[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Product specifications and features request
Inquiry Sub-Category	Integration with third-party applications
Description	Customers ask if the telecommunications equipment can integrate with other software or applications they currently use, such as CRM systems or call center software.
Data Size	5,632 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

____ there an ____ where ____ features are ____ available ____ ____ ____ instead ____ being ____ natively?

____ it possible ____ ____ restricted ____ ____ exclusive via third-party ____?

Is it possible ____ ____ your ____ functions and ____ use external ____ for ____ ____ ____?

____ it ____ for certain features ____ ____ ____ ____ external APIs?

Is ____ possible for ____ functions ____ ____ ____ through an ____ APIs?

Is ____ possible for ____ to offer ____ ____ with features ____ ____ external ____?

____ it possible ____ only use externalAPIs ____ ____ certain functions ____ ____ ____ them ____?

Is ____ any option ____ ____ ____ ____ ____ by relying ____ external APIs ____ not nativeFunctionality?

____ there ____ ____ ____ functions ____ be accessed through ____ external ____ ____ of being built ____ the system?

____ it ____ for you ____ offer ____ ____ ____ features only available ____ ____ external APIs?

Is it ____ ____ specific features to ____ ____ ____ external ____.

I ____ to know ____ ____ features ____ only available via ____ ____.

____ it possible ____ certain features ____ only ____ via ____.

There is ____ chance ____ ____ ____ APIs can handle ____ ____ ____ ____ being native ____ trash.

Is it possible ____ ____ functions ____ only ____ from ____ ____?

Is it possible to have ____ ____ ____ ____ using outside ____ ____ ____ ____ integration?

Is there a ____ to ____ certain ____ ____ ____ ____ on external APIs ____ ____ nativeFunctionality?

Is ____ possible to ____ ____ external ____ to access ____ features ____ of ____ them ____?

Is it ____ ____ certain ____ ____ ____ only accessed ____ externalAPI?

Is it possible ____ ____ use external ____ for ____ features ____ ____ ____ built in ____?

Is it possible ____ ____ features to ____ ____ accessed through ____ ____?

____ it possible ____ ____ ____ ____ APIs to ____ certain ____ instead of ____ ____ built in?

There is ____ ____ ____ using ____ APIs ____ select functions.

____ ____ possible for limited ____ to ____ ____ on outside APIs, ____ ____ ____ integration?

____ there an ____ ____ ____ ____ exclusive features?

____ I be ____ ____ use third-partyAPI ____ avoiding ____ of ____ ____ ____ your product?

Do specific ____ ____ to ____ ____ APIs instead ____ using built-in ____?

____ there externalAPIs ____ ____ exclusive ____?

Is it possible _____ use restricted _____ _____ exclusively _____ _____ third-party _____?

Is there _____ chance we _____ have _____ _____ only _____ _____ external _____ integration?

_____ _____ use _____ _____ APIs required to _____ features?

_____ it possible to only _____ external APIs _____ access certain _____ _____ than _____ _____ _____?

_____ _____ possible for particular functionalities to _____ _____ only through _____ _____?

_____ it possible to skip built-in _____ and _____ _____ _____ _____ fancy _____?

Is it _____ _____ offer _____ option where selected _____ rely _____ _____ external _____?

_____ _____ use an externalAPI to _____ certain _____ _____ _____ using the _____ one?

_____ there _____ chance _____ _____ can _____ certain functions through externalAPI _____.

_____ _____ possible for you _____ offer an _____ _____ _____ that are _____ to external _____?

_____ we _____ _____ _____ to get _____ functions instead of having _____ _____?

Is _____ possible to dump _____ the built-in _____ _____ _____ _____ features to _____ _____ with the external _____?

Is it possible _____ only use external APIs _____ _____ _____ functionalities instead _____ _____ _____ _____?

_____ _____ possible to use _____ _____ APIs to access _____ _____ rather _____ _____ them in?

_____ APIs _____ offer _____ features instead _____ _____ native.

Is it _____ _____ use _____ externalAPI _____ access _____ features?

Is it possible _____ _____ _____ only work _____ outside APIs, _____ _____?

Is it _____ for features _____ _____ _____ through _____ APIs?

_____ it possible for restricted _____ _____ _____ be _____ _____ third-party APIs?

I don't know _____ it _____ possible _____ _____ _____ functions _____ _____ external APIs.

Is it _____ _____ _____ features to _____ accessed only via _____ _____.

_____ there a way _____ _____ _____ _____ only _____ available through external _____?

Is there _____ chance _____ _____ can _____ _____ _____ _____ external integrations only?

Is _____ possible _____ skip _____ built-in functions _____ use an external _____ _____ those _____ _____?

Will _____ _____ _____ _____ avoid using specific features _____ within your _____ _____ _____ use _____ APIs exclusively?

Is it possible that certain _____ _____ _____ _____ _____ to _____ available?

Is _____ _____ that you use _____ APIs _____ of using _____ _____?

Is _____ _____ _____ some _____ to be _____ _____ through externalAPI?

_____ it possible for _____ functions to _____ _____ _____ _____ outside?

Is _____ possible for _____ _____ _____ only _____ external _____ instead _____ being part _____ _____ system?

_____ there a way to _____ utilize _____ _____ _____ _____ on external APIs _____ _____ nativeFunctionality?

Is it _____ _____ use external APIs instead of _____ _____ _____ _____ _____ design.

_____ _____ make _____ _____ exclusive to the _____ API?

_____ the particular _____ only _____ _____ _____ sources?

I _____ _____ if _____ was a _____ of _____ _____ APIs for _____ functions.

Is it _____ for _____ functions to _____ _____ on _____ outside _____ circumventing _____ _____ altogether?

_____ _____ another way to _____ restricted feature _____ _____ via _____?

_____ it _____ for _____ functions to only _____ accessed _____ _____ external _____?

_____ it possible _____ only access _____ features via _____ _____ _____?

_____ features should _____ _____ _____ _____ APIs instead of _____ _____ into them.

_____ _____ _____ to use third-party _____ exclusively, _____ _____ integration of specific features _____ your _____?

Is it possible _____ _____ _____ _____ extraAPI usage rather than _____ _____?

Is _____ possible to _____ third-party _____ exclusively, _____ _____ _____ _____ features within _____ product?

_____ it possible for _____ particular _____ to _____ _____ _____ through externalAPI?

_____ _____ _____ _____ certain traits rely solely on _____ APIs?

Is it possible _____ _____ _____ _____ components in _____ _____ _____ Api usage?

Is it possible _____ _____ _____ are _____ _____ leverage _____ APIs.

_____ was wondering if there was a _____ _____ using _____ _____ APIs _____ _____ _____.

_____ the features _____ _____ _____ _____ external channels?

_____ _____ _____ option to _____ _____ _____ _____ by relying on external APIs and not _____ _____?

_____ _____ possible _____ limited functions to _____ dependent _____ using _____ _____ ignoring internal integration _____?

Is _____ possible to _____ _____ external channels _____ access _____ functions instead of _____ _____ _____?

Is _____ possible _____ you _____ _____ features _____ externalAPI?

_____ it _____ to only source certain _____ _____ _____ APIs?

_____ it possible _____ _____ _____ _____ be only through external _____?

_____ it possible to use _____ _____ instead of _____ features _____ _____ _____ design?

_____ _____ _____ to only _____ certain _____ _____ an external APIs rather _____ _____ _____ native ones?

_____ it possible _____ particular functionalities _____ _____ only _____ _____ externalAPI?

Is _____ _____ to access _____ features through _____ _____?

Is it possible for some _____ _____ only _____ _____ _____ _____?

Can some _____ only _____ using _____ _____ _____?

Is it possible _____ _____ features _____ _____ _____ _____ outside application _____ interface.

_____ _____ possible for _____ particular _____ _____ be _____ from external APIs?

_____ _____ possible _____ restricted feature _____ to be exclusive _____ third-party _____?

_____ _____ possible _____ have certain _____ only _____ external APIs, _____ _____ being in the _____?

_____ _____ _____ to not _____ native _____ in favor of _____ access?

Is _____ _____ way to use _____ capabilities exclusively by _____ _____ _____ APIs and _____ _____ _____?

_____ it possible _____ _____ _____ extraAPI usage _____ of _____ capabilities?

_____ it possible _____ _____ _____ to _____ _____ through external _____ instead of internal _____?

Is there any chance _____ _____ have _____ _____ through _____ API _____?

