[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Biometric authentication
Description	Concerns regarding the use and security of biometric features, such as fingerprint or facial recognition, including inquiries about their accuracy, vulnerability to spoofing, or the storage of biometric data.
Data Size	5,061 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

What encryption methods ____ employed ____ ____ ____ transmission/storage of ____ ____ information?

____ different ____ of ciphers ____ ____ safety ____ ____ passing and storing ____ characteristics?

____ ____ to protect ____ biological data ____ type of ____ is ____?

____ ____ know ____ encryption technologies are used to ____ and ____ ____ ____ data?

What ____ ____ ____ ____ used ____ ensure ____ safety of biological ____ and storing.

____ kind of ____ ____ the ____ ____ for ____ transmitted and unique biological ____?

Can ____ ____ ____ ____ the secure protocols ____ transferring/ storing biometric ____?

____ am interested ____ learning ____ the encrypting ____ ____ ____ ____ our bio.

The security ____ our ____ ____ at stake, what ____ ____ make ____ ____?

____ is ____ ____ ____ the ____ of a specific encryption ____ ____ users' biological ____.

____ ____ the different types ____ ciphers ____ ____ the safety ____ passing and ____ ____ characteristics?

Do ____ ____ ____ transmission or storage ____ when dealing with ____ ____ ____ ____ use ____ encryption methods?

____ ciphers ensure the ____ of ____ ____ ____ storage?

____ ____ ____ ____ store ____ transmit what we have with ____?

____ ____ ____ used to ensure ____ when uploading ____ storing ____ ____ data?

____ we ____ ____ safe when dealing ____ bio- data using ____ ____ of ____?

Which encryption ____ are used to ____ a ____ ____ ____ ____ ____ Biometrics?

____ am wondering ____ there is ____ ____ approach ____ ____ users ____ data.

____ ____ techniques ____ Biometrics more ____?

What ____ the ____ ____ ____ that make ____ safe ____ transmit ____ ____ our ____ biological qualities?

____ am interested ____ ____ ____ encrypting ____ used for ____ our ____ bio.

Which encryption ____ ____ used ____ store ____ share ____ about you and how ____ ____ ____?

____ are the types ____ ____ that ____ ____ ____ safe ____ transmit and keep our ____ ____ confidential?

Which encrypting ____ ____ and ____ ____ data?

____ you know how the encryption ____ ____ ____ ____ ____ bio information?

What protection does ____ ____ give ____ the ____ ____ both ____ and ____ ____ characteristics?

Different mechanisms ____ encryption are ____ ____ protect ____ ____ ____ our own.

____ encryption ____ ____ used ____ ____ ____ share information about you?

____ ____ ____ ____ about whether ____ not there is a specific ____ to encrypting ____ ____ ____.

Which ciphers ____ used ____ guarantee ____ while uploading ____ ____?

____ ____ ____ used when ____ and ____ confidential biometrics?

____ type ____ ____ ensure biological transfer ____ ____?

Which encryption ____ are ____ to protect ____ store ____ ____ biological ____?

Which ____ is ____ to ____ ____ security while ____ and/orstoring confidentialbiographical ____?

____ are able to ____ and store ____ qualities, ____ which ____ of ____ ____ ____ safe?

How ____ ____ protect ____ ____ data with different ____ mechanisms?

____ ____ ____ be protection from the storage of ____ ____ ____ encryption ____?

What ____ make sure we ____ ____ our Biometrics in ____ ____ ____?

What can be done ____ ____ ____ to and storage ____ ____ ____ ____?

____ can you ____ ____ services for ____ secured ____ profile?

____ ciphers are used to ensure ____ security ____ ____ ____ ____?

____ type of ciphers ____ the ____ of ____ and ____ ____ characteristics?

____ ciphers are used ____ ensure robust security ____ ____ ____ ____?

____ sort of protection does ____ ____ give to ____ safety ____ ____ ____ ____ ____ unique biological characteristics?

How is ____ security ____ ____ ____ ____ the help of encryption.

We are ____ to transmit and storage biological ____ but ____ ____ of ____ ____ ____ ____ ____?

What ____ ____ ____ are used to protect ____ unique ____ ____?

What type ____ ____ ____ guarantee ____ safety ____ biological ____ and storing?

____ you ____ what ____ ____ are ____ ____ protect and store ____ personal data?

Which ____ make ____ ____ ____ lose our ____ ____ transit and storage?

What is the ____ ____ ____ methods for the protection ____ ____ or ____ ____?

____ types of Encryptions ____ ____ ____ ____ ____ transmit and keep our biological ____ ____?

____ ____ ____ ____ is ____ to ensure ____ safety of biological transfer ____ storing?

What type of ____ ____ the ____ ____ biological ____ and ____?

What kind of ____ does the ____ ____ to ____ ____ transmitted and ____ ____ ____?

Different ____ ____ ciphers are ____ to make sure the safety ____ both ____ ____ ____ ____ ____ biological assets ____ protected.

What are ____ types of ____ used ____ protect ____ ____ ____?

____ mechanisms of ____ ____ used to safeguard ____ ____ ____ of ____ community.

Does anyone know ____ ____ ____ ____ encryption can ____ ____ ____ protect ____ person's biological data?

I ____ ____ know if ____ can ____ ____ the encrypting ____ ____ my stored/ ____ Biometrics.

What ____ ____ ____ ____ Encryptions give to ____ ____ of both transmitted and biological ____?

____ ____ of protection ____ ____ give ____ the ____ of ____ transmitted and ____ biological traits?

There is a ____ whether ____ ____ a ____ approach ____ ____ users ____ data.

How do encryption ____ for ____ ____ ____ ____ stored biometrics work?

What types ____ encryptions are ____ ____ make ____ ____ our ____ traits are ____ and ____ safe to ____?

What ____ ____ ____ use to make sure ____ our ____ ____ ____ ____ when transported ____ stored?

____ ____ ____ to ____ ____ store biological qualities, ____ certain types of encryption ensure that ____ ____ not ____

Do weCrypt ____ ____ methods to ____ sure the safety ____ the ____ ____ ____?

Which ____ ____ ____ protects ____ stores ourbiological ____?

What ____ ____ ____ methods ____ ____ protect and store biological ____?

The ____ of ____ Biometrics data ____ ____ ____ ask if ____ ____ encrypting ____ storage ____ transmission.

I'm ____ in ____ about ____ encrypting ____ used for my ____ ____ ____.

____ ____ ____ used ____ robust security while ____ and/orstoring confidentialbiometrics?

We ____ ____ to ____ and store ____ ____ but ____ ____ ____ encryptions ensure that they ____ break.

____ we protect ____ ____ or ____ privacy ____ ____ ____ bio-data by ____ which encryption methods?

____ ____ ____ used to ____ robust ____ ____ uploading and storing confidential ____?

What sort ____ ____ does ____ Encryptions provide ____ ____ ____ ____ both transmitted ____ storing biological ____?

____ the use ____ encryption methods for ____ ____ storing biometrics ____ with ____ standards ____ ____ in ____ area?

The _____ _____ _____ techniques _____ protect _____ data.

What should we _____ to ensure _____ _____ of our _____ by _____ _____ _____ _____ _____ of data?

_____ _____ _____ protection is provided by _____ Encryptions for the _____ and _____ _____ our _____ _____?

_____ _____ know ifCryptography methods _____ _____ for securing _____ _____ _____ andStorage ofbiometrics?

How _____ _____ _____ ciphers _____ _____ _____ the safety of _____ passing and _____ our characteristics are _____?

Which _____ protects the transfer _____ _____ of _____ _____?

What _____ of _____ does _____ _____ _____ _____ the safety of both _____ _____ _____ biological characteristics?

I'm _____ in learning _____ the encrypting methods _____ _____ _____ our _____.

What kind of _____ do _____ _____ _____ _____ _____ _____ biological traits are safe?

_____ kind of _____ does the _____ _____ _____ theSafety _____ _____ _____ _____ storing unique biological traits?

_____ _____ are _____ to _____ robust _____ when uploading _____ confidentialbiometrics?

_____ _____ types of ciphers make _____ the _____ _____ _____ and storing _____ characteristics _____ protected?

_____ _____ protect _____ _____ or storage _____ when _____ deal _____ _____ _____ by employing which encryption methods?

_____ security of _____ Biometrics data is something _____ have _____ _____ _____ _____ you _____ _____ or store.

Does _____ use _____ encryption _____ _____ _____ _____ _____ biometrics comply with _____ standards for safety?

_____ _____ able to _____ and _____ biological _____ but _____ types of encryptions do _____ _____

The _____ techniques used _____ _____ ourbiographical _____.

_____ you _____ _____ make sure the storage and transmission _____ _____ _____ _____ _____ keptCryptid?

_____ can _____ done to protect access _____ _____ _____ of _____ using encryption _____.

_____ is a _____ _____ using a specific _____ _____ for _____ _____ biological data.

Is anyone _____ of _____ ways _____ _____ encryption _____ _____ used to _____ the data related _____ _____ _____ biological matter?

The use of _____ _____ for the protection _____ transmitted _____ _____ _____.

_____ types of _____ guarantee the _____ of _____ transfer _____ _____?

_____ _____ of encryptions do you use _____ make _____ that _____ _____ traits are _____ when _____ and _____?

_____ _____ use _____ _____ to keep the _____ of _____ data?

Do _____ _____ _____ _____ _____ are used _____ protect _____ save personal biological information?

_____ would _____ to know if you _____ tell me _____ _____ methods _____ _____ _____ data

The _____ of our _____ _____ _____ stake, which encryption _____ make _____ _____ safe?

_____ _____ _____ used to _____ confidential biometrics _____?

How do we securely _____ _____ transfer _____ _____ _____?

_____ are _____ _____ _____ Encryptions that make it safe _____ transmit _____ _____ _____ biological _____ confidential?

I'm interested _____ learning _____ _____ methods used _____ _____ _____ details.

Which _____ are used to _____ robust _____ while _____ _____?

We need _____ protect our _____ _____ _____ type _____ encrypting _____ use?

_____ we protect the transmission _____ _____ privacy when _____ _____ _____ bio- _____ with _____ use of encryption _____?

_____ _____ protect _____ transmission or _____ privacy _____ dealing _____ _____ bio-data if we use which _____ _____?

We are _____ _____ _____ and store biological qualities, _____ _____ type of _____ ensures _____ _____ _____ not broken

What type of _____ maintain _____ _____ _____ _____ transfer _____ storing?

What _____ _____ _____ does the _____ give to _____ safety _____ _____ transmitted and biological _____?

_____ kind of protection _____ _____ Encryptions _____ _____ of both transmitted and _____ _____ biological _____?

_____ type of _____ _____ used for _____ safety of _____ transfer _____ _____?

_____ methods _____ _____ secure _____ transfer _____ _____ storage of biometrics?

What _____ _____ _____ can _____ _____ safe to _____ _____ keep our biological _____ confidential?

We _____ able to transfer and store biological _____ _____ _____ _____ _____ _____ the process _____?

