accounts for _____ _____ _____?

_____ your system lock out _____ after _____ certain _____ _____ _____ _____ attempts.

_____ your _____ _____ _____ _____ after unsuccessful attempts?

Is there _____ automatic account lock _____ _____ _____ _____ unsuccessful login _____?

_____ _____ an _____ _____ _____ in the _____ for failed logins?

Are _____ accounts _____ out _____ _____ failed _____?

Do you have _____ security _____ that will _____ out accounts _____ safety _____ _____ _____ _____?

When _____ are _____ many _____ _____ _____ into _____ _____ does _____ system lock the _____ out?

_____ _____ _____ _____ to block accounts _____ multiple failed logins?

_____ your system _____ _____ from _____ your _____ when _____ are _____ lot _____ unsuccessful login _____?

_____ _____ _____ _____ system that locks _____ after repeated failures?

_____ it automatic _____ freeze _____ _____ _____ logins?

Does the _____ _____ _____ _____ when there are high _____ _____?

_____ you _____ automated _____ to restrict users _____ they don't _____ _____ _____?

Does the _____ _____ _____ _____ _____ a _____ amount of _____ login attempts?

Do _____ _____ measure lock out _____ _____ _____ _____ failed sign-in attempts?

_____ _____ _____ automated account locked down policies _____ _____ sign-in _____?

Does your _____ lock _____ your _____ _____ _____ attempts?

_____ _____ _____ _____ if they have auto-lockin _____ after too many _____?

_____ _____ system lock _____ accounts when there are _____ _____ failed _____ _____?

_____ _____ security measure _____ _____ out accounts _____ too many _____ _____ attempts?

Can _____ _____ if _____ system _____ _____ _____ accounts after _____ unsuccessful attempts?

Is _____ a security measure _____ _____ out _____ when there _____ _____ _____ failed sign-in _____?

_____ it automatic for _____ _____ to _____ out _____ _____ _____ there are lots _____ _____ attempts?

_____ your system automatically _____ _____ your accounts after _____ number _____ _____ _____ attempts?

_____ _____ system _____ _____ from using your accounts _____ you _____ _____ _____ failed login attempts?

If _____ have too _____ _____ login attempts does _____ _____ _____ _____ your accounts?

_____ the _____ block access to _____ _____ a _____ _____ attempts?

If there is ____ lot ____ ____ ____ ____ ____ system ____ out ____ accounts at ____ certain point?

Is ____ ____ that the ____ will ____ ____ access ____ ____ repeatedly fails to ____?

Is there ____ system that would ____ ____ access ____ someone fails ____ ____ ____?

____ your ____ able ____ shut down ____ if there ____ ____ many failed ____ ____?

____ ____ ____ lock ____ ____ after unsuccessful logins?

Will my ____ be locked up for ____ ____ ____ ____ ____ failed ____ attempts?

Is ____ ____ for ____ system to ____ out ____ accounts if ____ ____ of unsuccessful ____?

____ ____ ____ be locked ____ for security ____ ____ ____ number of failed ____ tries?

Is the system ____ ____ ____ ____ ____ there are ____ login errors?

Do ____ have ____ ____ measure ____ ____ ____ accounts that don't work?

____ your ____ locked out ____ repeated ____ ____?

____ you ____ ____ if ____ ____ out account after many unsuccessful ____?

____ my ____ be ____ for security ____ how many ____ ____ attempts?

Do you lock ____ ____ ____ if there ____ ____ ____ login attempts?

____ ____ ____ ____ ____ your accounts after ____ ____ number of failed attempts?

Is ____ ____ way for an account ____ be ____ ____ ____ ____ incorrect ____ attempts are ____?

____ ____ offer ____ account ____ down policies after unsuccessful ____ ____?

____ ____ ____ feature for locking out accounts ____ ____ incorrect login ____ are ____?

____ too many attempts ____ made ____ ____ into ____ account, ____ ____ system ____ out accounts?

____ ____ ____ automated measures to restrict ____ temporarily ____ they ____ to log ____ ____?

____ I ____ ____ be ____ ____ of my ____ ____ unsuccessful logging attempts?

____ the ____ lock ____ ____ out after ____ failed attempts?

____ ____ ____ ____ the ____ to lock out the ____ ____ ____ certain ____ of attempts for security reasons?

____ ____ locked out ____ multiple failed ____ ____?

If there's a ____ ____ unsuccessful ____ ____ ____ automatic ____ the ____ to lock ____ the ____?

Is there ____ way ____ ____ shut down accounts ____ ____ ____ ____ attempts ____ made?

Does your security ____ ____ ____ ____ offending ____ after ____ ____ log-in tries?

Can ____ expect ____ ____ my account ____ up after ____ ____?

____ ____ measures ____ ____ restrict users temporarily when ____ fail ____ log ____ ____ times?

Is ____ ____ ____ automatically ____ up ____ with ____ log-in failures?

Is there ____ system that ____ ____ ____ after ____ login ____?

____ ____ ____ ____ ____ account after many failed attempts?

____ there ____ ____ measure that ____ out accounts ____ too ____ failed ____ ____ sign-in?

____ ____ true ____ the system locks out ____ accounts after ____ unsuccessful ____ ____?