Is it _____ for _____ _____ _____ be only obtained _____ _____ _____ API?

Is it possible _____ skip _____ built-in _____ _____ use _____ externalAPI _____ those _____ _____?

Is it possible _____ _____ _____ to _____ be _____ through _____.

Is _____ traits _____ _____ _____ API?

Why _____ _____ make _____ _____ _____ to the external APIs.

_____ specific functions need the _____ of externalAPI _____ _____ _____?

Are _____ external APIs _____ _____ exclusive _____?

Is _____ an _____ _____ gives exclusive _____?

_____ possible _____ using external interface _____ _____ _____?

_____ it possible _____ limited _____ to _____ _____ _____ _____ outsideAPI, instead of _____ integration?

Is _____ _____ _____ have _____ functions dependent _____ using outside APIs, instead _____ using _____ _____?

_____ certain _____ _____ available via _____ APIs?

Is there _____ _____ _____ _____ certain _____ _____ _____ accessible through external APIs?

Is _____ a _____ to _____ _____ via _____ external APIs?

_____ it _____ _____ _____ _____ certain capabilities _____ relying on external APIs _____ _____ native one?

_____ it possible to _____ _____ external _____ instead _____ built-ins?

_____ _____ possible _____ _____ the built-in nonsense and force these _____ _____ work _____ _____ _____ external APIs?

_____ it _____ for _____ _____ _____ be only accessible through _____?

_____ _____ possible _____ certain _____ _____ only be obtained through external _____?

_____ _____ a chance _____ _____ _____ certain _____ only through the external APIs _____?

_____ _____ a _____ for certain functions _____ be accessed _____ _____ external _____?

_____ it possible _____ _____ to only be _____ through externalAPI _____ than _____ _____?

_____ there a _____ _____ _____ _____ solely on outside APIs?

Is it possible _____ specific features _____ _____ only _____ _____ _____ _____ APIs?

_____ it possible _____ _____ _____ on _____ API?

Would _____ be possible _____ _____ _____ external APIs for certain _____ _____ direct inclusion _____ _____ core _____?

Can _____ tell _____ if _____ _____ any _____ for _____ utilizing _____ capabilities _____ _____ on external APIs.

_____ it _____ to avoid _____ inclusion _____ _____ _____ _____ offering _____ utilizing external APIs for _____ features?

Is _____ _____ _____ use an _____ API for _____ functions?

Is _____ availability of _____ _____ on using _____ external _____?

____ ____ ____ ____ possible to rely ____ outside APIs ____ specific attributes.

____ it ____ for certain ____ to be ____ ____ ____ externalAPIs?

Will ____ ____ ____ ____ avoid integration ____ ____ features directly ____ your product if I utilize ____ ____ exclusively?

Is ____ possible to ____ solely ____ ____ ____ ____ for specific attributes?

Is it ____ ____ skip your ____ ____ and ____ the external ____ ____ ____ fancy features?

____ there ____ ____ ____ that is ____ available ____ external APIs.

____ ____ ____ ____ functions to be ____ exclusively via ____ APIs?

____ it ____ ____ some features are ____ ____ via ____ APIs?

Is it ____ ____ make certain ____ ____ ____ ____ external APIs?

____ ____ ____ ____ use external APIs for certain features without including direct inclusion ____ ____ ____ ____ ____?

____ ____ possible that external ____ ____ handle ____ features?

Is it ____ ____ we ____ have certain functions only ____ ____ ____?

____ some ____ rely ____ on ____ APIs?

____ it ____ ____ ____ particular functionalities can ____ ____ found ____ external APIs?

Is it possible ____ ____ ____ function ____ only ____ accessed via the ____ ____?

____ ____ an ____ ____ ____ gives exclusive features.

Is the ____ ____ certain ____ dependent ____ the ____ APIs?

I'm wondering if ____ ____ are ____ available ____ ____ APIs.

Is ____ ____ to use ____ ____ API instead ____ ____ features.

____ ____ ____ ____ options that only use certain ____ ____ relying ____ external APIs ____ not ____?

Is it ____ ____ ____ rely ____ ____ APIs for their ____?

Is there ____ ____ of using an external ____ ____ ____ ____?

Is ____ ____ to ____ use an ____ API to ____ ____ functions, rather ____ ____ ____ built in?

____ ____ possible to ____ ____ APIs for ____ ____ ____ of having them in the ____?

Is it ____ ____ certain features ____ ____ use external ____ instead of ____ ____ ____ ____ system?

____ ____ be ____ to ____ ____ APIs ____ ____ ____ integration of features ____ within your product?

____ it possible to ____ ____ ____ external ____ instead ____ internal integration?

Is it ____ to ____ use ____ capabilities by ____ ____ ____ ____ and not ____.

____ ____ possible for certain features to only ____ ____ ____ ____ channels?

Is ____ possible to only access ____ ____ ____ external ____?

____ you outsourcing ____ features to externalAPI ____ of ____ them ____ your ____ ____?

Is ____ possible ____ restricted feature ____ to ____ ____ via ____ platform?

____ ____ ____ the option ____ access features through ____ external ____?

Will ____ be able ____ ____ third-party APIs exclusively, avoiding ____ ____ specific ____ within ____ ____?

____ ____ another way to ____ restricted feature usage ____ ____ a ____ ____?

____ it ____ to ____ access certain ____ via ____ applicaton?

Is ____ designated ____ restricted to functioning solely ____ usage of third-party ____ ____ ____ ____ ____ this ____?

Is ____ ____ ____ ____ features ____ only work using outside access ____?

Is it possible ____ ____ ____ ____ ____ ____ ____ accessed ____ an external API instead ____ being ____ the system?

____ ____ ____ ____ to avoid ____ ____ of specific features into your product if ____ use ____ APIs ____?

____ specific functions only ____ ____ ____ ____ sources?

____ there another option ____ ____ ____ feature ____ ____ via third-party APIs?

Is ____ ____ ____ use the outside APIs ____ specific ____?

____ ____ possible that ____ particular ____ are only accessible ____ ____?

Is it ____ ____ ____ functions to be ____ ____ ____ APIs, instead ____ internal ____.

____ ____ ____ that ____ particular ____ can only be ____ ____ external sources?

____ it ____ to ____ certain things ____ a ____?

____ ____ ____ ____ only ____ certain features via an ____ APIs?

Is it possible for ____ ____ to be dependent ____ ____ ____ ____ ____ of ____ integration?

Is ____ ____ ____ ____ ____ external ____ to access certain functionalities ____ of having ____ built-in?

Is it possible _____ _____ functionalities _____ _____ _____ _____ external APIs?

Is it _____ _____ _____ _____ extraAPI _____ instead ofintegrated capabilities?

Will I be _____ _____ use _____ _____ _____ integration _____ specific _____ within _____ product?

_____ it possible _____ _____ _____ only _____ _____ accessed through external APIs?

_____ it _____ to _____ external APIs for _____ _____ _____ having them inherent _____ _____ equipment?

_____ it possible _____ _____ functions to _____ _____ through _____ external _____ rather than being _____ _____?

Is _____ possible for limited _____ _____ be dependent _____ outside access, _____ _____ _____ _____?

Is it _____ to _____ the _____ _____ and _____ _____ external APIs?

_____ it possible _____ get _____ _____ _____ _____ _____ rather than through internal integration?

Is it possible _____ have _____ _____ only use external _____ _____ of _____ _____ the _____?

Is it possible _____ _____ functions to _____ _____ _____ _____ APIs?

Is it _____ that some features can _____ _____ accessed _____ _____ _____?

Is _____ _____ _____ some _____ to _____ be obtained _____ _____ external APIs?

Is _____ _____ for _____ _____ _____ only be accessed through _____ infrastructure?

Would _____ _____ possible _____ _____ externalAPI for _____ features, avoiding direct _____ _____ part of _____ product's core _____?

Only _____ by _____ externalinterface _____ native _____?

Is _____ possible _____ use _____ _____ for _____ features _____ of putting _____ in _____?

Will _____ be able _____ use _____ _____ _____ exclusively, _____ integration of _____ features _____ the _____?

_____ it possible _____ _____ using _____ _____ in favor of _____ usage?

_____ it possible _____ use outside APIs _____ _____ certain _____?

_____ it _____ _____ offer an _____ _____ features strictly limited to _____ external _____?

_____ it _____ for _____ _____ to only be accessed _____ external _____?

Is it _____ _____ _____ an external _____ _____ select functions?

Is it possible _____ _____ _____ to be _____ _____ through _____ APIs?

