[Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Privacy and data protection concerns
Inquiry Sub-Category	Data Breach Response
Description	Inquiries about the marketplace's protocol for detecting, investigating, and responding to data breaches, including notification procedures and remediation plans.
Data Size	7,505 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

____ steps ____ taken after discovering a ____ flaw ____ ____ ____ your system's ____?

When a security ____ ____ found ____ your system, ____ ____ ____ involved?

What would ____ ____ ____ ____ ____ a vulnerability?

What ____ after a security ____ ____ ____?

What actions were ____ ____ ____ ____ weakness ____ your system?

What actions ____ ____ ____ discovering ____ ____ your system?

____ a vulnerability ____ found ____ ____ infrastructure, what ____?

____ ____ you deal with a ____ ____ ____ system?

How ____ ____ ____ security flaws ____ ____ discovered?

what ____ ____ ____ discover a vulnerability ____ ____ infrastructure?

After finding a system ____ ____ ____ ____ ____?

____ what happens when there's a potential ____ ____ ____ ____?

How d'ya ____ it ____ ____ ____ a vulnerability ____ ____ system?

What can ____ done ____ fix security issues ____ ____ ____?

Is there ____ ____ for ____ system flaws ____ ____?

____ ____ ____ ____ found, what actions ____ taken to ____ it?

What ____ ____ ____ after a ____ ____ is identified?

What ____ afterwards ____ you detect ____ ____ ____?

What ____ you ____ ____ discovering ____ flaw on your ____?

____ ____ do you ____ ____ finding ____ vulnerability?

____ ____ the ____ after the ____ of ____ security flaw?

____ steps are ____ to ____ ____ ____ issues in your ____?

____ you ____ any ____ ____ ____ vulnerabilities in your system's ____?

Do ____ take ____ after uncovering a ____ in ____ ____ ____?

____ actions ____ being taken after ____ a ____ ____?

____ ____ anything taken ____ discovering ____ vulnerability?

What ____ you ____ ____ ____ when you ____ a ____ hole?

____ ____ ____ been taken after ____ ____ vulnerability?

What procedures ____ ____ in the ____ of a ____ ____?

How ____ ____ ____ ____ issues after ____ found?

____ there ____ action ____ ____ finding ____ in ____ system's infrastructure?

____ ____ after ____ ____ of ____ security flaw?

When you ____ a ____ flaw, ____ ____?

How ____ ____ address ____ ____ once ____ found?

What happens ____ you ____ ____ ____ in your ____?

What ____ ____ you detect a ____ weakness in ____ ____?

____ ____ flaws ____ weaknesses ____ found, how ____ you address ____?

How ____ ____ ____ ____ when a security flaw is ____?

____ ____ ____ followed after ____ ____ security flaw?

What ____ ____ taken ____ a ____ is ____ ____ your infrastructure?

____ discovering system ____ what ____ you ____?

After ____ ____ issue, ____ should ____ ____ ____ protect your infrastructure?

____ ____ ____ actions after a system ____ ____ discovered?

____ you finally ____ a ____ ____ ____ system weakness, what ____ you ____?

____ ____ when you see a ____ ____?

____ ____ the ____ ____ when a security flaw ____ found?

____ are the steps that ____ taken to secure ____ infrastructure ____ ____ ____ ____?

What do you do ____ ____ discover a ____ ____ ____ ____?

What procedures ____ ____ ____ after ____ a security ____?

Which ____ are taken ____ ____ your infrastructure after ____ ____ ____ issue?

How ____ you ____ ____ ____ in the ____?

When a ____ ____ ____ ____ is discovered, ____ ____ should be taken?

What ____ ____ if you ____ a vulnerability ____ ____ infrastructure?

What will ____ ____ after ____ flaw ____?

What ____ ____ after ____ ____ threat in the ____?

When ____ security flaw or ____ ____ ____ ____ your infrastructure, ____ actions ____ taken?

____ procedures ____ ____ ____ ____ security issue is discovered?

What ____ down after a ____ ____ ____ detected in ____ ____?

What ____ now that ____ security flaw ____ ____ ____?

____ procedures ____ ____ after finding ____ security ____?

____ happens when ____ are discovered ____ ____ ____?

____ ____ ____ ____ respond to a security ____?

____ ____ you address ____ ____ are discovered?

____ ____ ____ infrastructure have ____ ____ taken ____ you identify vulnerabilities?

What ____ ____ do once ____ ____ a security ____?

What can ____ done to fix ____ discovered ____ issues ____ ____ ____?

How do ____ address ____ security ____ after they ____ ____?

____ is ____ ____ ____ for ____ detecting security glitch?

____ do you address security ____ ____ ____ are ____?

____ you ____ action if ____ ____ ____ errors?

____ ____ ____ discovering a ____ in ____ infrastructure?

How will ____ ____ after finding a ____ in ____ ____?

____ happens after ____ potential ____ ____ discovered in ____ system?

____ procedures ____ ____ after detecting ____ ____ flaw?

____ ____ taken ____ detecting system ____?

What action ____ ____ ____ after security ____?

How do ____ handle ____ security ____ ____ in your ____?

____ do ____ ____ when we ____ ____ weakness?

____ ____ you address ____ security ____ after they're ____?

What happens ____ a ____ ____ is ____?

____ ____ is ____ ____ discovering a security ____?

What action do ____ ____ ____ ____ a ____ vulnerability?

What ____ happen ____ ____ ____ a security ____ in ____ infrastructure?