_____ _____ wondering how _____ protect _____ access and _____ of _____ and _____ fingerprints _____ encryption _____.

What _____ _____ _____ does _____ _____ give _____ the safety of both transmitted _____ storing _____ _____?

How do _____ securely store and _____ the _____ _____ _____ _____ biometrics?

When _____ send _____ _____ _____ biometrics, how do _____ keep _____ secure?

We _____ _____ and store _____ qualities, but _____ types of encryption _____ _____ _____ _____ not _____

We are able _____ transmit _____ _____ biological qualities, but which _____ of encryption _____ _____ _____ _____ not _____.

I ____ ____ ____ knowing ____ encrypting methods used ____ securing ____ details.

____ do ____ ____ ____ or ____ our ____ data is something ____ have ____ about.

What ____ of ____ ____ ____ for ____ ____ of biological transfer and ____?

We are ____ ____ transmit and ____ ____ ____ ____ which types ____ ____ ____ the process safe?

What types ____ ____ do ____ ____ to keep our biological ____ ____?

What type ____ protection ____ the ____ ____ ____ the safety ____ ____ ____ and ____ biological traits?

____ ____ are ____ to ensure ____ ____ uploading ____ storing confidentialbiometrics data?

How do you securely ____ ____ store ____ Biometrics data is ____ ____ ____ ____ ____ about.

What type ____ ____ ____ the ____ give to the safety of ____ ____ ____ ____ unique biological ____?

____ you ____ ____ ____ ____ are used to protect ____ data?

____ ____ able ____ transmit and store ____ qualities, but ____ kind ____ encryptions make ____ ____ ____?

____ ____ know ____ encryption can be ____ to protect the data related ____ ____ ____ ____?

What type of ____ ____ ____ ____ give ____ the ____ of ____ transmitted ____ unique ____ traits?

Different ____ ____ Encryption ____ used ____ ____ sensitive Biometrics ____ our own.

The use ____ ____ techniques ____ protect ____ ____.

____ there anyCryptography methods ____ can be ____ to secure the ____ ____ ____ ____ ____?

____ anyone ____ ____ to protect ____ storage/distribution ____ ____ bio- data with ____?

____ am ____ if you ____ ____ me the encrypting methods ____ ____ ____ stored/ transmitted ____.

____ ____ of our Biometrics is ____ ____ and ____ ____ techniques ____ our information?

____ types ____ ____ can ____ ____ safer ____ ____ and keep our biological traits ____?

Which encryption techniques ____ used ____ storing and ____ information ____ ____ and ____ are ____ ____?

____ anyone know ____ ____ protect someone's biological ____ with ____?

Which ____ protocols ____ the ____ of bodily ____ and ____?

____ storage or transmission privacy safe ____ ____ ____ ____ ____ by ____ particular types ____ encryption?

It is ____ to transmit and store ____ qualities, but which ____ ____ encryptions ____ ____ ____ ____ not ____.

There ____ ____ question ____ ____ use ____ ____ specific encryption approach for ____ users biological ____.

____ they work ____ ____ ____ info?

We ____ ____ ____ transmit and ____ ____ qualities, but which ____ ____ encryption ensures ____ they don't ____

We must protect ____ biological ____ ____ ____ ____ encryption ____ it use?

____ anyone ____ of ____ ____ ____ ____ can be used to safeguard bio- ____?

____ ____ of ____ does ____ Encryptions give ____ ____ safety ____ both transmitted and ____ ____ Traits?

____ ____ protect the ____ ____ storage privacy when ____ with our ____ ____ ____ which ____ methods we use?

____ ____ ____ ____ used for ____ ____ sharing information about ____ and ____ precautions are taken?

We ____ ____ and store ____ ____ but which type of encryptions ____ ____ ____ are ____ ____.

We ____ ____ to transmit ____ ____ biological ____ but ____ types of encryption ____ ____?

____ ____ interested in learning if you can ____ ____ ____ encrypting ____ ____ ____ stored/ transmitted ____.

Which ____ are ____ to ____ sure robust ____ ____ uploading ____ confidentialbiometrics?

What ____ we ____ ____ ensure the ____ ____ ____ ____ ____ using encryption during the storage and ____ ____ data?

How ____ ____ ____ ____ transmitted ____ stored biological information

What ____ ____ ____ ____ make ____ ____ the ____ of ____ and ____ our characteristics are protected?

I am interested in ____ ____ ____ ____ used for ____ ____ transmittedbiographical ____.

____ type of ____ ____ ____ ____ to protect our biological ____?

How do ____ ____ work for ____ protection ____ biological ____?

Which techniques make sure ____ don't ____ ____ ____ ____ ____ storage?

I would ____ to learn the ____ ____ ____ for my ____ ____ ____.

____ do we securely store and ____ the ____ ____ have ____ ____?

____ ____ does ____ Encryptions provide for the transmission ____ ____ of ____ ____ hallmarks?

____ ____ a question ____ whether or not ____ ____ encryption approach was ____ ____ ____ users' ____ data.

What types of ciphers ____ ____ ____ ____ ____ sure that ____ biological traits ____ safe ____ transported and ____?

____ ____ types ____ ____ ____ ____ the ____ of passing ____ storing our ____ biological differences is protected.

_____ is _____ _____ of the Biometrics _____ with the _____ _____ encryption?

Which secure _____ _____ _____ to _____ confidential _____?

Do we protect the transmission _____ _____ privacy when dealing with _____ _____ data _____ _____ _____ _____ which _____ _____?

Different _____ _____ encryption _____ used _____ _____ sensitive Biometrics data.

Is _____ safe _____ _____ _____ _____ _____ _____ biological traits using different types _____ encryptions?

_____ have _____ _____ our biological data, _____ type of _____ _____ _____ use?

_____ types _____ _____ ensure the safety of biological _____ _____ _____?

What _____ _____ _____ are used _____ make _____ our biological _____ are _____ when _____ and _____?

_____ mechanisms of encryption are _____ _____ _____ sensitive _____

I am _____ in _____ about the _____ _____ used for _____ _____ _____.

encryption techniques _____ _____ _____ info

What _____ of protection _____ the Encryptions _____ _____ _____ _____ of both transmitted _____ _____ _____ traits?

_____ we _____ _____ _____ _____ storage privacy while dealing with bio- data _____ the _____ _____ _____ encryption methods?

Is _____ _____ _____ _____ _____ when dealing with _____ data _____ particular types _____ encryption?

What _____ _____ protection does the Encryptions _____ _____ _____ of _____ transmitted _____ _____ unique biological _____?

What _____ _____ _____ do _____ _____ give _____ _____ _____ and stores of unique biological traits?

Which encryption _____ _____ used for _____ and _____ _____ _____ _____ and what are _____ precautions that _____ taken against _____?

Different _____ _____ _____ _____ _____ to _____ sensitive biometrics of our own.

What _____ of _____ _____ the Encryptions _____ _____ safety of both transmitted _____ _____ _____ characteristics?

Do weCrypt _____ encryption _____ _____ make sure the _____ _____ _____ _____ Storage _____ biometrics?

Do weCrypt use _____ methods _____ _____ _____ safety of _____ _____ _____ one's identification?

_____ _____ in _____ the encrypting methods _____ _____ _____ our biographical.

_____ do you _____ _____ or _____ _____ _____ using encryption methods?

Which _____ _____ protect _____ data?

_____ we securely store and _____ _____ data _____ _____ _____ biometrics?

How do _____ securely transmit or _____ _____ biometrics _____ is _____ _____ have _____ _____.

Which _____ _____ used _____ ensure _____ very robust _____ for _____ Biometrics?

Do _____ know the _____ _____ that _____ _____ _____ protect _____ save _____ biological data?

We are able to transmit _____ _____ biological _____ but _____ _____ _____ _____ makes the _____ _____?

_____ am _____ in learning if _____ _____ tell me the _____ _____ _____ for _____ _____ stored/transmitted fingerprints.

Do you know _____ _____ technologies _____ used _____ _____ _____ store _____ data?

What kind of protection _____ _____ _____ to _____ _____ of both transmitted and _____ _____ _____?

Which _____ of _____ does _____ use to _____ our _____ _____?

There is a _____ about whether _____ specific _____ approach _____ _____ to _____ _____ biological _____.

Is anyone aware _____ _____ ways in _____ encryption _____ be used _____ _____ _____ _____ biological _____?

What _____ the _____ _____ _____ _____ that _____ it _____ to transmit _____ store biological traits?

_____ is _____ question of _____ _____ not a specific _____ approach _____ used _____ _____ _____ biological data.

_____ sort of protection does _____ _____ _____ to the _____ _____ _____ of _____ biological attributes?

What _____ of _____ _____ make _____ safe _____ _____ and keep our own _____ make _____?

I am interested in _____ _____ _____ _____ _____ used to _____ our _____.

_____ _____ protect _____ _____ _____ storage privacy _____ dealing with our bio-data by using _____ _____ _____?

How _____ we _____ _____ biological _____ _____ type _____ encryption does that _____?

I want to _____ _____ _____ _____ _____ me _____ _____ methods used _____ securing our stored/transmitted _____.

_____ different ciphers make sure that the safety of _____ passing _____ storing _____ _____ _____ _____ _____ _____.

_____ _____ be _____ to _____ _____ to and storage _____ _____ using encryption?

_____ have _____ about how to _____ transmit _____ _____ _____ Biometrics data.

Which _____ of encryption are used for _____ _____ _____ _____ _____ you?

_____ have the _____ _____ _____ and _____ biological qualities, but which _____ of encryptions _____ _____?

_____ _____ of our _____ _____ _____ stake, and what _____ techniques _____ them _____ secure?

We're able _____ transmit and _____ biological _____ but _____ _____ of _____ _____ we _____?

We are ____ to ____ and store ____ ____ ____ which ____ of encryption ensure ____ they do ____ ____

We are ____ to ____ ____ store ____ ____ but ____ ____ ____ ____ make that process safe?

____ ____ to ____ ____ encrypting methods used ____ ____ our details.

____ you tell ____ ____ the secure protocols ____ ____ ____ to store and ____ biometric ____?

What are ____ ____ ____ ____ protect ____ data?

____ ____ does the ____ give to the transmitters ____ ____ ____ of unique ____ ____?

Different mechanisms ____ ____ ____ used ____ ____ our community's sensitive ____.

____ ____ ____ ____ how to protect someone's biological data ____ ____?

____ ciphers are ____ to ensure robust security ____ ____ andstoring ____ ____?

____ ____ able to transmit and ____ ____ ____ but ____ ____ ____ encryption ____ sure ____ are out of harms way.

____ there an ____ ____ ____ ____ encrypting methods are used ____ ____ stored biometrics?

____ techniques make sure that ____ don't ____ ____ Biometrics in ____ ____ ____?

We have the ____ to ____ ____ ____ biological qualities, but ____ ____ ____ ____ ____ of encryption?

____ wondering how to protect ____ access ____ ____ of ____ using ____ ____ as ____.

____ am interested in learning ____ ____ ____ ____ are ____ for ____ Biometrics.

I ____ ____ ____ the encrypting methods used for ____ ____ ____.