Is _____ possible for _____ _____ to only _____ _____ from external _____?

Is it possible _____ obtain _____ _____ _____ APIs _____ _____ internal integration?

Can features _____ be _____ _____ an _____ _____?

Can _____ only use _____ _____ APIs to _____ _____ features?

Is it possible _____ _____ _____ _____ _____ only besourced from external _____?

_____ it possible that _____ traits rely solely _____ _____ _____?

Is it possible for features _____ _____ _____ obtained _____ _____ _____?

_____ it possible _____ _____ options _____ on _____ APIs _____ their availability.

Is _____ possible that _____ _____ rely solely _____ outside _____?

_____ _____ _____ for specific _____ _____ _____ obtained through external channels?

Is _____ _____ to _____ restricted _____ _____ exclusive via third _____ APIs?

_____ it possible to only _____ _____ to _____ certain _____ instead _____ _____ _____ built in?

Will I be _____ to avoid the _____ _____ features _____ into _____ _____ _____ I use _____ _____ exclusively?

_____ it _____ _____ some _____ to _____ work using outside _____ not _____?

Is _____ _____ option _____ _____ _____ certain functions _____ an external API?

_____ _____ _____ _____ _____ _____ use certain _____ by relying on external APIs and _____ _____ functionality?

_____ _____ possible for _____ _____ only use externalAPI instead _____ being _____ _____ system?

Is _____ _____ way _____ _____ third-party APIs _____ avoiding _____ integration of _____ _____ _____ your product?

Is _____ _____ for _____ feature _____ to _____ _____ _____ a third-party APIs?

Is _____ _____ _____ for designated _____ _____ _____ _____ external APIs instead of using internal _____?

Have you _____ that some _____ are _____ available _____ flippin' _____ _____?

_____ it possible for certain functions _____ _____ _____ _____ external _____?

Is there _____ _____ to _____ external APIs instead of _____ _____ _____?

_____ it possible for _____ _____ to only be _____ _____ external _____?

Is it possible for _____ features _____ _____ _____ external _____ rather _____ being _____ _____ _____ system?

_____ it _____ to _____ integration of _____ features _____ _____ the _____ _____ using third-party APIs?

Is it ____ ____ ____ features ____ be dependent on ____ ____ instead of ____ ____?

____ ____ possible ____ ____ functionalities to ____ besourced ____ external APIs?

Is ____ possible ____ ____ limited functionalities ____ on outside ____?

Is ____ possible to ____ external API for ____ ____ rather ____ ____ them ____ ____ equipment?

____ it true ____ ____ ____ are ____ available via ____ APIs?

____ ____ ____ ____ for ____ functions to operate via ____ APIs ____ of relying ____ ____ implementation.

____ there ____ option that ____ restricted feature usage ____ ____ third-party ____?

Is ____ ____ for certain functions to be ____ ____ ____ ____ API instead ____ ____ ____ into the system?

____ it ____ ____ some features ____ only work ____ outsideAPIs?

____ it ____ ____ ____ ____ certain attributes by ____ of a third-party ____?

____ ____ possible ____ some functions ____ ____ obtained via ____ API?

Is ____ possible ____ ____ ____ functions without being ____ in?

Is ____ ____ ____ ____ ____ ____ certain ____ by relying on ____ APIs and not ____ function?

____ it ____ to ____ ____ for ____ ____ instead ____ having them in equipment?

Do ____ have the ____ ____ ____ features only ____ ____ APIs?

____ there any ____ ____ allow ____ functions to operate via external APIs ____ ____ relying ____ ____ ____?

Is there ____ ____ to ____ ____ ____ capabilities by ____ on external ____ ____ not ____ capabilities?

Is it ____ to ____ the ____ ____ ____ directly within your product ____ utilizing ____ ____?

Can ____ ____ be ____ ____ specific ____ instead of having them ____ ____ equipment?

____ we use ____ external APIs to ____ ____ ____?

Is ____ any ____ ____ use ____ APIs instead ____ incorporating ____ ____ ____ native design?

____ ____ possible to ____ access certain features ____ externalAPI ____ of ____ ____ ____ ones?

I was wondering ____ I ____ ____ ____ external integrations ____ ____ built-in ____.

Is it ____ ____ use external ____ for certain ____ ____ ____ ____ the system?

____ ____ possible certain traits rely ____ ____ ____?

Is ____ ____ for ____ functions ____ ____ dependent on ____ access, and ____ internal ____?

____ you ____ a solution where certain features ____ only ____ ____ ____ ____?

____ ____ ____ ____ limited functionalities to be ____ on outside api ____ ____ ____ integration?

Do you ____ the ____ to access features ____ through ____ ____ ____?

____ ____ possible for certain ____ ____ be exclusively available ____ ____.

____ ____ ____ to have limited functionalities ____ on ____ use ____ outside ____.

____ there any way ____ ____ use ____ capabilities ____ relying ____ ____ and not ____

Is there ____ chance we ____ ____ certain ____ only ____ external ____ ____?

____ ____ to ____ ____ it's ____ ____ only rely on outside APIs ____ specific ____.

____ if ____ designated elements ____ ____ to functioning ____ ____ ____ of third-party ____ API systems?

Is ____ ____ that certain traits ____ exclusively on ____ ____?

Is ____ possible to not ____ ____ ____ functions and ____ ____ external ____?

____ ____ ____ for certain features to only ____ accessed ____ ____ ____ APIs?

Is ____ ____ possible to ____ ____ features exclusive ____ the ____?

____ it possible ____ ____ functions ____ ____ ____ through ____ external API, rather than ____ built ____?

____ ____ possible for ____ ____ to ____ obtained ____ external APIs?

Do ____ exist other ____ ____ using certain capabilities ____ by ____ ____ ____ APIs?

Is it ____ ____ opt ____ external ____ ____ ____ built in ones?

____ it possible ____ ____ ____ ____ for particular ____ avoiding direct inclusion as part ____ ____ core ____?

Is ____ ____ ____ only ____ certain ____ ____ external channels rather than ____ native ____?

Is ____ ____ ____ ____ via external APIs?

____ ____ possible that ____ ____ are only derived ____ ____ APIs?

Do ____ ____ ____ ____ ____ for exclusively utilizing certain capabilities ____ ____ on ____ APIs?

Would it be possible to ____ ____ for ____ ____ ____ direct inclusion ____ ____ ____ offering?

Is ____ possible ____ exclusively access certain ____ ____ an ____ ____?

_____ _____ _____ _____ the _____ of external _____ instead of built-in?

Is it _____ to _____ _____ _____ _____ APIs for _____ attributes?

_____ it possible _____ _____ to offer _____ option _____ _____ _____ to externalAPI?

_____ there any option _____ only _____ certain capabilities _____ you rely _____ _____ _____ _____ not _____?

_____ _____ a _____ that we can _____ _____ _____ only through _____ integrations.

_____ _____ possible for certain _____ to be _____ _____ external _____.

_____ _____ possible to _____ features through _____ _____ than through internal _____?

Is _____ possible for limited _____ to be _____ _____ outside _____ _____ not _____ _____?

_____ it _____ to use certain attributes _____ _____ _____ third-party _____?

_____ it _____ _____ _____ on the _____ APIs only?

Specific _____ _____ _____ _____ accessible through external _____.

_____ _____ be _____ _____ use third-party APIs exclusively, _____ integration of _____ _____ within your _____?

Is there another _____ _____ _____ _____ feature _____ exclusive via _____ APIs?

Is _____ _____ to only _____ the specific _____ via _____ _____ APIs?

Is it possible for features _____ be obtained _____ _____ _____ _____ of _____ _____?

_____ there _____ _____ way to exclusively use _____ _____ by relying _____ external APIs and _____ _____ _____?

_____ there _____ _____ to _____ _____ APIs instead of using _____ in _____ native _____?

I would _____ _____ _____ if _____ is _____ option where _____ features _____ only available _____ _____ APIs.

Is _____ possible _____ _____ functionalities to be _____ _____ _____ rather _____ internalintegration?

Is the _____ _____ _____ _____ dependent _____ _____ an external api?

Is it _____ _____ opt for _____ _____ rather _____ build-in _____?

_____ _____ possible for some _____ _____ _____ _____ using an outside application _____ interface?

Can _____ _____ be _____ only _____ outside?

_____ it be _____ to _____ _____ for certain features, avoiding direct _____ as _____ _____ _____ product's core _____?

Is it _____ _____ _____ _____ are dependent _____ outside APIs, _____ than internal _____?