____ ____ the ____ taken ____ a security issue ____ found?

When ____ security ____ is ____ what ____?

____ you ____ weakness in ____ ____ what ____?

What steps are ____ when ____ security ____ is ____ ____ ____ system?

____ ____ security flaw is ____ how ____ your ____ respond?

____ ____ ____ after ____ ____ a system flaw?

____ ____ are taken when ____ ____ weakness is ____?

How do ____ make your platform ____ after ____ ____ ____?

When you ____ ____ system ____ ____ ____ happen?

____ steps ____ involved ____ ____ ____ issue is discovered?

Which ____ ____ you ____ ____ ____ your infrastructure after ____ an issue?

What should happen ____ ____ ____ ____ ____ vulnerability?

____ ____ handle it ____ stumbling ____ some ____ in the ____?

Once ____ ____ ____ is ____ ____ your system, what ____ the steps?

What ____ you ____ ____ ____ a system ____?

How ____ ____ deal ____ ____ security flaw within the ____?

How can ____ ____ ____ ____ once spotted?

Do you have ____ ____ address security ____ ____ ____ setup?

____ ____ when ____ vulnerability is ____ in your ____

____ you ____ a ____ ____ ____ with security ____ in your system?

When ____ ____ ____ ____ hole, what do you ____?

When a ____ ____ or ____ ____ detected, ____ does your infrastructure ____?

____ ____ ____ a flaw in ____ ____ do ____ take action?

____ actions are ____ when a ____ ____ is ____?

____ should ____ after ____ a security ____?

____ ____ any steps ____ ____ ____ system vulnerability?

____ steps ____ ____ ____ ____ there is a ____ issue with ____ system?

What are the ____ ____ to ____ ____ infrastructure ____ ____ an issue?

What steps ____ taken to ____ ____ ____ inside your ____?

What do ____ ____ ____ there ____ a security ____.

____ steps are taken ____ you discover a security ____ ____ ____ ____?

____ ____ security ____ is found with ____ system, what ____ the ____ ____ take?

____ ____ ____ ____ if ____ catch a ____ hole or weakness?

What ____ ____ the ____ ____ a security ____?

Is there ____ ____ taken ____ ____ vulnerabilities in ____ system's ____?

____ ____ ____ ____ is found ____ the system, ____ steps are taken?

____ ____ ____ you take ____ there are ____ errors?

What ____ would you ____ ____ ____ ____ security errors?

What actions ____ ____ take after ____ ____ ____?

When ____ ____ is detected ____ ____ platform are there ____ ____ ____ taken?

What ____ next once ____ ____ a ____ ____?

What ____ you do ____ you ____ a security ____ ____ your ____ ____?

How ____ you deal with a security ____ ____ ____ ____?

What ____ ____ taken after discovering ____ ____ flaw ____ your ____?

What ____ ____ ____ once you find ____ ____ issue?

Do _____ take _____ to _____ a weakness _____ _____ infrastructure's _____?

_____ steps do _____ take _____ _____ discover a _____ within _____ _____ architecture?

What procedures followed _____ _____ _____ _____ is _____?

Are _____ going to _____ steps to _____ _____ _____ in _____ infrastructure's _____?

_____ detecting a _____ _____ what is _____?

_____ actions were _____ _____ _____ a _____ point?

How do _____ handle the situation after _____ _____ vulnerability _____ _____ _____?

_____ steps _____ after _____ _____ _____ has been discovered?

_____ can happen _____ _____ vulnerability is found _____ _____ infrastructure?

What actions _____ taken _____ a _____ flaw _____ vulnerability _____ _____ _____ your infrastructure?

What _____ when _____ see _____ _____ in your _____?

How to _____ _____ _____ after detecting _____ _____?

How _____ _____ react _____ _____ detection of vulnerabilities _____ _____ infrastructure?

How _____ _____ _____ after _____ _____ flaw in the system?

What _____ if a _____ issue is _____ _____ _____ system?

_____ do you _____ with _____ _____ within _____ infrastructure?

How _____ _____ _____ _____ weaknesses after they're _____?

_____ _____ _____ a security weakness is _____?

_____ you _____ a system flaw, what _____ _____ _____?

_____ will _____ deal _____ _____ security _____ within your system's _____?

Do you take _____ if _____ find a _____ _____ _____ _____?

How is the system handled _____ _____ is _____ _____ _____?

What are the procedures _____ _____ finding _____ _____ _____?

_____ follows after _____ _____ vulnerability _____ _____ infrastructure?

What should _____ done _____ _____ security _____ within your _____?

Do you take _____ _____ you discover _____ _____ _____ your _____ defense?

_____ _____ catch _____ _____ hole _____ system weakness _____ do you do?

_____ _____ if a security weakness _____ _____?

_____ handle _____ after _____ upon some vulnerability _____ your _____?

_____ _____ actions taken after identifying _____ in _____ _____?

_____ _____ have any specific steps _____ _____ _____ vulnerability _____ detected?

What _____ _____ you detect a _____ _____ or _____?

After locating a _____ _____ _____ actions _____ _____?

What _____ when _____ detect a _____ _____?

Security _____ _____ identified and _____ _____ are _____?

_____ _____ _____ flaws handled post-discovery?

What _____ have _____ taken _____ _____ _____ in _____ system's infrastructure?

Which _____ _____ used _____ secure your infrastructure after _____ _____ _____?

How _____ _____ _____ respond when _____ discovers a _____ flaw?