____ ____ ____ ciphers make ____ the ____ of both ____ and ____ our characteristics ____ protected?

How ____ encryption methods ____ ____ ____ protection ____ transmitted or stored ____ ____?

____ ____ curious ____ ____ encrypting methods used for securing ____ ____.

Which ____ ____ used to ____ robust ____ when ____ ____ ____ confidentialbiographical data?

What ____ of protection ____ ____ ____ give to ____ safety of ____ ____ ____ stored ____ biological characteristics?

Which ____ are ____ ____ ____ ____ security ____ uploading orstoring confidentialbiometrics data?

The ____ of ____ ____ is in question, what ____ ____ ____ ____ information?

____ are encryption techniques used to ____ sure ____ ____ ____ ____ Biometrics?

What ____ ensure ____ ____ of transferring and storing ____ ____?

What ____ of protection does ____ Encryptions give ____ the safety of ____ ____ ____ ____ ____ biological ____?

____ am ____ in ____ ____ ____ methods used to secure our ____ ____.

____ ____ ____ to transmit and retain ____ qualities, but which ____ ____ encryption do ____ ____?

____ ____ of encryption are ____ ____ protect our ____ ____ Biometrics.

There ____ a question ____ a specific encryption ____ is ____ ____ ____ ____ biological ____.

What ____ ciphers make sure the ____ ____ ____ ____ ____ ____ our ____ is protected?

Which ____ are used ____ ____ robust security when ____ ____ ____ biometrics?

____ ____ ensure ____ security while uploading ____ confidentialbiometrics ____?

We ____ able to ____ and ____ ____ ____ ____ which type ____ Encryption makes ____ ____ safe?

____ am interested in ____ about ____ encrypting ____ ____ ____ ____ stored/ transmitted Biometrics.

We ____ ____ protect ____ biological data, ____ type of encrypting ____ ____ ____?

____ interested ____ learning ____ encrypting methods used ____ ____ our stored/transmitted ____.

What ____ ____ the Encryptions ____ ____ the safety of ____ ____ unique ____ characteristics?

____ is ____ type ____ cipher that ____ ____ ____ of biological transfer and ____?

What ____ be done to ____ ____ ____ ____ storage of ____ using ____ techniques?

We ____ ____ ____ store biological qualities but ____ ____ ____ encryption do ____ use?

____ ____ techniques ____ ____ storebiological data?

____ do ____ securely ____ and transmit ____ ____ we have ____ biometrics?

____ encryption techniques are used ____ ____ and ____ information ____ ____ and ____ precautions ____ taken?

Which ciphers ____ ____ the safety of ____ and storing ____ ____ ____ ____?

____ have ____ ____ to ____ and store ____ ____ but ____ types of encryptions ____ we ____?

What ____ ____ encryptions ____ ____ use ____ make sure ____ biological characteristics ____ safe ____ transported ____ stored?

What kind ____ ____ ____ ____ give ____ theSafety of ____ transmitted ____ storing biological ____

We need ____ protect ____ biological data and ____ ____ ____ ____ do ____ use?

What are the ____ ____ ____ ____ ____ ensure ____ safety of biological transfer ____ ____?

Do we protect ____ ____ ____ ____ privacy while ____ ____ our bio-data by ____ ____ encryption ____?

How ____ things ____ ____ protect ____ ____ ____ risks ____ identity theft by ____ ____ to transmit

____ types of encryptions do you ____ ____ ____ ____ safety of ____ biological ____?

Which ciphers are ____ to ____ sure ____ ____ ____ ____ ____ confidentialbiometrics data?

How are encryption ____ being ____ ____ ensure the ____ ____ our ____?

What types of ____ do you use to ____ ____ ____ ____ biological ____ ____ ____ when ____?

____ are ____ ____ ____ and store biological ____ but which ____ ____ ____ do we use?

____ are ____ types of encryptions ____ ____ the ____ ____ our ____ traits?

____ ____ of encryptions ____ you ____ to make ____ ____ ____ traits are safe?

Is anyone ____ ____ ____ ____ ____ that encryption ____ be ____ to ____ biological data?

____ ____ do ____ use ____ ____ sure our ____ traits ____ safe to use?

____ want ____ know if you ____ ____ me the ____ used for ____ stored/ ____ ____.

What ____ ____ protection does ____ Encryptions ____ to ____ ____ ____ both transmitted and biological ____?

____ techniques makes sure that ____ ____ ____ ____ ____ in ____ and storage?

____ ciphers ____ safety ____ ____ transfer ____ storing?

Which ciphers ____ used ____ ____ robust ____ while uploading ____ biometrics ____?

We are able to ____ ____ ____ biological qualities, but ____ types of ____ ensure that ____ ____ ____ ____

The security ____ our ____ ____ at ____ What encrypting techniques ____ ____ ____?

____ can be done ____ ____ access ____ and storage ____ ____ encryption ____?

Which ____ of ____ ____ used ____ ____ ____ biological data safe?

Which encryption techniques ____ ____ ____ ____ ____ ____ ____ about ____ with what ____ are taken against it?

____ ____ ____ question ____ to whether ____ ____ encryption ____ is used for ____ biological data.

____ ____ like to ____ ____ the secure ____ for transferring and storing ____ ____.

____ ____ can be used ____ safeguard ____ ____ ____ storing of ____ data.

Do ____ use ____ ____ to protect the ____ ____ ____ transferring/Storage ____ biometrics?

____ ____ of encryptions ____ you use to make ____ ____ biological ____ ____ safe when ____?

We ____ ____ ____ transmit and store biological qualities, but ____ ____ ____ ____ ____ ____ they aren't broken

I ____ ____ ____ ____ the encrypting ____ ____ for ____ our stored/translationd bio

____ is ____ ____ whether ____ ____ ____ ____ encryption approach is ____ used for ____ biological data.

The encrypting methods ____ for ____ stored/ ____ details ____ ____ I ____ ____ in ____.

____ ____ ____ protection the Encryptions ____ ____ the safety of ____ transmitted and ____ biological ____

____ security ____ ____ Biometrics ____ ____ stake; what encryption techniques make ____ ____?

What ____ ____ encryptions do you ____ ____ make sure ____ biological ____ are safe ____ ____?

I ____ to know if you ____ ____ ____ the encrypting methods ____ ____ ____ ____ ____ fingerprints.

____ ____ of ciphers ____ make ____ safe to transmit ____ ____ our biological ____ ____ secret?

Which type ____ encryption is used ____ ____ ____ biological ____?

____ ____ ____ sure ____ the safety ____ passing ____ storing ____ characteristics are protected?

____ types of encryptions do ____ use to ____ ____ ____ ____ safe?

____ want to ____ the ____ methods used for my ____ ____ ____.

We ____ ____ ____ our biological ____ which type of ____ does ____ ____?

____ doEncryption ____ ____ transmitted ____ stored ____ information?

____ ____ types of ciphers ____ ____ that the ____ of passing ____ ____ our unique ____ characteristics is ____.

Which ciphers ____ used to assure robust security ____ ____ ____ ____ ____?

Which ____ ____ used ____ make ____ robust security when uploading ____ ____ biometric ____?

How are our ____ ____ during ____ ____ ____

____ ____ of ____ ____ is at stake and ____ ____ techniques make ____ safer?

What types ____ ____ ____ make it ____ to ____ and keep ____ ____ traits ____?

What kind ____ protection do the Encryptions ____ to ____ ____ of ____ ____ ____ unique ____ ____?

____ ____ of encrypting ____ used ____ protect ____ sensitive Biometrics.

____ ciphers make sure the ____ of ____ passing ____ storing ____ ____ ____ protected?

_____ ciphers are used _____ ensure _____ security _____ _____ _____ storing _____ data?

What are _____ _____ used _____ _____ transmitted _____ stored _____ information?

Does _____ _____ _____ to _____ biological _____ with encryption?

_____ _____ technologies are used _____ _____ _____ store our private _____ data?

What _____ the types of encryptions _____ _____ the _____ of _____ _____ biological _____?

When dealing with _____ data, do we keep _____ _____ _____ _____ using _____ types _____ _____?

What _____ of ciphers are _____ to _____ biological _____ _____ _____ safe?

_____ encrypting _____ are used to _____ _____ _____ data?

I _____ to _____ if _____ _____ _____ me the _____ methods used for _____ _____.

_____ mechanisms _____ _____ _____ used to _____ our Biometrics.

_____ security of _____ Biometrics _____ at stake and what _____ techniques _____ _____ _____ _____?

Talk _____ handling _____ info _____ _____ kind _____

What _____ of _____ _____ the Encryptions give _____ _____ _____ of both _____ and _____ biological _____?

_____ kind of _____ _____ _____ _____ give to theSafety _____ both transmitted and _____ biological _____?

We _____ _____ ability to _____ _____ _____ _____ _____ but which types of encryption _____ _____ use?

We _____ _____ to transmit _____ _____ biological _____ _____ which types _____ encryptions do we _____?

How _____ _____ securely _____ and transmit _____ _____ using biometrics?

I am _____ _____ learning the _____ methods used _____ _____ _____ _____ biometrics

What _____ of _____ _____ the Encryptions give _____ the _____ _____ _____ _____ unique biological characteristics?

_____ encryption _____ _____ used for _____ and sharing _____ _____ you _____ what _____ the _____ taken?

_____ _____ make sure that the safety _____ passing _____ storing _____ characteristics _____ _____?

_____ _____ curious _____ the _____ methods used for _____ stored/ transmitted _____.

_____ _____ _____ _____ _____ the encryptions _____ _____ the _____ and stores of unique biological features?

_____ kind of protection does _____ Encryptions _____ _____ the _____ of both _____ _____ stored _____ _____?

_____ _____ make sure _____ _____ _____ of both _____ and _____ our characteristics are _____?

Which _____ are _____ to make _____ _____ security _____ _____ data?

_____ _____ the _____ _____ encryptions that _____ _____ to keep our _____ biological traits _____?

Can you tell me _____ _____ storage _____ _____ of _____ bianical _____ _____ _____ techniques?

There _____ a question _____ methods _____ _____ the _____ _____ _____ of biometrics.

_____ _____ encrypting transmit/ storage of _____ _____?

_____ _____ we _____ store and transmit _____ data with _____?

What should we _____ to _____ _____ safety _____ _____ by using encryption _____ the _____ _____?

Which encryption _____ are _____ to _____ and _____ _____ data?

What types of ciphers _____ sure _____ _____ safety of passing _____ _____ our _____ _____ _____?

_____ _____ the use _____ encryption _____ for protecting _____ or stored _____?

_____ _____ technologies _____ _____ to protect _____ biological data?

What _____ _____ _____ do _____ use to protect _____ _____ data?

Which _____ techniques _____ used for _____ and storing _____ _____ _____ and _____ precautions _____ _____ against it?

What _____ of _____ does _____ Encryptions _____ _____ the transmitters _____ stores of _____ biological _____?

We must protect our biological _____ _____ type _____ _____ does _____ _____?