Is _____ possible to skip _____ built-in functions _____ use _____ _____ _____ _____ _____ features?

Is it possible _____ _____ functions _____ _____ available through _____ _____ APIs?

_____ it possible _____ _____ _____ to be _____ _____ external APIs?

_____ it possible to _____ _____ _____ functions _____ use an external _____?

Is _____ _____ _____ _____ options rely on externalAPI for _____ _____?

I would _____ _____ _____ _____ there _____ _____ chance of using external _____ _____ select functions.

_____ it _____ to use _____ API _____ instead of including select _____ _____ _____ internal _____?

_____ it possible to use _____ APIs _____ _____ _____ _____ of _____ part _____ the system?

Is _____ _____ _____ the _____ _____ can only besourced _____ external APIs?

_____ it _____ to skip _____ _____ _____ and use an _____?

Is it possible _____ certain _____ _____ _____ be _____ _____ external API?

_____ _____ _____ _____ only access _____ _____ via an external API?

_____ it _____ for specific functions _____ be _____ _____ external _____.

_____ features _____ _____ _____ use of _____ APIs.

_____ there a need for _____ _____ _____ external _____ _____ access features?

Would _____ be possible _____ use an _____ application programming interface for _____ features, _____ _____ inclusion _____ _____ _____ core _____?

_____ some functions need the _____ _____ external _____ _____ of _____ built-in _____?

_____ it _____ for limited functions to be _____ on the _____ _____ rather _____ _____ _____?

Is it _____ to _____ on outsideAPI _____ instead _____ _____ _____ functions within _____ internal _____ _____?

_____ _____ possible for _____ _____ _____ be _____ on outside APIs, _____ not at _____?

Is _____ a _____ to use _____ instead _____ integrating _____ _____ the native _____?

_____ it possible _____ only _____ _____ _____ an external APIs?

Is _____ _____ _____ features to only work _____ outside APIs, _____ built _____ _____?

_____ _____ _____ to only get _____ features through _____ APIs?

_____ it possible that _____ _____ are _____ _____ leverage outside _____?

_____ _____ possible _____ _____ external interface beyond _____ ones?

_____ _____ _____ _____ limited functionalities are dependent on _____ _____ APIs instead _____ _____ integration?

_____ it _____ that features can only _____ using _____ _____?

Is it _____ _____ _____ features _____ only be _____ through _____?

_____ there a way for _____ _____ usage _____ _____ exclusive _____ third-party _____?

_____ _____ _____ external APIs to access certain features instead _____ using _____ _____ _____?

_____ there any _____ _____ _____ external APIs _____ _____ using features in _____ native _____?

_____ it _____ for you _____ _____ _____ option _____ features _____ _____ to the externalAPI?

_____ alternatives _____ _____ feature usage _____ _____ third-party APIs.

Do _____ _____ _____ option _____ _____ features _____ via the external API?

Is it possible _____ use _____ _____ exclusively, _____ _____ of _____ _____ directly within the _____?

Is _____ possible to _____ _____ _____ _____ only.

_____ we _____ external APIs to access _____ _____ _____ of having _____ _____?

Is _____ possible for _____ functions _____ _____ be _____ from _____ outside?

_____ _____ _____ of _____ _____ dependent on using _____ external _____ instead of _____ integration?

Is it _____ to only rely _____ _____ _____ _____ _____ attributes?

Is it _____ _____ _____ only _____ the _____ APIs?

Is there _____ _____ _____ _____ _____ _____ certain _____ _____ relying on _____ APIs and not native functions?

Is _____ _____ _____ _____ external APIs to access certain _____ _____ _____ having _____ built-in?

_____ interface _____ _____ ones _____ it possible?

Is it _____ _____ a _____ to _____ be obtained _____ _____ APIs?

Do there exist any other options _____ _____ certain _____ _____ _____ _____ _____ APIs?

Can I _____ _____ of the _____ _____ _____ force these _____ to _____ only _____ _____ externalAPI?

_____ I _____ able to _____ _____ APIs _____ _____ _____ of specific _____ in your product?

Will _____ be able _____ _____ _____ _____ only, _____ _____ _____ of features directly within your _____?

_____ it _____ for certain _____ _____ _____ use external APIs?

_____ _____ possible _____ some _____ to _____ only accessed via _____ APIs?

Why _____ _____ _____ _____ features exclusive _____ the external APIs?

_____ it _____ for the _____ features _____ be _____ _____ _____ the external APIs?

Is it possible for certain _____ _____ _____ _____ exclusively _____ _____ APIs?

Is it possible _____ _____ _____ _____ the outside APIs for _____ _____.

_____ _____ possible _____ _____ access _____ _____ via _____ APIs instead of _____ native ones.

_____ there _____ _____ that _____ can _____ _____ functions through the external _____?

_____ certain _____ _____ _____ external APIs _____ their availability?

_____ could be an _____ _____ _____ _____ on external rather _____ _____ integration.

_____ _____ _____ _____ that we _____ have certain _____ _____ external APIs integration?

Is _____ possible for _____ _____ _____ only _____ obtained via _____ access?

_____ might _____ _____ _____ give _____ a choice, so some features _____ exclusive _____ _____ external _____?

_____ _____ _____ for certain functionalities _____ _____ accessible through external _____?

Is it _____ that _____ _____ _____ on _____ APIs _____ availability.

_____ _____ _____ for specific functionalities to be only _____ through _____ _____?

_____ it _____ _____ features _____ _____ accessed with external APIs?

_____ _____ _____ specific _____ that is only _____ through external _____?

_____ it possible _____ _____ external APIs instead _____ native _____

Do _____ functions need the _____ _____ external _____ _____ of _____ implementation?

_____ _____ possible for features to _____ _____ with _____ _____ not built-in _____?

_____ _____ _____ chance that we _____ _____ certain _____ _____ through externalAPI integration?

_____ you _____ the option to _____ _____ _____ external APIs?

Is _____ _____ _____ _____ features to be _____ available via the _____ _____?

Is _____ possible for _____ functionalities to be _____ on _____ _____ _____ interface, _____ _____ internal _____?

_____ _____ options dependent _____ _____ APIs for _____?

Is it _____ _____ some _____ rely on _____ API _____ _____ availability?

_____ the use _____ external APIs required _____ _____ _____?

_____ _____ of _____ _____ _____ for certain functions?

Is _____ possible _____ _____ certain features _____ _____ external _____ instead _____ being _____ part of _____ system?

Is _____ possible _____ certain functions _____ _____ be accessed _____ _____ external _____?

Is it _____ to use external APIs for _____ _____ _____ the _____ _____ _____ _____ equipment?

_____ _____ be possible to use _____ APIs _____ _____ _____ _____ _____ _____ part of the product's core offering?

Is _____ possible to access _____ _____ _____ an external _____?

_____ it _____ to _____ _____ functions _____ external APIs?

Is there any _____ we _____ have certain _____ _____ _____ _____?

Is _____ _____ alternative that _____ _____ feature usage _____ _____ a third-party _____?

Is _____ possible that some _____ _____ _____ using _____ not _____?

Do _____ _____ require the use of _____ instead _____ _____ in _____?

_____ I be able _____ use third-partyAPI _____ _____ _____ _____ specific _____ directly within _____ product?

Is it _____ that _____ features _____ _____ to _____?

_____ it _____ for certain functions _____ _____ only _____ _____ APIs instead of _____ _____?

_____ _____ exist _____ other _____ _____ exclusively utilizing _____ capabilities by _____ on _____ APIs _____ not nativeFunctionality?

Is _____ any _____ _____ exclusively utilize certain capabilities _____ _____ external APIs _____ _____ native _____?

Is it _____ _____ _____ _____ to be exclusive through _____ _____?

_____ it _____ _____ certain options rely _____ external _____ for _____?

_____ there a way _____ avoid _____ _____ _____ _____ directly _____ your product _____ _____ third-party APIs exclusively?

Can _____ _____ _____ _____ through external APIs?

Is _____ possible _____ only _____ certain _____ _____ an external _____?

_____ there any way to _____ external _____ _____ _____ using _____ _____ features?

Is it _____ for _____ particular functionalities to _____ come _____ _____ _____?

_____ some _____ _____ on outside APIs _____?

_____ _____ possible to only _____ _____ features _____ an external _____?

Is it _____ that _____ _____ _____ solely on _____ APIs?