_____ happens when _____ spot a _____ in _____ _____?

_____ d'ya handle _____ vulnerability _____ _____ system _____ stumbling upon _____?

What _____ were taken after _____ _____ _____?

_____ is _____ _____ to a _____ flaw in _____ infrastructure?

_____ do _____ _____ _____ a _____ issue after it's _____ with your _____?

How do you _____ _____ _____ weaknesses _____ they are _____?

_____ do you handle a vulnerability _____ _____ upon _____ in _____ _____?

_____ _____ _____ vulnerability, _____ actions should _____ taken?

_____ _____ _____ _____ a vulnerability is found?

_____ _____ will follow the _____ _____ a _____ vulnerability?

_____ steps are _____ after _____ _____ issue is _____?

_____ _____ it take after _____ potential _____ _____ the system?

_____ d'ya _____ _____ after _____ on some vulnerability _____ _____ precious system?

_____ _____ _____ _____ specific steps _____ a _____ is discovered _____ your platform?

_____ is done when a _____ _____ _____?

What _____ you do after _____ _____ _____?

_____ will _____ if _____ spotted a _____ _____?

_____ a security _____ _____ _____ _____ discovered, how does your _____ _____ respond?

_____ _____ _____ address security flaws once _____ are _____?

_____ _____ _____ _____ _____ your _____ respond to a security flaw?

Any _____ for _____ system _____ _____ _____ are spotted?

_____ you _____ _____ way of dealing _____ _____ security _____ in _____ system?

_____ actions are _____ once a _____ _____ _____ found?

What _____ _____ after _____ system _____?

_____ _____ tell us _____ _____ process of handling _____ vulnerabilities _____ your network _____?

What _____ _____ do _____ you _____ security _____?

_____ _____ security flaw or _____ _____ detected, _____ does _____ _____ infrastructure do?

_____ _____ you address _____ _____ within your _____?

_____ a vulnerability is _____ in your infrastructure, _____ _____ _____?

Have _____ established procedures to fix _____ _____ flaws _____ _____ _____?

_____ steps are taken _____ discovering a _____ in _____ _____?

_____ _____ _____ _____ with the _____ in the infrastructure?

_____ _____ be done to _____ _____ vulnerabilities?

_____ _____ uncover _____ _____ in your infrastructure, _____ happens?

When _____ security _____ is _____ what do _____ _____?

_____ _____ when there _____ _____ vulnerability within your _____?

How _____ _____ _____ _____ _____ _____ upon a vulnerability in _____ precious system?

_____ do _____ handle _____ _____ issue _____ your system?

What's _____ _____ up _____ _____ _____ a security glitch?

_____ _____ do you take _____ you discover _____ weakness _____ your _____?

_____ _____ is taken _____ _____ _____ is discovered?

_____ _____ have procedures _____ _____ _____ deal _____ security _____ in your system?

_____ _____ platform have specific _____ taken _____ a _____ _____ detected?

_____ there is _____ _____ in _____ infrastructure, _____ happens?

Do you take any _____ _____ _____ _____ vulnerability _____ found on _____ _____?

Do you know _____ happens when _____ _____ _____ in _____ _____?

_____ _____ you _____ a weakness _____ _____ infrastructure?

_____ _____ _____ do _____ make _____ platform safe _____ you _____ a flaw?

_____ are _____ follow-up _____ _____ _____ security glitch?

What are the steps _____ when _____ is _____ security _____ _____ _____ _____?

Do you _____ _____ _____ steps _____ a vulnerability _____ _____ _____ your platform?

What actions will be _____ _____ _____ _____ _____ vulnerability?

_____ _____ the measures you _____ take when you discover _____ weakness _____ _____ _____?

_____ _____ do you take _____ you _____ a _____ in your _____?

_____ should _____ _____ after _____ _____ security weakness?

_____ _____ occur _____ finding a _____?

Do _____ _____ _____ way _____ dealing with security _____ _____ your system?

What steps have _____ taken after _____ _____ vulnerability _____ _____?

_____ does _____ infrastructure _____ _____ there _____ a security flaw?

_____ you _____ _____ security _____ or _____ weakness, _____ do you do?

_____ _____ you follow _____ on identifying _____ _____?

What should _____ _____ _____ _____ safety of your platform _____ _____ _____ flaw?

_____ _____ are _____ which _____ are taken _____ address them?

_____ _____ follow after uncovering _____ _____ vulnerability.

_____ do _____ _____ infrastructure _____ _____ a security flaw?

What _____ _____ do after _____ catch a security _____ _____ _____ weakness?

_____ you _____ a _____ in the _____ _____ do you _____?

What _____ the _____ plan _____ a _____ _____ glitch?

What do you _____ _____ you _____ _____ _____?

What steps _____ taken _____ there is a _____ _____ _____ your _____?

What _____ _____ after _____ an _____ vulnerability?

What _____ _____ if _____ detect a _____ _____?

Can _____ _____ steps _____ uncover _____ weakness _____ _____ infrastructure's defenses?

What procedure _____ _____ after a _____ _____ is _____?

_____ _____ _____ taken _____ _____ security issue is found _____ your system?

_____ _____ _____ _____ found in your infrastructure _____ happens?

How _____ _____ _____ it after _____ a _____ _____ your system?

_____ procedures _____ followed _____ discovering a _____ _____

_____ _____ _____ taken after _____ a _____ point?

After finding a flaw, _____ should be _____ to _____ _____ _____ _____?

What do _____ do about the _____ _____ in _____ _____?

What _____ after _____ _____ weakness _____ identified.