_____ you know what encryption _____ _____ _____ to protect and _____ _____ _____ data?

_____ security _____ our _____ is at _____ and _____ encryption techniques safeguard _____ _____?

_____ _____ know what encryption _____ _____ _____ _____ protect and save _____ _____ biological information?

_____ _____ we securely _____ and transmit the _____ _____ have _____ biometrics?

What different _____ _____ _____ _____ sure the safety _____ both passing and _____ _____ biological _____ is _____.

_____ ciphers are _____ to _____ _____ _____ of confidentialbiographical data?

I'm interested _____ learning _____ _____ encrypting methods _____ _____ _____ _____ stored/ transmitted Biometrics.

_____ _____ _____ used to _____ confidentialbiometrics data?

_____ _____ of ciphers protect the _____ _____ _____ and _____ our characteristics?

Do you know _____ a _____ _____ to encrypting _____ _____ _____?

What type _____ _____ _____ the Encryptions _____ to _____ of _____ transmitted and _____ _____ characteristics?

_____ bio _____ _____ _____ kind of encryption is _____ discussed.

_____ am _____ in learning the encrypting methods _____ _____ _____ _____ _____ Biometrics.

What _____ _____ protection _____ the _____ give to _____ _____ and _____ _____ biological characteristics?

_____ methods used _____ securing _____ transfer _____ andStorage of _____?

_____ are able to _____ _____ _____ biological qualities, _____ _____ type _____ _____ ensures _____ they are not broken.

_____ types _____ ciphers can _____ it safe to transmit _____ _____ our _____ _____ _____?

We _____ _____ _____ store _____ _____ _____ which _____ _____ encryptions _____ that they are not broken

_____ cipher protects _____ _____ _____ relation _____ abiometric figures?

I'm _____ in _____ _____ encrypting _____ used _____ _____ our stored/transmitted biographical

Which encryption _____ _____ _____ data?

Is _____ employed _____ _____ transmissions and _____ bio _____?

encryption method _____ _____ _____ info?

_____ _____ _____ to _____ _____ that the _____ _____ transmission of bianical _____ is keptCryptid techniques?

_____ _____ able _____ _____ and _____ _____ _____ but _____ are the _____ of encryptions we use?

_____ _____ encryption _____ _____ to protect and _____ our biological _____?

_____ _____ are _____ when using _____ techniques for _____ _____ sharing _____ about you?

The _____ _____ _____ Biometrics _____ _____ _____ what Encryption techniques make _____ more safe?

How _____ our _____ _____ when transmitted _____ _____?

Which encrypting _____ _____ used _____ _____ and _____ information about _____ _____ _____ precautions are taken _____ it?

Which methods _____ _____ _____ we don't _____ our _____ _____ transit or _____?

Does _____ know _____ _____ _____ someone's _____ data withEncryption?

_____ encryption _____ are used to _____ _____ _____ our biological _____?

_____ do we securely store and transmit _____ _____ _____ _____ _____?

Different _____ of _____ _____ _____ to make sure _____ _____ _____ of both passing and _____ _____ unique _____ characteristics is _____.

_____ types of _____ _____ _____ to _____ sure that our biological traits _____ safe to _____ _____ _____?

_____ protection does _____ _____ _____ _____ _____ safety of _____ transmitted and stored biological _____?

Which _____ of cipher protects _____ storeroom security _____ _____ _____ _____ figures?

Is _____ aware _____ _____ _____ that encryption can be _____ _____ _____ _____ storage aspect of _____ data?

What _____ _____ _____ _____ _____ that the safety of _____ _____ _____ _____ our characteristics are protected?

There _____ a question _____ _____ for _____ _____ transfer of _____ ofbiometrics.

We _____ transmit and store _____ _____ but _____ types _____ _____ make _____ we _____ _____ lost?

What ciphers are used to _____ _____ _____ _____ uploading _____ confidentialbiographical _____?

What ciphers _____ used _____ _____ _____?

The security _____ _____ Biometrics _____ _____ _____ what encryption techniques make them _____ _____?

_____ _____ are _____ _____ protectconfidentialbiometrics data?

Do _____ know what _____ _____ _____ _____ to _____ _____ personal biological information?

_____ Encryption protocols _____ used _____ protect _____ _____?

I'm interested in _____ _____ _____ methods _____ _____ _____ stored/ transmittedbiographical details.

Which _____ _____ _____ to secure _____?

_____ _____ of encryption _____ used to protect _____ _____

_____ encryption _____ _____ used _____ storing and _____ information about you, and how _____ _____ _____ _____?

_____ _____ interested _____ _____ _____ _____ methods used for my stored/ transmittedbiographical _____

Which _____ techniques _____ _____ for _____ _____ _____ _____ about you and what are the _____?

_____ _____ _____ securely store and _____ the Biometrics _____ _____ have?

_____ type _____ encryption does _____ _____ to protect _____ _____ data?

Which encryption technologies are _____ _____ _____ _____ _____ biological information?

The _____ _____ _____ Biometrics data is _____ that _____ _____ _____ _____ how do you securely transmit _____ _____ that data?

_____ methods used _____ _____ _____ _____ biological data

I am interested _____ _____ if _____ can _____ _____ the _____ methods used _____ my _____.

_____ am curious about the encrypting _____ _____ _____ securing _____ stored/translationd _____.

How are our _____ guarded during _____ _____ _____ as well as different methods _____ _____ _____ _____ _____ them

_____ type _____ ciphers do _____ _____ _____ make sure the safety _____ biological _____ _____ storing?

_____ sort _____ _____ does the Encryptions give to both transmitters _____ _____ of _____ _____ _____?

_____ ciphers _____ used to _____ _____ the security _____ confidential _____?

_____ interested in _____ _____ _____ _____ used for securing our stored _____.

We _____ _____ transmit _____ store biological _____ but which _____ of encryption _____ _____?

When _____ with bio- _____ do _____ keep _____ or transmission privacy _____ _____ using _____ types _____ _____?

_____ ciphers _____ and _____ _____ biological data?

_____ _____ a _____ _____ whether _____ _____ encryption approach is _____ used for _____ biological data.

_____ _____ use encryption _____ _____ make sure _____ safety of _____ transferring/Storage _____?

What kind of protection does _____ _____ _____ to _____ transmitters _____ stores _____ _____ _____?

What _____ _____ protection _____ _____ Encryptions _____ for _____ _____ _____ both transmitted and unique _____ characteristics?

_____ anyone _____ the ways _____ which encryption can _____ _____ to _____ _____ of bio- _____?

Which _____ _____ _____ _____ ensure _____ when uploading and storing _____ biometrics?

Which ciphers _____ used _____ _____ _____ while _____ _____ confidentialbiometrics data?

What _____ _____ _____ does _____ _____ give to _____ _____ of both _____ _____ stored biological data?

_____ is a question _____ whether _____ not a _____ _____ _____ is _____ for _____ users' biological _____.

_____ _____ _____ _____ _____ we using to protect _____ biological data?

There is _____ _____ regarding _____ a specific _____ approach _____ _____ for _____ users _____ data.

Handling _____ info with some _____ _____ encryption _____ _____ that _____ _____ discussed.

_____ can _____ protect _____ _____ and _____ _____ with encryption techniques?

Are you able _____ _____ sure _____ the storage _____ transmission of _____ bianical _____ _____ _____?

How _____ _____ securely _____ the _____ that _____ _____ with biometrics?

Which _____ of encryption is _____ _____ protect _____ _____ data.

When _____ _____ bio- data, _____ we _____ privacy safe _____ _____ _____ types of _____?

Is _____ _____ _____ the ways _____ encryption can _____ used _____ protect the _____ _____ bio- _____?

_____ _____ _____ to transmit _____ _____ biological qualities, but which _____ of _____ ensures that they are _____ _____.

_____ weCrypt useEncryption _____ to guarantee the safety _____ _____ transferring/Storage _____ _____?

_____ _____ _____ me about the _____ protocols _____ _____ used for _____ and transferring biometric _____?

_____ anyone know the _____ _____ which _____ _____ be _____ to protect _____ data?

_____ _____ _____ the access and storage _____ _____ _____ other fingerprints _____ _____ _____ is something we are wondering _____.

Which ciphers _____ used _____ uploading _____ _____ _____?

_____ are wondering how _____ _____ _____ access _____ _____ of _____ and other fingerprints, using _____ _____.

What encryption _____ _____ _____ to protect _____ _____?

What _____ _____ protection _____ the _____ give for _____ _____ of both _____ _____ storing _____ traits?

Different mechanisms of encryption _____ _____ to _____ _____ _____ _____ our own.

_____ is the security of thebiometrics _____ _____ _____ help _____ _____?

_____ types _____ protection the _____ give to the safety _____ _____ _____ _____ _____ biological traits.

What _____ of _____ _____ _____ Encryptions _____ to transmitters _____ stores of _____ biological _____?

Which encryption _____ _____ _____ _____ keep confidential _____ safe?

_____ _____ ciphers make sure _____ safety of _____ passing _____ _____ _____ characteristics are _____?

What _____ _____ protection does the _____ give _____ _____ Safety _____ both _____ and _____ biological _____?

What kinds _____ ciphers _____ _____ that _____ safety of both _____ and _____ _____ _____ _____ protected?

Which encryption _____ are _____ _____ protect the _____ of _____?

How do encryption _____ _____ _____ _____?

_____ _____ protect _____ transmission _____ _____ privacy when dealing _____ bio-data _____ _____ use of which _____ methods?

Do _____ _____ the _____ technologies used _____ _____ and _____ our _____ data?

Which techniques _____ used _____ _____ _____ that we don't _____ _____ Biometrics?

We _____ able to transmit _____ _____ _____ _____ but _____ are the _____ _____ _____ we use?

____ ____ in ____ the encrypting ____ ____ for ____ stored Biometrics.

What ____ protect the ____ ____ ____ and storing ____ characteristics?

____ ciphers are ____ ____ guarantee robust ____ when uploading ____ ____ ____ data?

____ can be ____ ____ protect access to ____ storage of ____ using ____ ____

What ____ of ____ ____ help make it ____ ____ ____ ____ ____ our biological traits confidential?

What types of encryptions do ____ use ____ ____ ____ ____ traits ____ ____ also ____ to ____?

What techniques make sure ____ we ____ lose ____ biometrics ____ ____ ____ ____?

____ ____ ____ ____ for uploading ____ storing confidentialbiometrics data?

____ ____ techniques ____ used for ____ and ____ information about ____ ____ what are the ____ ____?

I'm ____ in ____ how ____ ____ methods ____ ____ for ____ our details.

What ____ ____ encryptions do you ____ ____ ____ ____ our biological traits are ____ ____ send?

____ question ____ whether ____ ____ ____ ____ encryption approach is ____ for users' ____ data

The ____ of ____ ____ ____ is ____ we ____ if it's encryption for storage ____ ____.

The security of our biometrics data ____ ____ I ____ questions ____ ____ ____ you securely ____ ____ store ____?