Can _____ use external APIs _____ _____ _____ functions _____ of _____ them _____?

Is it possible for you _____ _____ an _____ _____ only features _____ _____ _____ _____?

Is _____ possible _____ _____ functions _____ _____ exclusively _____ via external resources?

Is _____ _____ to _____ use external APIs to access certain _____ rather _____ _____ _____ _____?

_____ _____ _____ for limited _____ _____ be dependent _____ _____ APIs and _____ internal integrations?

Is _____ possible for particular _____ to _____ be _____ through _____ _____?

_____ it possible to _____ _____ APIs _____ avoiding the integration _____ _____ features directly _____ _____ _____?

_____ certain _____ only _____ _____ externalAPI?

Is _____ possible _____ certain functionalities only _____ _____ _____?

Is there a _____ _____ _____ using _____ attributes _____ _____ of third-party _____?

_____ it possible to _____ us _____ _____ _____ some features are only _____ _____ flippin' _____?

Is _____ _____ to _____ the _____ nonsense _____ force the _____ _____ work only on the _____ _____?

Only _____ with _____ _____ beyond _____ ones?

Is _____ possible _____ rely on _____ usage _____ than _____ _____.

_____ it possible for _____ features to _____ be _____ _____ _____ access?

_____ it true that _____ _____ external APIs instead _____ _____ _____ features?

_____ it _____ that _____ options _____ _____ external APIs _____ their availability?

_____ _____ necessary to use _____ _____ for certain _____ _____ _____ using built-in implementation?

Will I be able to _____ the integration of specific _____ _____ _____ _____ _____ _____ _____ third-party APIs _____?

It _____ _____ possible _____ use _____ _____ _____ certain features, _____ direct _____ _____ part of the _____ core offering.

_____ it possible to _____ features _____ _____ use _____ instead _____ being _____ _____ system?

_____ there a way to _____ _____ _____ _____ _____ for certain attributes.

_____ _____ _____ to only view specific features _____ _____ APIs?

Is _____ _____ _____ limited _____ _____ be dependent on _____ APIs?

_____ it _____ possible to _____ _____ outside _____ connections _____ of _____ select functions _____ the _____ system's architecture?

Is _____ _____ for _____ feature to _____ work _____ _____ outside application _____ interface?

Is _____ possible for a _____ _____ _____ _____ using an outside _____?

Is _____ an external _____ that offers _____ _____ _____ _____ being native?

_____ the _____ _____ available via _____ APIs?

Is there _____ way _____ exclusively _____ _____ _____ by _____ on _____ APIs?

_____ _____ _____ chance that we can have _____ functions _____ an _____ _____?

_____ _____ _____ to use an externalAPI _____ _____ that _____ _____ inherent _____ your equipment?

Can we use _____ _____ _____ _____ _____ functions instead of _____ _____ build-in?

_____ it necessary _____ use _____ APIs instead _____ _____ implementation?

_____ _____ functions need _____ use _____ _____ APIs instead _____ _____ built-in implementation?

_____ it _____ that _____ features are _____ available _____ external _____?

_____ _____ true _____ there are external _____ that _____ exclusive _____?

_____ we _____ _____ _____ access _____ functions rather _____ having them built-in?

Is it necessary _____ _____ external APIs _____ of _____ _____ for _____ _____?

Is _____ _____ to _____ certain _____ solely _____ _____ external source?

_____ you _____ _____ option _____ _____ functionalities _____ solely on external APIs, _____ their native integration _____ _____ product?

_____ it possible to _____ access _____ features via an _____ instead _____ _____ _____ _____?

_____ _____ offer _____ ability to access features _____ _____ _____ APIs?

_____ _____ _____ opt for external integratedAPI _____ of built _____ offerings?

Is there any other _____ _____ exclusively use certain _____ by _____ _____ _____ _____ _____ _____ native functionality?

Can _____ features only _____ _____ outside _____?

Can _____ just use _____ _____ for those _____ _____?

_____ _____ possible for features to _____ _____ _____ outside API?

Do you have _____ _____ _____ access _____ via _____ APIs?

_____ _____ _____ for _____ functions to only be _____ _____ external APIs?

_____ _____ possible _____ specific _____ to be only accessed via _____ _____?

Is it possible _____ _____ an _____ _____ _____ that are strictly limited _____ _____ external _____?

_____ specific functions _____ _____ _____ instead of built-in _____?

_____ it _____ for limited _____ _____ _____ dependent on outside _____ _____ not _____ integration?

_____ it possible _____ get _____ _____ through _____ APIs rather _____ _____ integration.

Is _____ _____ for _____ _____ functionalities to only _____ found _____ _____ sources?

_____ _____ possible for specific features to _____ accessed _____ _____?

Is _____ _____ to _____ _____ _____ _____ and just use external APIs for _____ fancy _____?

Is _____ _____ to offer _____ option where selected _____ rely solely on _____ _____ _____ _____ _____?

_____ it _____ _____ _____ functionalities are _____ derived _____ external APIs?

Is _____ possible for _____ particular functionalities _____ only _____ from _____ _____?

Will I be able _____ _____ third-party _____ _____ _____ the integration _____ certain _____ _____ _____ product?

Is _____ _____ to _____ access certain features via _____ _____ _____ instead of _____ native _____?

Would it _____ possible _____ use _____ for _____ _____ _____ direct inclusion as part of _____ _____ core _____?

_____ it possible _____ rely on extraAPI _____ _____ _____ integrated _____?

_____ it possible _____ certain functionalities _____ _____ besourced from _____?

_____ it possible for _____ _____ functions to _____ only _____ through _____ _____?

Do _____ have _____ option _____ access _____ through _____ _____ APIs only?

Is _____ possible to use _____ _____ _____ specific features, _____ _____ inclusion _____ _____ of the _____ offering?

_____ it possible _____ _____ _____ to only be accessed _____ external _____?

_____ _____ _____ externalAPIs _____ _____ _____ instead of having them in _____ equipment?

_____ it possible _____ _____ _____ functions _____ _____ outside APIs, instead _____ internal integration?

Do you _____ _____ _____ where selected _____ rely solely _____ external APIs, _____ _____ _____?

_____ _____ _____ to _____ rely on _____ APIs for _____ attributes?

_____ _____ offer _____ solution _____ only allows _____ access _____ features?

_____ it possible _____ _____ _____ APIs only _____ specific attributes?

Is it possible that _____ _____ are _____ _____ _____ _____ APIs?

_____ the _____ functionalities _____ _____ _____ from external sources?

Is _____ _____ way to exclusively _____ _____ capabilities by relying _____ external _____ _____ _____ native _____?

_____ it _____ that _____ traits _____ on _____ APIs?

_____ it possible _____ _____ functions _____ be dependent on _____ _____ of _____?

_____ _____ _____ _____ to only use _____ capabilities _____ relying on external _____ _____ not nativeFunctionality?

Is _____ _____ for _____ particular _____ to _____ be _____ from external _____?

_____ it _____ _____ a _____ function to _____ _____ accessible _____ external APIs?

_____ certain _____ only available _____ _____?

Is it possible to _____ _____ integration _____ _____ features directly within _____ _____ by _____ _____ _____ exclusively?

_____ it _____ for certain _____ _____ be exclusively obtained _____ _____?

Is _____ possible that certain _____ _____ only _____ _____ _____ APIs?

_____ it _____ _____ _____ _____ _____ to access _____ functions, _____ than having them built-in?

Is _____ a _____ to _____ restricted _____ usage _____ via _____ API?

Is _____ _____ choice to _____ _____ exclusively _____ external APIs?

Can _____ get rid of _____ the _____ _____ _____ force these features _____ _____ _____ with _____ external API?

Is _____ possible _____ allow _____ _____ _____ exclusive via third-party _____?

Is _____ any chance of _____ external _____ _____ _____ functions?

Is _____ an _____ for certain functions to _____ _____ _____ an _____ rather _____ being in _____ _____?

Is it possible _____ particular _____ _____ only be _____ _____ _____?

We _____ use _____ APIs to access _____ functions _____ _____ _____ _____ built in.

_____ _____ possible _____ only access _____ _____ via an _____ _____ instead of using the _____ _____?

_____ _____ possible _____ _____ features to only _____ using _____ not built-in?

I'd like _____ _____ _____ you can offer _____ _____ with features _____ to _____ _____.

I would _____ to know if there _____ _____ options _____ exclusively _____ certain capabilities _____ _____ _____ external _____.

Do _____ have _____ _____ _____ access features _____ externalAPI?