_____ _____ you address security _____ _____ _____ found?

What actions are taken after vulnerabilities _____ _____ _____ _____ _____?

When _____ vulnerability is _____ on _____ platform, are _____ _____ steps _____?

Which actions _____ _____ _____ _____ _____ _____ or vulnerability is found?

_____ security flaws or _____ are _____ how _____ you _____ _____?

Which _____ are taken when _____ _____ _____ security flaw _____ _____ infrastructure?

_____ is followed by the discovery of _____ _____ _____ _____ your _____?

What _____ _____ _____ after _____ discover a _____ in _____ infrastructure?

_____ will _____ when you _____ a security _____ in _____ _____?

_____ do you _____ after _____ system _____?

Do you _____ _____ _____ you _____ _____ _____ issue with your system?

What _____ _____ going _____ do after _____ _____ _____ within your platform?

What _____ need to be _____ _____ a security _____ is _____ _____ your _____?

What actions _____ taken _____ a _____ is discovered _____ _____ a _____?

Do you _____ what _____ _____ discovery of _____ security _____?

What are _____ steps that _____ _____ when _____ discover _____ security _____?

_____ _____ you _____ when _____ get a security _____ or _____?

_____ _____ procedures in _____ to address and _____ _____ _____ in your _____?

_____ _____ _____ _____ security hole or system weakness, _____ should _____ do?

What _____ _____ taken after _____ vulnerabilities in _____ system's _____?

So, _____ some _____ _____ _____ the system, what _____?

_____ do you do _____ _____ identify _____ security _____?

_____ _____ _____ a _____ _____ _____ with security flaws in your system?

_____ _____ _____ handle _____ vulnerability in your system _____ stumbling _____ it?

What _____ are _____ when _____ _____ _____ security flaw in _____ system?

What happens _____ there _____ _____ vulnerability _____ _____ infrastructure

_____ do you _____ _____ a _____ hole _____ system weakness?

_____ will _____ _____ after a security _____ _____ found?

_____ _____ an issue, _____ steps are taken _____ _____ _____ infrastructure?

How _____ _____ ensure the safety of _____ _____ _____ discovering _____ flaw?

What do _____ do following _____ _____ _____ _____?

What _____ you _____ if you _____ _____ security _____ or _____ weakness?

_____ _____ any _____ taken after seeing _____ in your _____?

_____ do you handle _____ _____ _____ discover some _____ in _____ system?

What steps are _____ _____ a _____ _____ is _____?

Can you _____ me _____ _____ procedure _____ _____ security flaw?

_____ vulnerabilities are discovered which _____ are _____ to _____ _____?

How _____ _____ address security _____ when _____ _____?

_____ a _____ is detected, how does _____ _____ _____?

_____ can happen if _____ find _____ vulnerability _____ _____ infrastructure?

Does _____ know _____ way _____ _____ _____ flaws once spotted?

_____ happens _____ you _____ a _____ flaw?

_____ _____ do you _____ _____ discovering a weakness within _____ _____?

_____ should we _____ system _____ _____ spotted?

What _____ _____ _____ _____ take after _____ discover a weakness within _____ _____?

_____ procedures _____ _____ after _____ security flaw has been _____?

_____ _____ you _____ when _____ _____ security flaws?

_____ next steps are _____ _____ _____ a system _____?

What happens _____ a _____ _____ found in _____ _____?

_____ happens _____ _____ security glitch _____ detected?

_____ you _____ _____ system flaw, what _____ happen _____?

_____ comes _____ discovering an _____ _____?

Does _____ system's infrastructure have _____ _____ _____ after _____ vulnerabilities?

_____ _____ you respond to _____ discovery _____ _____ security flaw?

_____ is _____ _____ discovering _____ security flaw in your _____?

_____ _____ _____ _____ taken after discovering a weakness in _____ _____?

_____ are you _____ to _____ _____ you catch a _____ _____ the _____?

When you find a weakness in _____ _____ _____ are _____ _____ _____ _____?

How would _____ deal _____ _____ _____ _____ your system?

Do _____ take _____ _____ _____ you _____ a weakness in your _____?

_____ should happen _____ _____ _____ is _____ within your infrastructure?

What happens _____ _____ find a _____ _____?

_____ _____ do _____ take after _____ a _____ or _____ in _____ platform?

What _____ _____ do _____ _____ discover a _____ vulnerability?

When _____ _____ is _____ how _____ _____ system respond?

_____ _____ _____ system respond _____ a security _____ or vulnerability?

Do you _____ _____ _____ steps taken _____ a _____ is _____?

What are the _____ _____ _____ _____ after discovering _____ vulnerability?

What are you going _____ _____ _____ _____ system _____?

_____ _____ _____ _____ you find a _____ in your system?

_____ _____ _____ after discovering _____ vulnerabilities?

What is _____ _____ issue _____ your system _____ _____?

"How d'ya _____ _____ after stumbling _____ some vulnerability _____ _____ _____ "

Do you _____ which actions are _____ _____ _____ security flaw _____ _____?

So, _____ _____ after a potential threat _____ found _____ _____ _____?

_____ _____ have any _____ steps taken when _____ vulnerability is _____ on _____ _____?

What _____ are taken _____ _____ find _____ weakness _____ the _____?

_____ do you deal with _____ _____ and holes _____ _____ _____?

What about _____ process _____ handling _____ security _____ _____ _____ network?

_____ action _____ taken _____ discovering a _____ in the _____?

How will _____ _____ with a _____ _____ your _____?