____ have the ability ____ transmit and ____ biological ____ ____ which ____ ____ ____ ____ we using?

____ ____ protects transmissive/ storeroom ____ ____ relation ____ abiometric figures?

____ ____ ____ to transmit ____ store biological ____ but which type of ____ ____ that they are ____ ____.

Which encrypting techniques ____ used for ____ ____ ____ information ____ ____ ____ what precautions are ____ ____ that?

____ ____ ____ ____ of ciphers ____ make it safe to transmit ____ ____ biological ____?

____ ____ ____ encryption do you ____ ____ ____ sure our ____ traits are safe?

Which cipher ____ used to ____ ____ ____ when ____ ____ confidentialbiometrics?

____ am interested in learning more about the ____ methods ____ ____ ____ ____ ____.

____ ciphers ____ ____ to ensure safety ____ ____ transfer and ____?

What ____ the ____ of ____ ____ ensured with ____ help ____ encryption?

We need to ____ ____ biological ____ what ____ ____ cipher ____ ____ use?

____ is the security ____ ____ Biometrics done ____ ____ help of ____?

We ____ ____ to ____ and store biological qualities ____ which type of ____ ____ sure we ____ ____ ____.

What ____ ____ of ciphers make ____ the safety ____ passing and storing our ____ ____ ____ ____ ____.

We are ____ to ____ ____ ____ biological qualities, but ____ type of ____ guarantees that ____ ____ not ____.

What ____ of ____ protects ____ safety ____ biological transfer ____ ____?

Different mechanisms of encryption ____ ____ to ____ ____ ____ Biometrics.

____ ciphers are ____ ____ ensure ____ ____ ____ uploading or storing ____ data?

Which encryption ____ are ____ to store ____ ____ ____ about you ____ what ____ ____ taken?

____ ____ ____ ____ ____ ____ store ____ ____ information about you and what precautions ____ taken against them?

What is the use ____ ____ ____ for ____ protection ____ transmitted ____ ____ fingerprints?

Which ____ protocols ____ ____ ____ of bodily ____?

____ ciphers are ____ ____ ensure ____ ____ while uploading and ____ confidentialbiometrics?

There ____ ____ question ____ whether ____ not ____ is ____ ____ approach ____ encrypting ____ biological data.

I ____ like to ____ ____ ____ ____ tell me ____ encrypting methods ____ for ____ Biometrics.

____ interested in ____ if ____ can ____ ____ the ____ methods ____ for ____ data

____ ciphers ____ ____ ____ guarantee ____ security when ____ and storing biometric ____?

____ ____ transmit and ____ biological qualities, but ____ ____ of ____ ____ ____ process safe?

____ ____ able ____ ____ that our ____ data is keptCryptid?

What ____ of protection does ____ ____ ____ ____ the transmitters and stores ____ ____ ____?

How ____ ____ securely ____ ____ ____ biometric data?

What ____ ____ protection the Encryptions ____ ____ ____ safety of ____ transmitted and unique ____ ____?

____ ____ ____ sure ____ ____ lose ourbiometrics ____ transit and storage?

____ mechanisms of ____ ____ ____ to protect ____ Biometrics ____ our community.

What protection ____ ____ ____ give to the safety of both ____ ____ ____ ____?

Which cipher shields transmissive/storeroom ____ in ____ ____ ____ ____?

What types ____ ciphers make sure ____ ____ and storing ____ ____ ____ ____?

How do ____ methods ____ ____ or ____ biological ____.

____ we protect the ____ or storage privacy ____ ____ bio- data with ____ ____ ____ which ____ ____?

____ ____ techniques are ____ for ____ and ____ information ____ you?

What is the ____ of ____ ____ Encryptions ____ ____ ____ safety ____ both transmitted and unique ____ ____?

____ ____ of ____ make ____ that ____ safety of both ____ and storing ____ unique biological ____ ____ protected.

____ doEncryption methods ____ ____ protect ____ ____ stored biometrics?

____ anyone know how ____ ____ the ____ and distribution ____ ____ data with ____?

____ mechanisms of encryption are ____ ____ ____ ____ Biometrics information.

What types ____ ____ make it ____ ____ pass ____ ____ our characteristics?

____ it possible for you ____ make ____ that ____ storage ____ ____ of our ____ ____ isCryptid ____?

I ____ like ____ know ____ ____ methods ____ for ____ stored/ transmittedbiographical ____.

How are encrypting ____ ____ biological ____ ____?

Is ____ ____ transmission ____ safe when dealing ____ ____ ____ by ____ different ____ of encryption?

____ encryption ____ are ____ for ____ Biometrics?

What protection ____ the ____ give for ____ ____ and ____ ____ ____ hallmarks?

____ do ____ ____ protect transmitted or ____ ____ data?

Which ciphers ____ ____ to ensure ____ ____ in ____ and ____ ____ data?

Which ____ are ____ ____ ____ robust security ____ confidential fingerprints?

____ cipher ____ transmissive/storeroom security regarding ____ ____?

What kind of ____ ____ the ____ ____ to theSafety ____ ____ transmitted ____ storing ____ trait?

What ____ ____ are used ____ ____ ____ ____ our personal biological information?

We ____ know if we use ____ ____ ____ ____ ____ transfer/storage ____ biometrics.

____ type of ____ is ____ ____ biological ____?

Are you ____ ____ ____ ____ ____ and transmission of ____ ____ data is ____ techniques?

Can ____ ____ me about ____ secure ____ that are ____ ____ ____ and ____ biometric data?

____ ____ ____ are used ____ ____ confidential Biometrics?

____ sort ____ protection does the ____ give ____ the ____ ____ both ____ ____ storing ____ biological qualities?

Do ____ work ____ ____ area ____ ____ transmit/ storing ____ info?

____ techniques make sure ____ ____ lose ____ Biometrics in ____ and ____

Which ____ are used ____ ____ ____ security when ____ ____ storing confidentialbiographical ____?

Which techniques make ____ we ____ ____ ____ in transit ____ ____?

____ ____ of ciphers can make it safe ____ ____ ____ ____ ____ biological trait ____?

____ ____ our Biometrics ____ ____ ____ and storage?

____ ____ ____ methods protect against transmitted ____ stored ____ information?

____ ____ of ____ do you use to make ____ that ____ ____ ____ are ____?

____ ____ able to ____ and store biological ____ ____ ____ types of ____ ensure ____ they ____ not broken

I'm interested ____ learning the ____ ____ ____ for my stored/ ____ ____

Do you ____ the ways ____ which encryption ____ be ____ to ____ ____ ____?

____ encryption ____ ____ ____ and store ourbiological ____?

What ____ of ____ ____ you use to ____ ____ ____ biological ____ are safe ____ ____ and stored?

What kind of ciphers ____ ____ the safety of both passing ____ ____ ____ ____ ____ ____?

____ ____ ____ are ____ ____ ensure a ____ security when protecting Biometrics?

What ____ of ____ ensures the ____ of ____ ____ ____ storing?

____ ciphers ____ used ____ make sure ____ ____ when ____ ____ confidentialbiometrics data?

Which cipher ____ transmissivesecurity ____ ____ ____ abiometric ____?

What types of ____ ____ used to ____ sure our ____ ____ ____ safe ____ safe ____ ____?

____ ____ ____ info with ____ kind of ____.

____ ____ protect ____ ____ or storage privacy ____ ____ with ____ ____ ____ using which encryption methods?

____ encryption techniques are used ____ storing and ____ ____ about you and ____ ____ the ____ ____ ____ it?

_____ would _____ _____ _____ the encrypting methods _____ _____ _____ stored/ transmitted Biometrics.

_____ _____ _____ question _____ _____ or not a specific encryption _____ is _____ used _____ _____ data.

Do weCrypt _____ _____ _____ _____ _____ the safety of the _____ and _____ of _____ biometrics?

We are wondering _____ _____ _____ a _____ to _____ the access and storage _____ fingerprints _____ _____ fingerprints _____ encryption _____.

Different _____ _____ _____ are _____ to protect _____ _____ biometrics information.

Do _____ _____ _____ _____ _____ storage _____ when dealing _____ our bio- _____ if we use which _____ methods?

What _____ can help _____ it safe to _____ _____ keep _____ _____ _____ confidential?

_____ are _____ fingerprints _____ during _____ and _____ as _____ as the different methods that _____ used _____ _____ _____

We are _____ _____ _____ and _____ biological _____ but which kind of _____ ensures _____ _____ are not _____

_____ am curious _____ _____ encrypting methods _____ for securing our _____ _____.

We are _____ _____ transmit and _____ _____ qualities, _____ _____ types of _____ ensure _____ _____ aren't broken.

_____ _____ of encryptions _____ _____ use _____ make sure biological traits are _____ _____ _____ _____ store?

_____ _____ _____ sure that we don't lose _____ biometrics _____ _____ or _____?

_____ _____ techniques _____ and store ourbiological _____

What _____ of ciphers _____ the safety _____ _____ transfer _____ _____.

_____ _____ _____ are employed _____ _____ the sensitive Biometrics of our _____.

The _____ of our Biometrics _____ _____ _____ _____ we ask _____ it is encrypting _____ _____ _____ transmission.

Does _____ _____ ifCryptography methods _____ be used _____ _____ _____ _____ of andStorage ofbiometrics?

_____ want to know _____ _____ _____ protocols _____ transferring and storing _____ _____.

_____ cryptographic _____ guard _____ transfer _____ bodily _____?

_____ am interested _____ learning the _____ _____ used _____ _____ our _____ Biometrics.

_____ _____ to secure _____ _____ of _____ ofbiometrics?

_____ _____ of encryptions _____ _____ use _____ _____ our _____ biological trait safe?

_____ are _____ methods used for _____ protection _____ _____ _____ stored biometrics?

_____ have questions _____ how to securely _____ our _____ _____.

What _____ _____ safe biological _____ and _____?

When it _____ _____ _____ _____ biological data, which _____ _____ encryption do _____ use?

Different _____ of encryption are _____ _____ _____ _____ sensitive _____ in our _____.

_____ _____ _____ used to assure security when uploading _____ _____ _____?

What kind _____ _____ the _____ give to the safety _____ _____ transmitted _____ storing _____ _____

_____ is _____ _____ _____ whether _____ not a specific encryption _____ _____ _____ for protecting user's _____ data.

_____ ciphers are used for robust _____ _____ uploading _____ _____?

_____ we keep _____ _____ _____ privacy _____ _____ dealing with _____ _____ using specific _____ of encryption?

_____ encryption methods _____ and _____ ourbiological _____?

Does _____ use _____ encryption _____ _____ transferring/ storing biometrics _____ the standards _____ _____?

_____ anyone _____ _____ _____ in _____ _____ can be used to _____ a person's biological _____?

_____ _____ _____ of how _____ _____ related to the person's _____ can be protected _____ _____?

_____ you _____ _____ encryption technologies _____ _____ to _____ and _____ personal data?

Which _____ _____ _____ for security when _____ and _____ _____ data?

Do _____ protect the _____ or _____ privacy while _____ with _____ _____ _____ the use _____ _____ encryption methods?

Different mechanisms _____ _____ are _____ to protect _____ _____

How _____ encryption _____ _____ _____ or _____ biometrics?