_____ there _____ external APIs _____ _____ _____ features?

_____ _____ possible _____ _____ _____ opt for external integrations instead _____ built-in _____?

Is it _____ to _____ only _____ APIs _____ access _____ functions _____ of using _____ _____?

Is _____ possible to _____ use _____ _____ for _____ _____ features?

_____ would like to _____ _____ _____ is possible to access certain _____ only _____ _____ _____.

Is it possible _____ opt for _____ _____ _____ of _____ in _____?

Is _____ any way _____ _____ external _____ instead _____ incorporating _____ _____ the native _____.

_____ _____ may _____ _____ _____ of _____ APIs instead _____ built in implementation.

Does certain _____ _____ _____ _____ outside APIs?

_____ _____ _____ for specific _____ to _____ only accessed via _____ api?

_____ _____ only _____ external APIs to access _____ functionalities _____ _____ having _____ built-in?

Can _____ _____ _____ APIs _____ of using _____ ones?

_____ _____ possible _____ some functions to only be _____ _____ _____ _____ APIs?

Is it _____ _____ _____ certain features only use _____ APIs instead _____ _____ _____ _____ the _____?

Is _____ any _____ _____ exclusively _____ certain _____ _____ relying on _____ APIs _____ not native _____?

_____ it _____ _____ limited functionalities to be _____ _____ _____ API?

Is _____ _____ way to exclusively _____ _____ _____ _____ relying on external _____ and not _____

_____ _____ possible _____ opt for external _____ _____ of _____ offerings?

Is _____ _____ only accessible through _____ _____?

Can we use ____ ____ to ____ ____ ____ instead ____ using built-in ____?

Is it ____ to ____ ____ ____ ____ specific ____ instead of having ____ in ____ equipment?

Is it ____ for certain ____ to ____ ____ ____ through external ____.

____ ____ possible to ____ use externalAPIs ____ ____ certain ____ instead ____ having them ____?

Is it ____ ____ use ____ feature ____ exclusively ____ third-party ____?

____ ____ ____ option ____ ____ functions ____ be accessed ____ an ____ ____ of being built in?

____ it possible ____ ____ ____ ____ ____ and ____ external APIs ____ those fancy features.

Can I ____ rid ____ ____ built-in features and ____ them to ____ ____ ____ the ____ ____?

Is there ____ ____ to ____ certain ____ to externals ____?

____ ____ possible for specific ____ to be ____ via an ____ ____?

Is ____ ____ to ____ all the built-in ____ and ____ the ____ to work ____ ____ the external ____?

____ it possible ____ ____ ____ ____ features through an externalAPI?

Is ____ possible ____ the ____ features ____ ____ be accessed through ____ ____?

Will ____ be able ____ use third-party ____ ____ ____ ____ integration ____ ____ directly into your ____?

Would it be possible to ____ ____ ____ for some ____ ____ ____ ____ ____ ____ of ____ product's core offering?

____ it possible ____ ____ restricted ____ ____ exclusively via third-party ____?

Do you ____ ____ ability to access ____ ____ via an ____ ____?

____ ____ ____ for certain features ____ ____ ____ available via external sources?

Is it ____ ____ ____ only ____ APIs to access ____ ____ ____ ____ building them in?

Is it possible ____ ____ ____ APIs for ____ features that ____ ____ in ____ ____?

Is ____ possible to only use ____ ____ using ____ ____?

____ it possible ____ ____ to only ____ ____ ____ rather than ____ part of the ____?

Is ____ ____ for ____ ____ ____ ____ externalAPI instead ____ being in the system?

Do ____ traits ____ solely on ____ ____?

Is it possible ____ ____ ____ certain features ____ ____ external ____?

____ I get rid of the ____ nonsense and ____ ____ features ____ ____ ____ ____ the external ____?

____ ____ ____ way to allow restricted ____ ____ exclusive ____ third-party APIs?

____ ____ possible to just use an external ____ for ____ ____ ____?

____ there ____ ____ we can have ____ ____ only through external ____?

Is ____ ____ to get ____ ____ ____ external application ____ than internal ____?

____ ____ use only ____ ____ to access ____ things ____ want?

Do ____ offer ____ ____ ____ access ____ only through the external ____?

____ I ____ ____ to ____ ____ ____ exclusively, ____ integration of features directly ____ your product?

____ it possible for features ____ ____ use ____ ____ instead of ____ ____ ____ system?

Is there ____ option ____ ____ certain capabilities ____ by ____ on ____ APIs and ____ ____?

Should ____ use only external ____ ____ access ____ ____ instead of ____ ____ built-in?

Is ____ ____ for ____ ____ ____ only work ____ an outside ____ point?

____ ____ ____ for some ____ to ____ work using outsideapi?

Is it ____ ____ ____ elements ____ restricted to ____ ____ upon usage of ____ ____ ____ systems?

Is it possible ____ use ____ for ____ features ____ ____ having them ____ ____ ____?

____ ____ ____ interface beyond ____ ones possible?

Do ____ exist any ____ ways to ____ use ____ capabilities ____ ____ on ____ ____ and ____ native ones?

____ it ____ that ____ features can ____ work ____ an outside ____ ____ interface?

____ there any way ____ ____ ____ ____ capabilities by relying ____ ____ APIs ____ not ____ functions?

Is it possible ____ certain ____ ____ ____ ____ APIs instead ____ being part ____ ____ system?

Is it possible ____ some functions to ____ ____ ____ ____ ____ ____ programming interface?

Is it true ____ ____ traits ____ ____ on ____ APIs?

____ there ____ reason ____ options ____ on ____ APIs?

____ ____ any other way ____ ____ ____ ____ capabilities by ____ external APIs and not ____?

____ it ____ ____ ____ specific ____ to be accessed ____ external APIs?

Is it possible _____ use _____ _____ _____ _____ _____ avoiding direct inclusion _____ your product's _____ _____?

Do you have _____ _____ _____ access _____ _____ via _____ external APIs?

Is _____ an _____ _____ _____ _____ functions to _____ APIS only?

There is a _____ _____ _____ _____ _____ _____ _____ functions through external integrations.

Is it possible that _____ traits _____ _____ on _____ _____.

_____ it possible to avoid _____ of specific features _____ within _____ _____ _____ using _____ _____?

Is _____ _____ _____ _____ _____ use _____ capabilities by relying on _____ _____ and _____ native functionality?

_____ it _____ _____ specific functions are only _____ _____ _____ of inside _____?

Is it _____ _____ _____ functions to be _____ exclusively via _____ _____?

_____ _____ _____ _____ certain _____ via external channels?

Can _____ _____ _____ external APIs to access _____ functions _____ _____ having them _____ _____?

_____ it possible _____ some _____ _____ _____ _____ on outside APIs, instead _____ internal _____?

Is _____ an _____ _____ _____ allows _____ features?

_____ features _____ built in, _____ _____ _____ only _____ used _____ outside APIs?

Is _____ possible to use _____ _____ for _____ _____ rather than _____ _____ _____ equipment?

_____ wondering _____ _____ is a _____ of using _____ _____ _____ for certain functions.

Is there _____ _____ to _____ _____ attributes _____ _____ means of _____ APIs?

It _____ _____ possible _____ _____ external _____ for _____ features, avoiding _____ _____ in your product's _____ offering.

_____ it possible to _____ _____ _____ _____ application rather _____ internal integration?

_____ it possible for some _____ _____ _____ be _____ via _____ API?

Is it _____ to _____ access _____ _____ _____?

_____ _____ _____ _____ features to externalAPI instead of incorporating _____?

_____ you have _____ ability to access _____ _____ _____ _____ APIs?

Is it _____ _____ have some _____ _____ use _____ APIs, instead _____ _____ in the _____?

Is it possible _____ _____ _____ _____ nonsense _____ force these _____ only to work with _____ _____ _____?

Some attributes _____ _____ on _____ rather _____ _____ integration.

Is there _____ _____ that _____ can _____ _____ _____ through external integrations?

Is _____ _____ of external _____ required _____ access some _____?

_____ _____ possible _____ _____ access certain features via an _____ _____ instead _____ _____ _____ native ones?

Is _____ _____ to just use an external _____ _____ those _____ _____?

Is it possible to _____ _____ certain _____ _____ _____ _____ _____ than using the _____ ones?

_____ you have an option where selected _____ rely _____ _____ _____ _____ without _____ _____ _____ the product?

Is it possible to _____ _____ _____ for _____ specific _____?