_____ steps _____ taken after _____ _____ problem _____ found with _____ system?

What actions are _____ _____ _____ security flaw _____ _____?

_____ do _____ _____ vulnerability _____ _____ system after stumbling _____ it?

What actions _____ taken _____ _____ _____ flaw _____ discovered in _____ infrastructure?

_____ does _____ system's _____ _____ when _____ is a security _____?

_____ _____ _____ taken after _____ system _____ was unearthed?

_____ do _____ handle _____ after stumbling upon _____ _____ in the _____?

What _____ take _____ after _____ _____ flaw _____ discovered?

Can you _____ _____ _____ _____ _____ of handling _____ vulnerabilities _____ your network?

The _____ vulnerability was _____ _____ _____ _____ taken _____ fix it?

_____ you _____ any action _____ _____ a weakness in _____ _____?

_____ are the steps taken after _____ _____ _____ _____ found?

_____ a _____ is found in _____ infrastructure _____ _____ happen?

_____ _____ _____ next steps after _____ a _____ vulnerability?

_____ will we proceed after finding _____ _____ _____ _____ system?

_____ do _____ address security _____ that _____ _____?

What follows after _____ _____ an _____ _____?

When a security _____ _____ vulnerability _____ discovered, how _____ _____ system _____?

When _____ _____ flaw _____ vulnerability _____ _____ how _____ your _____ infrastructure respond?

_____ do you _____ after _____ _____ _____ flaw within _____ system?

_____ do _____ _____ _____ a vulnerability within your _____?

_____ follows after _____ security _____ _____ discovered?

Do you have _____ in _____ to _____ _____ correct _____ security _____ in _____ _____?

So, _____ _____ _____ _____ potential threat is discovered _____ _____ system?

_____ procedures _____ _____ when _____ _____ flaw was discovered?

What _____ _____ do _____ _____ detect a security _____?

_____ you _____ _____ steps after _____ _____ _____ found on your platform?

Will there _____ _____ steps _____ when _____ _____ _____ found on your _____?

_____ do you _____ sure the _____ _____ safe _____ you find _____ _____?

What _____ _____ taken _____ _____ a _____ vulnerability?

_____ _____ when you discover _____ _____ _____ in your _____ infrastructure?

When _____ _____ discovered what action _____ _____ to address _____?

Are _____ _____ _____ steps _____ after _____ vulnerability is discovered _____ your _____?

What is _____ follow-up _____ _____ there is a _____ _____?

_____ _____ after the security flaw _____ _____?

After stumbling _____ _____ vulnerability in your _____ _____ do _____ handle _____?

When a _____ issue is _____ with your _____ _____ _____ _____ involved?

_____ your _____ _____ have _____ actions taken after detecting _____?

_____ detecting _____ _____ _____ what happens?

Do _____ take any action _____ you find _____ _____ or weakness _____ _____ _____?

What do you _____ when you _____ _____ _____ _____?

_____ _____ are _____ if _____ _____ issue is found?

_____ _____ is _____ after _____ security flaw _____ discovered?

When _____ security _____ is _____ _____ your infrastructure, which _____ are _____?

_____ _____ you _____ _____ security issues?

_____ _____ _____ anything when you find a security _____ with _____ _____?

How are _____ going to _____ the _____ issues _____ _____ _____?

_____ _____ security vulnerability _____ discovered, how does _____ _____ respond?

What can you _____ us about _____ process of _____ security _____ _____ _____ _____?

What _____ after a potential _____ _____ _____ _____?

How _____ _____ this _____ _____ upon a _____ in _____ system?

Do your _____ _____ the detection _____ vulnerabilities _____ your _____?

_____ do you do _____ _____ discover a security _____ within _____ _____?

After _____ an issue, _____ _____ _____ next steps _____ secure your _____?

How will _____ _____ _____ after _____ upon _____ _____ in your system?

Do you have _____ _____ _____ _____ security flaws _____ _____ setup?

_____ measures do you take _____ _____ find _____ weakness or vulnerability _____ _____ _____?

_____ happens when _____ _____ _____ _____ weakness in your setup?

_____ _____ catches a security hole or _____ weakness, _____ _____ they _____?

What happens when _____ _____ flaw _____ your _____ _____ discovered?

_____ a _____ is _____ _____ _____ platform are specific steps _____?

What _____ the _____ to _____ _____ infrastructure after _____ detect an _____?

Do _____ _____ _____ _____ address potential _____ flaws in your _____?

How _____ you _____ _____ _____ _____ upon a vulnerability in _____ system?

What _____ were _____ _____ finding a _____ _____?

_____ is _____ _____ _____ security _____ is identified?

_____ _____ are _____ after _____ find vulnerabilities in _____ infrastructure?

What happens after _____ _____ a _____ _____ _____ setup?

What _____ are _____ after security _____ _____ _____?

_____ do you _____ _____ _____ weakness or vulnerability within _____ _____ architecture?

When you _____ uncover a _____ _____ _____ _____ _____ what _____ you do?

What can _____ tell _____ _____ the _____ _____ handling _____ security vulnerabilities?

After _____ a _____ _____ what _____ _____ followed?

What _____ _____ _____ take if _____ _____ error occurs?

What _____ follow the _____ _____ a _____ _____?

_____ _____ you _____ _____ _____ a system weakness?

What _____ followed _____ _____ _____ vulnerability _____ discovered?

What are the _____ taken _____ _____ _____ vulnerability is _____?

How does _____ _____ respond _____ a security flaw _____ _____?

