[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Data usage and bandwidth queries
Inquiry Sub-Category	Network congestion issues
Description	Customers may encounter slow internet speeds or decreased performance during peak hours or in densely populated areas. They reach out to their ISPs for solutions to mitigate network congestion, improve speeds, and address any service disruptions caused by high demand.
Data Size	6,610 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

____ ____ ____ way ____ ____ the performance ____ my ____ service in densely populated ____ with ____ demand?