Is there a _____ _____ _____ _____ APIs exclusively, avoiding the _____ of _____ _____ _____ your _____?

Do _____ _____ _____ option to _____ _____ _____ an external APIs?

Is _____ possible _____ _____ _____ functionalities _____ _____ from external APIs?

Is _____ possible by _____ _____ interface _____ _____ ones?

Is _____ possible _____ a _____ _____ to _____ _____ accessed through an _____ interface?

Does _____ option rely on _____ _____ _____ _____?

Is it possible _____ _____ functionalities _____ _____ on _____ use _____ _____ APIs.

Is _____ any _____ _____ we _____ have certain _____ through _____ integrations?

_____ it possible for _____ functionalities _____ be dependent on _____ _____ _____ _____ _____ integration?

Is it possible _____ skip _____ _____ _____ just _____ external APIs for _____ _____?

Can _____ _____ external _____ to _____ _____ functions instead of _____ built-in?

_____ _____ _____ way to allow _____ feature usage _____ _____ third-party interface?

_____ it _____ _____ rely on an outside APIs _____ _____ _____?

_____ it _____ _____ some _____ _____ only work with outside _____?

_____ _____ _____ to _____ external APIs for features _____ _____ in your _____?

_____ certain characteristics _____ _____ _____ outside APIs?

Would it _____ _____ to use an _____ _____ _____ _____ for certain features, _____ _____ inclusion?

There ____ ____ ____ ____ ____ can ____ some of the functions through ____ integrations.

Is ____ possible ____ ____ functionalities only ____ be accessed through ____ ____?

Is ____ ____ ____ ____ ____ offer an ____ with ____ limited to the ____ APIs.

____ it ____ ____ ____ features to ____ accessed only ____ an ____ APIs?

External ____ is the ____ ____ ____ go for ____ features?

____ I ____ ____ APIs for ____ fancy ____?

Is it ____ ____ ____ functions can ____ be found ____ ____ APIs?

Do ____ ____ ____ ____ externalAPI for availability?

____ it ____ ____ only use external ____ rather ____ use the ____ ____?

____ it possible ____ ____ on ____ APIs ____?

Is ____ ____ for me ____ ____ external APIs ____ ____ features?

____ ____ ____ to use ____ APIs only, avoiding ____ integration of ____ ____ within the ____?

____ there a way to ____ ____ ____ ____ exclusive ____ a third-party ____?

____ ____ a chance ____ we can ____ certain ____ ____ through the external ____?

Is ____ ____ ____ opt for ____ external APIs instead ____ a ____ ____?

Do ____ ____ ____ ____ for ____ use ____ certain capabilities by relying ____ ____ APIs?

____ ____ functions ____ the ____ of ____ ____ instead of built in?

Some features ____ require the ____ ____ ____ ____.

Is ____ possible ____ ____ functions to only ____ ____ through ____?

____ ____ possible to ditch all the ____ nonsense and ____ these ____ ____ to ____ only ____ ____ ____ APIs?

Is ____ possible for ____ functionalities to ____ ____ ____ ____ externalAPI?

Is ____ ____ ____ functions to ____ be obtained ____ ____ APIs?

Is ____ availability ____ specified characteristics ____ ____ ____ use ____ ____ external API?

____ ____ ____ ____ use an external APIs for certain ____ ____ ____ inclusion as part of ____ product's ____ ____?

Is it ____ ____ ____ ____ ____ for features ____ ____ not inherent in your ____.

____ it possible ____ limited functionalities to ____ ____ ____ outside ____ skipping ____ integration?

Is ____ ____ that some ____ ____ work ____ outside APIs, not ____?

____ it ____ for ____ to ____ ____ using ____ outside APIs?

____ there ____ ____ of ____ an external ____ for some ____?

____ may be features ____ require ____ use ____ external ____.

____ there any way ____ ____ ____ certain ____ ____ using ____ ____ and not native ones?

Is there ____ chance of ____ ____ for ____ ____?

Is ____ ____ possible to make ____ features ____ ____ ____ external API?

____ it ____ to ____ ____ ____ usage ____ via third-party protocols?

____ ____ any ____ to limit certain ____ to ____ APIS ____?

Is it ____ to ____ ____ APIs for specific ____ ____ aren't ____ your ____?

Is ____ possible ____ ____ APIs to ____ ____ features ____ ____ being native?

Is ____ ____ ____ use ____ APIs for features ____ aren't inherent ____ ____?

Will I ____ able to avoid the integration ____ ____ directly ____ your ____ ____ I use ____ ____ ____?

Is ____ ____ of external APIs ____ ____ ____ functions?

____ it possible ____ ____ limited ____ ____ ____ dependent on outside APIs?

____ ____ designated elements ____ to ____ only ____ ____ ____ third-party applications' ____ ____ outside of this product/service?

Is it ____ to have ____ ____ use external ____ ____ ____ ____ ____ the system?

Do some traits ____ ____ on ____ ____?

Can you tell ____ if ____ ____ any options ____ ____ certain ____ ____ ____ relying on external ____?

Is it ____ that certain functions ____ only ____ ____ ____ external ____?

Is ____ possible ____ specific functionalities ____ ____ ____ accessible through ____ API?

Is there ____ ____ that we can ____ certain ____ through ____ ____ ____.

Is ____ ____ way to exclusively ____ ____ ____ by ____ on externalAPI and ____ ____?

Maybe you could ____ ____ ____ choice, ____ ____ features ____ only available through flippin' ____ ____?

Is it ____ ____ certain ____ to ____ be obtained ____ ____ integrations?

____ I ____ ____ to use third-party ____ exclusively, ____ integration of specific ____ in ____ ____?

____ ____ know if you ____ ____ an option with ____ limited ____ ____.

____ there ____ ____ to exclusively use certain capabilities ____ ____ ____ ____ ____ ____ not native functionality?

____ ____ options ____ ____ external APIs?

Is it possible ____ ____ to offer an option ____ features ____ ____ ____ ____?

____ ____ possible to skip ____ ____ functions ____ just ____ the ____ APIs?

Will I ____ ____ ____ avoid ____ of ____ features directly ____ ____ product ____ using third-party APIs ____?

Is ____ ____ for you to ____ ____ via ____ external ____?

____ there an ____ APIs ____ ____ exclusive ____?

____ it ____ ____ ____ an option ____ the selected functionalities rely ____ on the ____ ____?

____ ____ ____ other ____ to exclusively ____ certain capabilities ____ relying on ____ APIs?

____ it possible ____ ____ features to ____ exclusively ____ through external ____?

____ it possible for ____ functionalities to ____ ____ from ____.

Is it possible ____ use ____ ____ ____ specific ____ ____ ____ having them ____ your equipment.

Is ____ possible ____ access certain ____ from ____ ____?

Is it possible ____ specific functionalities can ____ ____ accessed ____ ____ ____?

____ ____ possible ____ particular functions ____ be ____ accessible through an ____ ____?

Would it be possible ____ ____ ____ ____ for ____ features, avoiding ____ inclusion as part ____ your ____ ____ ____?

Is it possible ____ ____ ____ ____ ____ to access ____ functions if ____ ____ built-in?

____ it ____ ____ ____ external APIs for ____ ____ than it is to ____ them ____ your ____?

____ it possible for specific ____ ____ ____ be accessed ____ ____ access?

Some features ____ be ____ ____ external ____ ____ of being ____ into ____.

____ it possible ____ ____ an external ____ for specific features instead ____ ____ ____ in ____?

____ ____ possible ____ access ____ ____ via external ____ rather ____ using ____ native ones?

____ specific functions ____ the use ____ ____ ____ ____ of ____ in implementation?

Is ____ ____ to ____ restricted feature ____ exclusive ____ third-partyAPI?

Can ____ ____ only external ____ ____ access ____ functions?

____ there an ____ that ____ ____ features?

Is it ____ ____ specific features ____ ____ be accessed ____ ____ APIs.

____ ____ ____ for ____ features to only ____ accessed via ____?

Is there ____ ____ to access ____ ____ ____ APIs?

Is ____ ____ ____ ____ ____ can ____ certain ____ only through the external ____ integration?

____ there ____ any ____ ways ____ exclusively use certain ____ by relying ____ ____ ____?

____ we use ____ externalAPIs ____ ____ certain ____ ____ of having ____ built-in?

____ ____ be ____ ____ ____ us a choice, ____ ____ features are ____ available through flippin' ____ APIs?

____ ____ ____ ____ to avoid integration ____ features directly within ____ product ____ I use third-party ____ ____?

____ it possible to ____ ____ certain features ____ an ____ ____.

I ____ like ____ know ____ it ____ possible to ____ ____ features ____ use external ____.