We _____ to protect our _____ _____ _____ cipher _____ used?

Which _____ are _____ _____ _____ and orstoring _____?

_____ security of the Biometrics _____ _____ _____ _____ _____ if it is _____ _____ _____ or transmission.

_____ _____ techniques protect _____ store _____ data?

What _____ _____ encryptions do we use to _____ _____ unique _____ _____?

What sort of _____ _____ _____ _____ give _____ the safety of _____ transmitted _____ _____ biological _____?

_____ _____ techniques _____ used for _____ and sharing _____ _____ you?

What _____ _____ _____ do you use _____ make sure _____ biological traits _____ _____ when _____ and _____?

Which type ____ ____ ____ to ____ ____ data?

____ different ciphers ____ ____ that ____ safety ____ both passing ____ storing ____ ____ biological differences is ____.

What ____ types of ____ ____ ____ ____ ____ safety of both ____ ____ storing our ____ are protected?

____ anyone know how encryption ____ be ____ ____ ____ ____ ____ distribution aspect of ____ data?

We ____ ____ and store biological ____ but which ____ ____ ____ process ____?

____ ____ of ____ protect the ____ of passing ____ ____ our unique biological ____

I would ____ to ____ if ____ can tell me ____ ____ ____ ____ in my ____.

What ____ ____ can ____ it safe ____ transmit ____ keep ____ own ____ make ____?

____ ____ are used for robust ____ ____ ____ and ____ confidentialbiometrics data?

Which ____ ____ used to ____ robust security ____ ____ orstoring ____ data?

____ ____ ____ used for ____ security in uploading ____ storing ____?

____ is ____ question ____ whether ____ ____ ____ approach ____ used to protect users' biological ____.

____ they ____ ____ ____ ____ of bio info?

____ ____ we ____ store and transmit ____ with ____?

The encrypting ____ ____ for ____ stored/ transmitted ____ are something ____ ____ ____ ____ learning.

____ ____ technologies ____ used to protect our ____ ____?

Is ____ storage and ____ of our ____ ____ keptCryptid ____?

____ ____ ____ types of Encryptions ____ ____ help make ____ safe to ____ ____ keep our ____ make up?

Do ____ work ____ the area ____ encrypts transmit/ storage ____ ____ ____?

____ it ____ to transmit ____ store our ____ ____ with ____ types ____ encryptions?

We ____ able ____ ____ ____ ____ ____ qualities, ____ ____ types of encryptions ____ that they are not broken

____ mechanisms of ____ are ____ ____ protect ____ ____ ____ in our community.

What should ____ do ____ ensure ____ safety of ____ Biometrics ____ usingEncryption ____ the ____ and ____ of ____?

Do we ____ privacy ____ ____ handling bio- data ____ using different ____ ____ ____?

How do ____ protect ____ ____ ____ biometrics with ____?

There is a ____ about handling ____ ____ with ____ ____ of ____.

What ____ of ____ ____ you use to ____ sure ____ ____ traits ____ safe ____ also safe ____ transmit?

How ____ ____ use ____ for secured ____ ____?

There is ____ ____ ____ a ____ encryption ____ was ____ for ____ ____ biological data.

What ____ of ____ does ____ ____ give ____ ____ ____ and stores ____ unique biological attributes?

What ____ ____ protection do ____ ____ ____ to the ____ ____ stores of ____ biological tendencies?

Different mechanisms of ____ are ____ ____ ____ the ____ of ____ community

How can you ____ encryption ____ ____ ____ ____ profile?

____ ____ of ____ are ____ to ____ our biological ____ safe?

____ ____ know the encryption technologies used ____ protect ____ ____ ____ ____ data?

Which ____ techniques ____ ____ for ____ and sharing ____ ____ you ____ what ____ the precautions against ____?

The ____ ____ ____ ____ techniques ____ protect ourbiographical data?

How are ____ ____ ____ during storage ____ ____?

How ____ ____ encryption ____ protect transmitted and stored ____ ____?

____ different ____ ____ ciphers ____ that the safety of ____ ____ and storing ____ ____ biological characteristics ____ assured.

____ or transmission ____ should be ____ safe ____ ____ ____ bio- data ____ ____ types of ____.

____ ____ ____ use of ____ to ____ info?

Does ____ ____ the ways in ____ encryption can ____ used ____ safeguard ____ ____?

____ ____ are ____ to ensure robust ____ when ____ ____ confidentialbiometrics?

____ encryptures ____ ____ use to keep ____ biological differences ____?

____ types ____ encryptions ____ you ____ to ____ sure our genetics ____ ____ ____ ____ and store?

Is anyone aware of ____ ____ in ____ Encryption ____ be used ____ ____ ____ ____?

____ ____ ____ ____ transmit and keep ____ qualities, but which ____ ____ encryption ____ the process ____?

The ____ of our Biometrics ____ in ____ ____ ____ ____ ____ it more safe?

____ want ____ know ____ encrypting methods used ____ ____ stored/ ____ details.

Which ciphers _____ used _____ _____ Robust _____ _____ uploading _____ confidentialbiometrics?

_____ _____ _____ the _____ _____ in _____ _____ _____ be used to protect biological data?

What _____ _____ _____ _____ encryption methods for protection _____ _____ or _____ biometrics?

_____ can _____ and store biological _____ _____ _____ _____ _____ encryptions make sure _____ don't _____ caught?

_____ mechanisms _____ _____ are employed to protect the _____ _____.

What protection does the Encryptions _____ to _____ _____ of _____ _____ _____ _____ _____ characteristics?

_____ type of _____ protects _____ _____ _____ data?

_____ _____ _____ make _____ more safe?

What is the encryption _____ used to _____ transmitted _____ _____ _____ _____?

Do we protect _____ transmission or _____ privacy _____ _____ with _____ _____ data _____ _____ _____ encryption methods?

What encryptions do you _____ to _____ _____ _____ _____ biological traits _____ _____?

_____ should _____ do _____ ensure _____ safety of _____ Biometrics by _____ encryption during _____ _____ _____?

What _____ _____ _____ does the Encryptions _____ _____ _____ transmitters _____ stores _____ biological characteristics?

What _____ the _____ of _____ we use _____ keep _____ _____ _____ safe?

_____ are able to transmit _____ store biological qualities, _____ _____ type _____ _____ ensures _____ _____ are _____ broken.

_____ have to protect _____ biological _____ with _____ _____ of encryption _____ we _____?

_____ _____ like _____ learn _____ _____ _____ tell _____ the encrypting methods used to secure _____ stored/transmitted _____.

What sort of protection _____ _____ give _____ _____ _____ and _____ _____ _____ biological characteristics?

What types _____ can make it _____ to transmit and _____ _____ _____ _____ _____?

_____ _____ _____ _____ ways _____ encryption can be used _____ protect a person's _____ _____?

_____ _____ make sure _____ safety _____ passing and _____ our characteristics _____ _____?

Is there any _____ _____ _____ _____ to _____ a person's biological _____?

_____ ciphers _____ used _____ ensure _____ _____ when uploading confidentialbiometrics _____?

The _____ _____ _____ that the _____ give _____ _____ _____ of both transmitted _____ storing biological _____.

How do _____ securely _____ _____ _____ _____ biometrics?

I _____ _____ know the _____ _____ used _____ _____ our biographical information.

The security _____ _____ Biometrics data is _____ _____ want _____ know _____ _____ is encryption _____ storage or _____.

The _____ _____ _____ biometrics data is something _____ _____ _____ _____ about, _____ do you securely _____ or store _____?

_____ need _____ _____ our _____ data, which _____ _____ Encryption do _____ use?

_____ _____ _____ securely _____ and transmit _____ from biometrics?

What type of ciphers is _____ _____ _____ the safety _____ biological _____ _____ _____?

We are _____ _____ _____ _____ protect _____ access and _____ of fingerprints _____ _____ fingerprints using _____ techniques.

_____ _____ are _____ to protectconfidentialbiographical _____?

Which _____ _____ used to _____ _____ _____ _____ and/orstoring confidentialbiometrics data?

Do _____ protect _____ transmission _____ _____ privacy _____ dealing with bio-data with the use _____ _____ _____ _____?

What _____ _____ ciphers make _____ safe _____ transmit _____ keep our _____ traits _____?

_____ cipher is _____ _____ ensure robust security when _____ _____ _____ confidentialbiometrics _____?

What _____ _____ _____ ciphers make _____ the safety of _____ and _____ _____ _____ biological assets is _____

What _____ of _____ the _____ _____ to _____ _____ of _____ transmitted and storing _____ traits.

There is _____ _____ _____ the _____ _____ a _____ _____ _____ for protecting users'biological data.

_____ _____ _____ _____ we _____ _____ our biometrics in the transit and _____?

_____ there _____ particular approach to _____ users _____ _____?

Different _____ of encryption are _____ to _____ the _____ _____ of _____ _____.

_____ types of ciphers _____ you use _____ _____ sure our _____ _____ _____ safe and safe _____ _____?

What _____ _____ ciphers protect the _____ _____ _____ transfer and _____?

_____ _____ _____ _____ _____ we keep _____ or _____ privacy _____ by using different _____ of encryption?

Different _____ _____ _____ are employed _____ _____ sensitive biometrics information.

How _____ methods _____ _____ _____ protection of _____?

What kind _____ protection does the _____ give _____ theSafety _____ both _____ and _____ _____ _____.

Which _____ ensure _____ _____ lose _____ Biometrics in _____ _____ storage?

_____ _____ we protect our biological _____ _____ _____ of _____ does _____ use?

Can you _____ _____ if the _____ _____ transmission _____ _____ _____ is keptCryptid techniques?

_____ do the encrypting methods _____ _____ _____ stored _____ information?

_____ do Encryption _____ protect _____ _____?

_____ security of our _____ is _____ _____ _____ encryption _____ make _____ safer?

_____ _____ _____ _____ are _____ to _____ sure the safety of biological _____ and _____?

I _____ _____ in learning _____ _____ methods used _____ my _____.

_____ the security of stored/ _____ biometrics _____ _____ _____?

_____ are the _____ methods used _____ _____ biological _____?

_____ _____ work _____ encrypting transmit and _____ bio _____?

I am _____ _____ _____ _____ _____ methods used _____ securing our details.

_____ _____ know which encrypting _____ are _____ _____ _____ your data?

There is a question _____ to whether _____ _____ a specific _____ approach _____ used _____ _____ _____ _____.

_____ interested in learning _____ encrypting methods used _____ _____ _____.

We are _____ to _____ and store biological _____ but which _____ of _____ _____ sure _____ _____ _____

_____ _____ _____ protection does the _____ give _____ the safety of _____ _____ and _____ biological _____?

_____ we keep storage _____ transmission _____ _____ when _____ _____ bio- data _____ different _____ _____ encryption?

_____ is a _____ _____ to _____ a specific _____ approach _____ _____ _____ protecting user's _____ data.

Does _____ know _____ way in which encryption _____ _____ _____ _____ _____ the _____ _____ biological data?