How do you _____ _____ deal _____ glitch _____ _____ in _____?

So what _____ after a potential _____ _____ _____ _____?

What _____ happen _____ discovering _____ _____?

_____ _____ _____ after a _____ threat _____ _____ in y'all's system?

_____ _____ in your _____ _____ do _____ do?

_____ vulnerabilities are _____ _____ actions _____ taken to deal _____ _____?

_____ _____ _____ deal _____ vulnerabilities in your _____?

_____ _____ find a _____ in _____ _____ what do you _____?

What _____ happen _____ someone discovers _____ _____ _____?

What _____ _____ _____ _____ after detecting _____ _____ in your system?

_____ _____ _____ if you _____ _____ security weakness?

What _____ you _____ when you _____ _____ _____ weakness?

_____ happens when _____ find _____ _____?

_____ _____ the actions taken after finding _____ _____ _____ your _____?

_____ happens when an infrastructure _____ _____ _____?

What _____ _____ you _____ a _____ flaw?

_____ do you _____ after _____ _____ _____ weakness _____ your setup?

_____ _____ _____ be _____ after discovering a _____ flaw?

What _____ _____ you taking after detecting _____ in _____ _____?

_____ should _____ _____ finding _____ vulnerability?

What do _____ do _____ _____ _____ is _____ security error?

What _____ _____ _____ _____ _____ detecting a weakness or vulnerability in _____ _____?

What are _____ _____ _____ do _____ you discover a _____ _____ _____ within _____ platform?

_____ _____ security weakness is identified _____ _____ the _____ steps?

_____ _____ are _____ when _____ security flaw is _____?

_____ happens _____ you _____ _____ flaw in _____ system.

What procedures _____ followed _____ _____ a _____ _____?

Do you have _____ _____ for _____ _____ flaws in _____ _____?

What _____ _____ _____ _____ uncovering an _____ vulnerability?

Do you have _____ in _____ _____ _____ _____ security _____ _____ your system?

_____ happens when _____ _____ _____ vulnerability in the _____?

What _____ are followed _____ _____ _____ _____ flaw?

_____ is a _____ _____ dealt with _____ _____?

What steps _____ taken when _____ security _____ _____ _____?

What do _____ _____ when _____ _____ _____ _____ in your system?

_____ _____ _____ do next _____ discovering an infrastructure _____?

_____ happened after _____ discovered a _____ flaw _____ your _____?

_____ _____ for fixing _____ flaws _____ they're _____?

What _____ the actions _____ _____ _____ a _____ system?

_____ you _____ how to _____ _____ infrastructure after _____ _____ issue?

How _____ you react to _____ _____ _____ your _____?

_____ _____ _____ _____ when your system has _____ security issue?

How _____ _____ _____ _____ identifying system vulnerabilities?

How do you _____ _____ infrastructure following the _____ _____ _____ _____?

_____ _____ _____ you _____ a _____ in the system?

_____ do you _____ _____ _____ after stumbling upon _____ vulnerability?

When a _____ vulnerability _____ _____ _____ _____ your infrastructure respond?

What _____ the _____ taken when you discover _____ weakness _____ _____ _____?

How do _____ _____ security flaws _____ _____ _____?

What _____ _____ taken after _____ _____ in your _____?

What is _____ by _____ security _____ _____ _____ infrastructure?

What _____ now _____ a _____ _____ _____ discovered?

Do you have _____ method _____ dealing _____ _____ flaws _____ _____ system?

_____ you _____ _____ if you _____ _____ _____ issue with your system?

_____ do you respond to _____ _____ in _____ _____?

_____ actions are _____ _____ detecting a _____ in your _____?

_____ you do _____ if you discover _____ _____ issue with _____ _____?

_____ there _____ specific steps _____ when a vulnerability _____ _____?

How do _____ respond to _____ _____ _____?

When you _____ _____ _____ hole _____ _____ weakness, what do you _____?

What actions _____ taken _____ you discover _____ _____ _____?

_____ will _____ _____ you discover _____ _____ flaw?

_____ you _____ us about the procedure _____ a _____ _____ _____ discovered?

_____ _____ specific steps taken _____ a vulnerability _____ detected _____ your _____?

What _____ _____ after _____ _____ is discovered?

What _____ _____ a vulnerability _____ _____ _____ the infrastructure?

_____ actions will _____ taken _____ _____ security weakness is _____?

Which _____ are implemented once _____ _____ _____ is _____?

What _____ _____ _____ _____ security weakness is _____?

After finding a weakness _____ _____ _____ what are _____ _____ _____ do?

What _____ _____ you _____ _____ you find _____ flaw in _____ setup?

_____ _____ when _____ _____ _____ vulnerability in your infrastructure?

_____ _____ for addressing _____ _____ after they are _____?

_____ to address system _____ _____ _____ are _____?

_____ there _____ _____ taken after you identify _____ in _____ _____?

What _____ _____ taken _____ _____ vulnerabilities in your _____?

_____ _____ security _____ or _____ is discovered in _____ infrastructure, _____ _____ are taken?

_____ _____ is taken _____ you _____ _____ weakness _____ your system?

_____ actions were _____ after _____ _____ in _____ system?

_____ _____ _____ taken after discovering _____ in your _____?

What _____ are involved when _____ _____ _____ _____ found _____ your system?

What _____ are _____ _____ _____ system _____ is found?

_____ do _____ _____ _____ _____ a system vulnerability?

What _____ _____ taken _____ fix security issues in _____ _____?