Is it possible ____ only access ____ features through ____ ____ ____ ____ ____ using native ____?

____ ____ possible ____ some ____ to only work using outsideAPIs, ____ ____ ____?

Do you think you could ____ ____ a choice of ____ ____ are ____ available through ____ ____ ____ ____?

____ ____ possible ____ some ____ to ____ work using ____ APIs ____ of ____ in?

Is ____ possible ____ features to be ____ ____ external ____ rather ____ ____ integration?

Is it possible ____ ____ external APIs ____ ____ having ____ ____ in your ____?

Will I ____ ____ to avoid integration ____ ____ features ____ ____ your ____ by ____ third-party ____?

____ ____ possible to access certain features ____ ____ ____ APIs instead of ____ ____ ____?

____ it be ____ ____ ____ external APIs ____ ____ ____ are not included ____ the core ____?

____ ____ ____ way to use ____ APIs ____ has ____ features?

Do specific ____ ____ use of ____ ____?

Some ____ ____ ____ the use of ____ ____.

____ the ____ of specified characteristics dependent ____ ____ an externalAPI ____ ____ seamless ____.

____ it true that ____ ____ ____ only ____ outside APIs?

____ want ____ ____ ____ ____ is ____ to rely ____ external APIs only.

Is it possible to ____ ____ APIs for specific features, ____ ____ inclusion ____ ____ part of ____ ____ ____ ____?

____ ____ possible ____ ____ traits rely ____ outside APIs?

____ there ____ ____ for ____ using certain capabilities by ____ on external ____ ____ ____ nativeFunctionality?

Are there ____ that ____ ____ features instead ____ ____ native?

____ ____ possible to ____ ____ ____ via an external application rather ____ ____ ____ ones?

____ there a chance that specific ____ ____ ____ ____ ____ ____ external APIs?

Is ____ possible to have ____ ____ dependent on ____ ____.

Is it ____ ____ use an external ____ instead ____ ____ ____ one?

____ ____ a chance we can ____ some of the ____ ____ ____ ____?

Do ____ ____ ____ ____ externalAPIs for availability?

____ it ____ for certain ____ to ____ obtained ____ ____ external APIs?

Will ____ ____ able ____ use third-partyAPI ____ ____ ____ of ____ ____ into your product?

Is ____ ____ other alternative ____ ____ restricted feature ____ ____ via ____ APIs?

Are ____ ____ ____ on external APIs for ____ ____?

Is ____ ____ to ____ only external APIs ____ access ____ functions, ____ of having ____ ____?

____ ____ possible ____ use ____ APIs ____ of native ones.

Is ____ a ____ of using external APIs ____ ____ ____.

Is it ____ ____ ____ external interface ____ ____ ones?

Is it ____ ____ ____ ____ only ____ on outside APIs?

Is ____ ____ to ____ externalAPI for ____ features instead of ____ ____ in ____?

Is ____ ____ that ____ features can ____ ____ using ____ APIs?

____ you have ____ ____ to ____ ____ ____ via an external APIs?

____ ____ ____ ____ ____ functions ____ dependent on ____ APIs, and not on internal ____?

____ ____ ____ ____ external APIs ____ certain features, avoiding direct ____ ____ part ____ ____ product's core offering.

____ ____ ____ ____ ____ specific ____ can only be found from ____ sources?

____ ____ ____ ____ specific features to only be accessed ____ ____?

____ there a way to ____ ____ ____ APIs instead of ____ ____ ____ ____ design?

Is there any ____ ____ ____ an external APIs ____ ____ ____ features in ____ ____ design?

Is ____ possible ____ certain functions can ____ be ____ ____ external ____?

____ ____ any chance ____ ____ external APIs ____ certain functions.

Is ____ possible to ____ the ____ ____ specific features directly ____ ____ product ____ ____ third-party ____?

Is ____ possible to ____ ____ outside API ____ as opposed ____ ____ ____ functions ____ ____ internal system?

____ it possible that ____ functions are ____ through ____ ____ ____?

____ don't ____ if ____ ____ ____ an option with ____ limited to ____ ____ APIs.

_____ _____ use _____ APIs to get certain features _____ _____ _____ _____ native ones?

Is _____ _____ for specific _____ _____ _____ only accessible through external _____.

_____ it _____ that the particular _____ _____ _____ from external _____?

_____ _____ APIs offer _____ features?

_____ _____ possible _____ limited _____ _____ be dependent _____ _____ outsideAPI, rather than internal _____?

_____ _____ possible to _____ _____ external integrations _____ than _____ ones?

_____ certain features _____ _____ _____ external APIs?

Is there any _____ _____ we can _____ _____ _____ only through _____ API _____?

Is there _____ _____ we _____ have some _____ _____ _____ _____ external integrations?

_____ _____ know _____ there _____ any chance _____ using external APIs _____ _____ functions?

_____ _____ like _____ know _____ _____ possible to rely _____ _____ outside APIs for certain _____.

Is there _____ better _____ to make _____ features _____ to _____ _____?

_____ _____ _____ to _____ your _____ functions and use _____ externalAPI for those _____?

Do any options _____ _____ _____ use of certain capabilities _____ _____ _____ external _____?

_____ it _____ _____ only use an _____ API to _____ _____ functions?

Is it possible for some _____ _____ be _____ _____ _____ an _____ _____.

Is _____ possible _____ _____ features _____ _____ accessed via external _____?

Is _____ possible some _____ _____ on _____ APIs _____ availability?

_____ _____ possible _____ use _____ API _____ _____ of _____ select functions within the internal _____?

_____ I use _____ APIs _____ _____ _____ features.

_____ there any _____ _____ allow _____ functions _____ operate via _____ APIs _____ _____ internal implementation?

Is _____ possible that specific _____ _____ only _____ through _____ _____?

_____ there any way to allow _____ functions to _____ _____ _____ _____ _____ than relying on _____ _____?

Is _____ _____ chance _____ _____ external APIs _____ select functions.

Can we _____ _____ _____ to _____ _____ features _____ of _____ native ones.

_____ _____ _____ know if there _____ _____ options _____ using _____ capabilities exclusively by relying on _____ _____.

I'm _____ _____ _____ possible to rely solely _____ _____ _____ _____ specific attributes.

_____ _____ only use _____ APIs _____ _____ certain _____ instead _____ having them built _____?

Is it _____ to _____ _____ certain capabilities by _____ _____ _____ APIs and _____ _____.

Is _____ an alternative to use _____ _____ _____ avoiding _____ of _____ _____ within _____ product?

External _____ can be _____ for _____ _____ _____ inclusion as _____ of _____ _____ core offering

_____ _____ options depend on _____ _____ _____ availability?

Can _____ _____ _____ _____ _____ of native components?

Is _____ possible _____ offer _____ _____ _____ the _____ functionalities _____ solely on _____ APIs?

Is it _____ _____ certain _____ _____ only _____ derived _____ external APIs?

Can _____ only use _____ APIs to _____ _____ _____ _____ of _____ the native _____?

_____ _____ possible to _____ an _____ where _____ _____ functionalities _____ solely on _____ integrations?

Is it possible to _____ _____ built-in _____ _____ use external _____ for _____ _____ _____?

Is _____ possible _____ _____ _____ functions that are dependent on outside _____ _____ _____ internal _____?

_____ _____ any chance of using external _____ for _____ _____?

_____ by _____ _____ _____ over native ones?

Can we _____ external _____ _____ _____ certain functions instead _____ _____ built-in _____?

_____ _____ _____ that certain traits _____ on _____ APIs?

Is _____ _____ to access features _____ _____ external _____?

_____ it possible to rely _____ on the _____ APIs _____ _____ _____.

Is _____ possible _____ certain _____ to _____ accessed _____ _____ APIs?

_____ _____ possible for specific features _____ only be _____ _____ _____.

_____ _____ be _____ to use _____ _____ for specific _____ avoiding _____ inclusion in your product's _____ _____?

_____ it _____ _____ only _____ an external _____ _____ certain functions, _____ than _____ them?

Is there _____ chance _____ we _____ _____ certain _____ through _____ integrations?

____ ____ features ____ ____ via external APIs?

Is ____ possible for ____ functions to ____ ____ ____ ____ externalAPI.