When dealing _____ bio- data, _____ we _____ storage _____ transmission _____ safe by _____ _____ types _____ _____?

How _____ encryption methods _____ protect _____ or _____ _____?

What types _____ encryptions do _____ _____ to _____ _____ _____ _____ safe _____ send and store?

_____ _____ of our biometrics is _____ stake; what encryption _____ make _____ _____ _____?

_____ are _____ methods _____ _____ protecting biological _____?

What protection _____ the Encryptions give to the _____ _____ _____ _____ and _____ _____ _____?

How _____ _____ _____ of the biometrics ensured, _____ the _____ of _____?

How _____ _____ methods work for protecting transmitted _____ _____ _____ _____?

_____ can transmit and _____ biological _____ but which _____ _____ encryptions make _____ _____ _____?

We can _____ and _____ biological _____ _____ which _____ _____ ciphers make _____ process _____?

We are able to transmit and store _____ _____ _____ which _____ _____ _____ guarantee _____ they _____ not _____

_____ you know the _____ _____ used to _____ _____ biological _____?

How do you _____ _____ or store _____ _____ _____ is something _____ _____ _____ Questions about.

Which ciphers _____ _____ to _____ _____ _____ when uploading and/orstoring _____?

_____ encryption _____ are used _____ _____ _____ very robust security _____ protecting _____ Biometrics?

_____ ciphers _____ used _____ _____ _____ safety of biological transfer _____ storing?

What sort _____ protection does _____ Encryptions _____ _____ the _____ of _____ _____ and unique _____ _____?

_____ are _____ methods _____ _____ the protection of transmitted _____ stored _____?

We are able _____ transmit _____ _____ biological _____ but _____ types _____ _____ _____ that _____ are not broken.

Which _____ _____ encryption is used to _____ _____ _____?

The _____ _____ _____ _____ the Encryptions give to theSafety _____ both transmitted _____ storing _____ _____

_____ ciphers ensure robust _____ _____ uploading _____ _____ data?

How _____ we securely _____ and _____ _____ _____ that _____ have with _____?

We're _____ how to protect _____ _____ and storage of _____ and _____ fingerprints _____ _____ _____.

_____ would _____ _____ _____ the encrypting methods used for _____ our _____ _____.

_____ _____ protect _____ safety of both _____ _____ storing _____ characteristics?

When dealing with bio- _____ do we _____ storage _____ _____ _____ _____ _____ _____ types of _____?

_____ we protect the _____ _____ _____ privacy when dealing _____ _____ data _____ _____ _____ encryption method?

We _____ _____ _____ transmit and _____ _____ _____ but what _____ of encryptions _____ the process _____?

_____ _____ a _____ _____ _____ a specific encryption _____ is _____ for protecting users' biological _____.

Which ciphers are used _____ make _____ _____ _____ ofconfidentialbiographical _____?

_____ do we keep ourbiometrics _____ _____ we _____ or _____ _____?

_____ _____ the types of _____ _____ make _____ _____ to transmit _____ _____ biological characteristics?

How are _____ biometrics secured _____ _____ _____ _____?

_____ _____ protocols are used to _____ _____?

_____ _____ _____ securely _____ and transfer the _____ we _____ _____ Biometric data?

Which ciphers are _____ _____ _____ _____ confidentialbiometrics _____?

_____ mechanisms _____ _____ are _____ to _____ the _____ Biometrics information.

_____ have _____ protect our _____ _____ _____ type of _____ _____ we use?

_____ _____ techniques _____ used _____ _____ and store information about _____?

Which ciphers _____ _____ _____ ensure _____ very robust _____ for _____?

_____ _____ _____ _____ transmit _____ store _____ qualities, _____ which types of encryption _____ that process _____?

_____ anyone _____ how _____ can be used _____ _____ the _____ _____ to a _____ _____ condition?

We have the _____ to _____ and store biological _____ but _____ we _____ the _____ _____ _____ _____?

_____ _____ like to know if you _____ _____ _____ _____ encrypting _____ _____ for my Biometrics.

_____ _____ to transmit and store _____ qualities, _____ _____ types _____ encryptions make _____ _____ _____ from.

_____ _____ aware of the _____ _____ _____ can be used to _____ biological _____?

_____ _____ _____ make _____ that the safety of both passing _____ _____ our _____ biological _____ _____ assured.

_____ types of _____ _____ _____ _____ safe _____ transmit and _____ our biological _____ confidential?

_____ anyone _____ of _____ specific _____ _____ which _____ can be used _____ protect biological _____?

Do _____ _____ the privacy of _____ _____ _____ _____ using certain types _____ encryption?

_____ _____ of _____ protects the safety of _____ passing and _____ _____ _____?

What _____ _____ _____ does _____ Encryptions _____ _____ _____ safety of _____ transmitted _____ storing unique biological traits?

What _____ _____ ciphers _____ _____ safety of both _____ and storing _____?

What _____ _____ ciphers _____ it _____ to _____ and _____ _____ unique biological traits.

_____ types _____ ciphers make _____ _____ safety of _____ _____ and storing _____ characteristics are _____?

What ciphers _____ _____ _____ safety _____ passing _____ storing _____ characteristics _____ protected?

Do we keep the _____ _____ when _____ _____ _____ _____ _____ particular types _____ encryption?

_____ _____ _____ security _____ _____ ensured with the _____ of encryption?

_____ _____ _____ ciphers help ensure _____ _____ of _____ transfer and storing?

Which encryption protocols _____ _____ _____ ensure a _____ _____ _____ _____ it comes to _____ _____ biometrics?

Do _____ _____ ifCryptography methods _____ used for securing the _____ _____ andStorage _____ _____?

_____ do we _____ store and _____ the _____ _____ we _____?

_____ can you _____ encryption _____ _____ a _____ bio profile?

_____ ciphers _____ _____ _____ ensure robust security while _____ _____ confidentialbiometrics data

_____ ciphers are used to ensure _____ _____ when uploading _____ _____ _____ biometrics _____?

How _____ we _____ to _____ _____ and transmit _____ _____ we _____ with biometrics?

Does _____ _____ how encryption can _____ _____ to protect _____ _____ _____ _____ the person's _____ material?

_____ mechanisms of _____ are _____ to _____ _____ community's Biometrics.

We _____ _____ _____ store _____ _____ _____ which types of _____ we use?

Which _____ protects transmissive/storeroom _____ _____ _____ _____ abiometric figures

We _____ transmit and store _____ _____ but _____ _____ of encryption _____ _____ process _____?

How do _____ securely store _____ transmit _____ we _____ _____ _____?

_____ _____ _____ _____ does _____ Encryptions _____ to the safety of both _____ and biological _____?

_____ types _____ Encryptions are used to _____ _____ safe to _____ and keep _____ _____ _____ make _____?

_____ _____ of encryptions do you use to _____ _____ _____ our biological _____ _____ safe _____ send _____ store?

Do _____ use encryption _____ _____ make _____ the _____ _____ the transferring/Storage of _____?

Which techniques ensure we _____ lose _____ Biometrics _____ the _____ _____ _____?

Different _____ _____ _____ used _____ _____ sensitive Biometrics information.

Which ciphers _____ _____ _____ ensure robust _____ when uploading _____ _____ _____ data?

_____ _____ _____ store _____ protect our _____ data?

What kind ____ protection does ____ ____ ____ ____ theSafety ____ both transmitted and ____ biological ____

____ do encryption ____ safeguard ____ ____ ____ biological information?

I ____ ____ in learning the encrypting ____ ____ to ____ ____ bio.

There ____ a question ____ or not a specific ____ ____ ____ used ____ ____ ____ biological ____.

____ ____ of ____ ____ help make ____ ____ to ____ and keep ____ biological traits confidential?

____ ____ you protect ____ bio ____ ____ encryption?

Different ways of encryption ____ ____ to ____ ____ ____.

____ ____ ____ ____ ____ ____ is something we want to ____ if it ____ encrypting.

____ ____ types ____ ____ ____ sure that the safety of both ____ ____ storing our unique biological ____ ____ ____

How canEncryption ____ make ____ safe ____ ____ ____ keep our ____ traits ____?

We ____ ____ ____ our ____ ____ ____ kind ____ encryption do we use?

What kind ____ protection ____ ____ ____ ____ ____ of both ____ and storing biological ____.

Which encryption techniques ____ ____ ____ protect ____ about ____?

____ ____ ____ ____ that ____ don't lose our ____ during ____ and storage?

____ want ____ ____ if you ____ ____ me ____ ____ methods used for ____ ____ transmitted Biometrics.

____ ____ the encryption methods ____ to ____ ____ biological data?

We ____ ____ ____ ____ ____ ____ which kind ____ encryption does it use?

____ ____ our Biometrics ____ while ____ transmitted and ____?

Which cryptographic protocols safeguard ____ transfer ____ ____ of ____ ____ and ____?

____ ____ ____ ____ ____ or storage privacy ____ dealing with our bio- data by using ____ ____ ____?

____ ____ in ____ ____ ____ can tell me the encrypting methods ____ ____ our ____ fingerprints.

How ____ ____ work ____ ____ transmitted or ____ biometrics?

We are able to ____ ____ ____ ____ ____ but ____ type ____ encryptions ____ ____ are not broken.

____ ____ ____ protect our biological data ____ ____ of ____ does ____ use?

Which ____ techniques are ____ ____ ____ storing ____ sharing ____ about you?

What types ____ ____ do ____ use ____ ____ our biological ____ safe?

____ ____ protocols protect the ____ of ____ features and ____?

How are encryption ____ used ____ ____ ____ ____ ____ stored biometrics?

What ____ of protection ____ the Encryptions ____ to the ____ ____ ____ ____ and ____ ____ traits?

____ ____ of protection does the Encryptions ____ ____ the ____ of ____ ____ stored biological ____?

What protection does ____ Encryptions ____ ____ ____ safety ____ both transmitters ____ stores ____ ____ ____ traits?

____ ____ ____ know the ____ ____ used for securing ____ details.

____ cipher ____ used ____ protect ____ biometrics?

There ____ a ____ ____ ____ whether there exists a specific approach ____ encrypting ____ ____ ____.

____ ____ ____ encryptions ____ we use to ____ our ____ differences safe?

Different encryption ____ are used ____ ____ ____ ____ information.

How ____ ____ ____ secured ____ ____ transmitted and stored?

____ ____ ____ used ____ ensure robust security when ____ ____ ____ confidentialbiometrics data?

____ ____ the security ____ the Biometrics ____ with ____ help ____?

____ ____ able ____ transmit ____ store biological qualities, ____ ____ ____ of encryptions guarantees ____ they ____ not broken.

____ mechanisms of encryption ____ ____ ____ to protect sensitive ____.

Which ciphers ____ ____ ____ ____ uploading ____ confidentialbiometrics?

____ ____ of cipher ____ ____ safety of biological ____ ____ storing?

We ____ ____ ability ____ ____ ____ store ____ ____ ____ which types of encryptions are used?

____ ____ ____ use of ____ to protect ourbiographical ____?

We ____ ____ ____ ____ ____ ____ ____ qualities, ____ which types of ____ make the process safe?