What do _____ _____ _____ you discover _____ security weakness _____ your _____?

What should _____ _____ there _____ a _____ _____?

_____ you _____ us about the procedure _____ _____ _____ flaw is _____?

What _____ happen _____ you find _____ vulnerability in _____ _____?

_____ _____ you _____ to _____ vulnerabilities?

When _____ vulnerability is discovered in _____ _____ _____ _____?

What is _____ protocol for addressing _____ _____ _____ they _____ _____?

_____ happens now _____ a _____ _____ _____ discovered?

How _____ _____ _____ flaw responded _____?

When you find _____ security _____ _____ _____ _____ do?

What _____ done when a system _____ _____ _____ _____ flaws?

_____ _____ _____ security flaw _____ afterwards?

What _____ when you _____ a _____ _____ _____ infrastructure?

When _____ _____ _____ a security hole _____ system weakness, _____ _____ you _____?

Do _____ _____ procedures _____ place _____ correct security flaws in _____ _____?

_____ do you _____ _____ _____ are security _____?

What _____ _____ you _____ _____ _____ in the system?

When weakness _____ _____ _____ _____ _____ what happens?

_____ happens _____ _____ _____ security flaw?

_____ goes _____ after a _____ threat is _____ _____ your _____?

_____ _____ _____ which actions _____ _____ after _____ security flaw is discovered?

_____ do _____ do when _____ _____ _____ weakness in _____ platform's architecture?

_____ after _____ an infrastructure _____ _____ _____ do?

_____ _____ _____ _____ to _____ the security issues within your _____?

_____ _____ vulnerability _____ detected on your _____ do specific _____ _____ place?

Do you _____ _____ protocol for _____ _____ _____ after _____ spotted?

_____ what _____ _____ do when you _____ _____ security problem?

When _____ is _____ _____ within your infrastructure, _____ _____?

_____ are _____ _____ to _____ with holes _____ glitch in the _____?

_____ steps would be _____ to secure your _____ after _____ _____ _____?

When you _____ _____ in _____ system, _____ _____?

_____ you have _____ to _____ potential _____ _____ in your _____?

Is there _____ steps _____ after _____ vulnerability _____ found _____ your _____?

_____ _____ you handle the _____ of vulnerabilities in _____ _____?

_____ can _____ _____ when you find _____ security _____?

____ should be done ____ ____ a ____ flaw in ____ ____?

What ____ ____ do ____ ____ finally uncover ____ security hole?

____ ____ ____ you take to ____ your ____ after ____ an issue?

What steps are ____ when ____ ____ problem ____ ____?

____ ____ happen when ____ ____ vulnerability ____ discovered?

____ ____ ____ you take when you ____ a weakness within ____ ____ ____?

____ you ____ me about ____ process of ____ ____ ____ in your ____?

After ____ ____ ____ ____ what should we ____?

____ ____ actions ____ ____ system vulnerability ____ found.

What ____ you doing ____ fix ____ issues ____ ____ system?

____ does ____ infrastructure respond when ____ ____ a ____ flaw?

What ____ ____ put in place ____ ____ ____ issues within the ____?

____ ____ after ____ ____ system vulnerability.

____ ____ are taken when ____ ____ ____ is discovered?

____ ____ ____ ____ is ____ after finding vulnerabilities?

How ____ ____ ____ ____ a security flaw ____ found?

How do you ____ ____ ____ security ____ or vulnerability ____ your ____?

What are ____ ____ ____ after ____ ____ a security flaw?

What ____ after ____ uncover ____ ____?

What follows the ____ ____ ____ security ____?

What steps are taken ____ ____ security ____ ____ ____ within ____ system?

How do ____ ____ ____ the safety of your ____ after ____ ____ ____ flaw?

What ____ you ____ ____ ____ system vulnerabilities?

When a ____ is ____ ____ your ____ what ____?

What measures do ____ ____ ____ you discover a ____ ____ vulnerability ____ ____ platform?

____ do ____ do when ____ ____ a security ____?

Does ____ ____ ____ ____ actions taken ____ discovering vulnerabilities?

____ a ____ issue is ____ ____ steps are ____?

Are ____ ____ following the ____ of ____ ____ flaw?

____ ____ you handle ____ ____ issue found ____ the system?

What ____ ____ ____ finding ____ vulnerability?

____ should ____ do to ensure the safety of ____ ____ ____ ____ ____ flaw?

____ a security weakness ____ found, ____ ____ ____ next steps?

____ ____ after ____ security flaw ____ discovered?

____ identifying system vulnerabilities, ____ ____ ____ do?

How ____ you deal with ____ ____ ____ your ____?

____ actions do you ____ if ____ is a ____ ____?

What ____ are ____ when ____ find a ____ in ____ ____?

Do ____ have ____ ____ for addressing ____ flaws ____ they are ____?

____ ____ ____ issue is ____ ____ do you do?

Do ____ ____ ____ steps ____ ____ vulnerability is discovered on ____ platform?

What are the ____ taken after ____ a ____ ____ ____ ____.

____ occurs after a security ____ ____ ____?

Which actions ____ ____ ____ there ____ ____ security flaw ____ your infrastructure?

What should ____ ____ ____ ____ weakness ____ identified?

____ ____ when you spot ____ flaw ____ the ____?

____ happens ____ ____ identify a security ____?

____ ____ the steps taken ____ a ____ vulnerability is ____?

____ ____ ____ actions taken after discovering ____ weakness ____ ____ system?

What happens ____ ____ a ____ ____ ____ detected?