____ ciphers are ____ ____ ensure ____ ____ ____ ____ and/orstoring confidential biographical data?

____ ____ ____ used to ____ robust security ____ uploading confidential ____ data?

What ____ of ____ ____ ____ Encryptions give to ____ ____ of both ____ ____ unique biological ____?

Is it safe ____ transmit and store ____ ____ ____ ____ ____ ____ types ____ encryption?

____ ____ ____ methods work to protect transmitted ____ stored ____ ____?

What ____ ____ ____ ____ ensure the safety of ____ biometrics ____ using encryption ____ the ____ ____?

Different methods ____ ____ ____ used ____ protect ____ sensitive ____ information.

____ ____ of encryption are ____ to ____ ____ ____ Biometrics of ____ community

What ____ ____ protection does the ____ ____ ____ the safety of ____ transmitted ____ unique ____ ____?

What ____ kinds ____ ciphers make ____ ____ the safety of ____ ____ and storing ____ ____ is ____?

Which cryptographic ____ guard ____ ____ of ____ features ____ abilities?

____ ciphers ____ used to ensure robust ____ ____ uploading ____ ____ ____ data?

____ encryptions ____ ____ use ____ make ____ our ____ traits are safe when ____ ____ stored?

What kind ____ ____ does ____ Encryptions give ____ protect transmitted and ____ ____ ____?

____ ____ techniques are ____ for the storage ____ sharing ____ ____ about ____?

What encryption methods ____ ____ to ____ and ____ ____ data?

____ can transmit and store ____ qualities, ____ ____ ____ of encryptions ____ ____?

Which ____ techniques are used to store ____ ____ information ____ ____ ____ what ____ ____ risks?

____ are able ____ ____ and store biological qualities, ____ ____ types ____ encryptions ____ ____?

How do we securely ____ and ____ ____ ____ ____?

How ____ ____ Encryption ____ ____ bio information?

____ can ____ and store biological ____ ____ which type ____ ____ ____ the ____ safe?

Which ____ Techniques ____ and Store ____ ____?

____ security ____ our Biometrics is ____ ____ ____ encrypting ____ make ____ more secure?

What ____ types of ciphers ____ ____ that the ____ of passing and storing our ____ ____ ____ ____ ____

____ ____ ____ protection ____ the ____ ____ to the safety ____ ____ ____ and unique biological characteristics?

I'm interested in learning ____ the ____ ____ ____ ____ ____ our details.

How ____ you ____ transmitted ____ ____ ____ information with encryption ____?

What ____ ____ protection does the ____ ____ to ____ ____ of both ____ ____ unique ____ characteristics?

What types of ____ ____ ____ ____ the safety ____ ____ and storing our ____ ____ protected?

____ able to ____ and store ____ ____ but do we ____ ____ ____ ____ encryption?

____ kind of protection does the ____ ____ ____ ____ ____ of ____ transmitted ____ ____ biological traits?

The ____ ____ our ____ is ____ stake, ____ ____ techniques make ____ more secure?

Which ____ ____ Protect ____ Store ____ Data?

____ ____ of encryption are ____ to ____ ____ Biometrics information.

____ do ____ keep ____ biometrics secure ____ we ____ and ____ them?

____ ____ are used ____ ____ robust security in uploading and ____ ____ ____?

What different types ____ ____ ____ ____ the safety of both ____ and ____ our unique ____ ____ ____ protected

Do ____ work in the area ____ encrypting transmit ____ ____ ____ ____?

What ____ ____ protection does ____ Encryptions ____ ____ the ____ and ____ of unique ____ markers?

____ can the security of ____ ____ ____ ____ with ____ ____ of encryption?

____ ____ ____ used when uploading or ____ confidentialbiometrics ____?

Do you ____ ____ the ____ and ____ ____ ____ bianical ____ isCryptid techniques?

____ ____ of cipher ensures ____ ____ in ____ to abiometric ____?

____ is the ____ way ____ ____ ____ safety of ourbiometrics by ____ ____?

Do ____ know the ____ ____ ____ to protect and save ____ ____ ____?

I'm interested in learning ____ encrypting ____ ____ ____ ____ our ____ data.

____ different types ____ ____ make ____ the ____ ____ both ____ and storing our ____ are ____?

What types ____ ____ ____ ____ use to ____ our biological ____ safe?

I am ____ in ____ ____ encrypting ____ used for securing ____ ____.

____ weCrypt use ____ methods to ____ ____ the ____ ____ the ____ ____ the biometrics?

____ ____ ____ ____ transmit and store ____ qualities, ____ ____ types of encryptions ____ sure we are ____ of ____.

The security ____ our ____ is ____ stake, ____ ____ techniques ____ ____ data?

____ we ____ ____ privacy ____ ____ ____ with bio- data by ____ particular types ____ encryption?

We _____ able _____ transmit and store _____ _____ _____ _____ type _____ encryptions we _____?

_____ security _____ our _____ is _____ _____ _____ encryption _____ protect our data?

_____ types _____ encryption _____ we _____ _____ _____ our biological trait?

_____ _____ _____ _____ is at stake; what encrypting _____ make it _____ secure?

_____ _____ _____ in _____ area of _____ transmit/storage of _____ info?

_____ _____ interested in learning _____ _____ can _____ me _____ encrypting _____ used to secure _____ _____ fingerprints.

_____ _____ _____ _____ to store _____ share _____ about you and what _____ do _____ take?

_____ sort _____ protection does the _____ _____ to _____ of both transmitted _____ _____ _____ characteristics?

Different _____ of _____ are used to _____ _____ _____ _____ community.

_____ we _____ a type of _____ _____ _____ biological data?

_____ _____ _____ transmissive/storeroom security in regards _____ abiometric _____?

_____ encryption methods are used _____ storing _____ sharing _____ _____ _____?

Which _____ _____ sure _____ we _____ lose our Biometrics _____ the _____ _____ storage?

Do _____ _____ if the storage and transmission _____ _____ bianical _____ _____ _____?

encryption services _____ _____ transmitted/stored _____?

I _____ _____ about _____ to securely _____ or store _____ Biometrics _____.

Are _____ _____ _____ that _____ be _____ for securing the _____ _____ andStorage _____ biometrics?

_____ _____ _____ used to protect transmitted _____ _____ biometrics.

What _____ _____ Encryptions can _____ _____ safe _____ transmit _____ _____ _____ biological trait confidential?

_____ types of _____ make _____ _____ safety of both _____ and _____ our _____ biological _____ is _____

The _____ of _____ _____ data is something we _____ _____ it _____ encryption _____ _____ or _____.

We _____ able _____ _____ and _____ biological _____ but which type _____ encryptions ensure _____ they _____ _____.

The security of _____ biometrics is _____ stake, _____ encryption _____ _____ _____ more _____?

I would like to _____ _____ encrypting methods used _____ _____ _____ _____.

Which types of _____ _____ you _____ _____ make sure _____ _____ _____ _____ safe when transported and _____?

_____ kind of _____ does _____ Encryptions _____ to both _____ _____ unique _____ characteristics?

_____ is _____ _____ about whether _____ _____ a specific _____ approach is used for _____ _____ _____ data

How doEncryption methods _____ _____ _____?

How is the _____ _____ biometrics _____ _____ _____ help _____ encryption?

_____ kind of protection do the _____ _____ for the _____ _____ both transmitted _____ _____ _____ _____?

Which _____ safeguards transmissive/storeroom _____ in _____ _____ _____ figures?

_____ are the types _____ encryptions _____ can _____ it safe to _____ and keep _____ _____ _____ _____?

_____ type _____ _____ do the Encryptions _____ _____ the _____ _____ both _____ and unique _____ characteristics?

_____ are ourbiometrics secured during _____ _____ _____?

_____ _____ protocols protect the _____ and _____ of bodily _____?

_____ _____ are _____ to _____ _____ security _____ uploading and/orstoring confidentialbiographical data?

Which _____ _____ used _____ _____ _____ confidentialbiographical data?

_____ _____ kinds _____ ciphers make sure that _____ _____ _____ _____ passing and _____ our _____ are protected?

_____ are able to _____ _____ _____ _____ qualities, _____ which types of _____ ensure _____ they _____ broken

What should we do to _____ the _____ _____ ourbiometrics by using _____ during _____ storage _____ _____ _____ _____?

Which techniques make sure _____ _____ _____ _____ _____ _____ in _____ and storage?

The security _____ _____ Biometrics _____ at stake and _____ _____ _____ _____ _____ more secure?

What _____ _____ types of encryptions that _____ used to _____ _____ _____ _____?

_____ _____ _____ sure that we _____ _____ _____ Biometrics in transit and _____

_____ there _____ methods _____ for _____ the _____ _____ andStorage ofbiometrics?

_____ _____ _____ the transmission or storage privacy _____ our bio- data _____ the _____ _____ _____ encryption _____?

It _____ _____ to transmit and _____ biological qualities, but which _____ of _____ _____ _____ _____ are _____ from.

_____ security of our _____ _____ at stake, what _____ _____ _____ them _____ secure

_____ cipher is used _____ assure _____ security while uploading _____ _____ _____?

Which _____ techniques protect _____ _____ our _____ _____?

What are _____ methods _____ for _____ _____ _____?

_____ kind _____ _____ _____ _____ Encryptions _____ to _____ of both transmitted and storing _____ _____ characteristics?

Which ciphers are used _____ _____ robust security _____ _____ _____ _____ confidentialbiometrics _____?

Can _____ tell _____ about the _____ _____ for storing and _____ _____?

_____ _____ of Encryption are used _____ protect _____ Biometrics _____.

How do you _____ transmitted _____ _____ _____ with encryption _____?

Which _____ is used _____ _____ _____ _____ when _____ _____ storing confidentialbiographical data?

_____ is a _____ _____ the use of a specific _____ _____ for _____ _____ _____.

_____ should _____ do to _____ the _____ of our Biometrics, _____ _____ encryption _____ _____ storage/transmission _____?

What _____ of ciphers _____ _____ _____ transfer _____ storing?

When dealing _____ _____ _____ do _____ keep the _____ safe by _____ particular _____ of _____?

_____ ciphers _____ _____ to _____ robust _____ whilestoring confidential biometrics?

_____ do we securely _____ _____ transmit the data _____ _____ _____ Biometrics?

Our biological _____ _____ _____ _____ protected, which type _____ encryption _____ _____ use?

_____ ciphers are _____ for robust _____ _____ _____ _____ confidentialbiographical data?

I'm _____ _____ _____ _____ encrypting methods _____ in my stored/ transmitted _____.

_____ are our _____ secured _____ _____ are _____ and stored?

_____ encryption techniques _____ _____ store _____ data?

_____ you able _____ make sure _____ _____ _____ _____ transmission of ourbianical data _____ _____ techniques?

WhatEncryptions do we _____ _____ _____ our _____ trait _____?

Which _____ _____ are used _____ protect _____ store _____ personal biological _____?

_____ encryption techniques _____ _____ _____ _____ _____ sharing information about you and _____ _____ take?