_____ _____ _____ _____ to _____ _____ _____ discover a _____ or vulnerability within your platform?

What _____ _____ do when you uncover _____ _____ _____?

What actions should be _____ _____ a _____ _____ is _____?

_____ actions _____ implemented when a security _____ _____ _____?

_____ _____ _____ deal _____ glitch _____ holes in your infrastructure?

_____ _____ _____ issue is found, what _____ the _____?

_____ will _____ proceed _____ we discover _____ flaw _____ _____ system?

_____ _____ _____ _____ after you discover a security _____?

What _____ _____ _____ _____ if you _____ a security error?

_____ happens when _____ _____ flaw is _____?

How _____ _____ _____ _____ uncovered system vulnerabilities?

_____ actions do you _____ when _____ _____ a security _____?

What happens if _____ _____ a _____ _____ _____ infrastructure?

What actions _____ taken when _____ _____ _____ security flaw _____ _____ system?

Is there _____ action _____ _____ _____ _____ in _____ system's infrastructure?

_____ steps are taken to fix _____ security _____ _____ _____ _____?

What _____ _____ _____ discover a vulnerability _____ _____ infrastructure?

Once a _____ weakness _____ _____ _____ steps are _____?

What are _____ actions _____ _____ taken _____ a security flaw _____ _____ _____ found?

After _____ _____ _____ _____ what _____ are taken?

Do _____ _____ action to _____ _____ _____ or _____ in your setup?

_____ are _____ _____ to _____ _____ _____ uncover a _____ _____ vulnerability within your platform?

_____ _____ we _____ after we found _____ _____ _____ our system?

When you _____ _____ security _____ _____ _____ you do?

_____ follows when you _____ _____ _____ vulnerability?

_____ _____ taken _____ a _____ vulnerability _____ found.

How _____ _____ _____ _____ when a _____ is detected?

_____ _____ _____ going to do _____ _____ _____ _____ weakness in your system?

What happens _____ when _____ security _____ _____ _____?

_____ action do _____ take _____ security _____ _____?

_____ do you _____ _____ _____ see _____ security hole?

_____ _____ _____ _____ you _____ a security weakness?

What is _____ after _____ _____ infrastructure _____?

_____ are _____ steps taken _____ identifying _____ infrastructural _____?

_____ do _____ do _____ _____ _____ a security issue.

After finding _____ vulnerability what _____ _____ _____?

_____ are the _____ _____ take after detecting _____ issue _____ _____ infrastructure?

_____ _____ _____ system _____ to security issues?

_____ do you _____ _____ _____ in your _____?

_____ _____ are _____ _____ someone discovers a security _____?

_____ would _____ after uncovering an _____ _____?

Can you _____ about the _____ _____ _____ security _____ is _____?

What _____ _____ taken _____ you _____ _____ weakness in your _____?

_____ _____ potential _____ in y'all's system, _____ _____ down?

_____ _____ _____ issue is _____ with your system what _____ you _____?

_____ _____ steps _____ taken when a security _____ _____ found?

When _____ security _____ or _____ _____ occurs, what _____ _____ do?

What happens if _____ _____ a _____ weakness in _____ _____?

What _____ _____ going _____ _____ _____ a weakness within _____ platform?

_____ _____ are _____ after locating _____ weak _____?

What _____ you do _____ detecting _____ _____ in your _____?

When _____ _____ _____ _____ should be done?

_____ do _____ do after detecting _____ in _____ _____?

Any _____ to address system _____ _____ _____?

Once _____ security issue is found _____ _____ _____ _____ do _____ do?

What happens _____ _____ security weakness _____ _____?

How do _____ deal with _____ _____ _____ _____ and holes _____ the _____?

When _____ vulnerability _____ detected _____ your _____ _____ steps _____ taken?

Was _____ _____ _____ _____ the discovery of a _____ flaw?

What _____ _____ _____ _____ issue is found in _____ system?

What actions _____ _____ _____ you discover _____ flaw _____ _____ system?

Which _____ _____ implemented _____ a _____ flaw is _____ in your _____?

What _____ you _____ when you _____ a weakness _____ vulnerability _____ _____ _____?

_____ do _____ do _____ you finally _____ a security _____?

_____ you have _____ actions _____ after _____ vulnerabilities _____ your _____?

_____ follows after _____ detect _____ system _____?

_____ you _____ procedures in _____ to correct _____ _____ _____ _____ your system?

_____ do _____ handle it _____ stumbling upon _____ _____ in your _____?

How do you _____ to a _____ _____ _____ _____ _____ system?

_____ _____ you address _____ issues found in _____ _____?

Do you _____ steps _____ _____ discover _____ weakness in your _____ _____?

What _____ _____ _____ you _____ after finding a weakness in _____ _____?

Do you know what _____ _____ _____ after discovering _____ _____?

How is _____ _____ _____ _____ _____ after discovery?

Any steps taken _____ _____ _____ _____?

_____ should _____ _____ an _____ vulnerability _____ discovered?

_____ what _____ _____ a potential threat _____ found _____ the _____?

In response _____ _____ system _____?

_____ steps _____ you take _____ _____ system _____?

How _____ _____ _____ with _____ _____ after they're found?

Once a security _____ _____ _____ _____ your system, _____ are _____ steps to _____?

_____ _____ _____ us an _____ of _____ process of _____ _____ security vulnerabilities?

_____ _____ if you _____ a _____ in _____ setup?

_____ _____ _____ done after _____ a system _____?

_____ happens after you _____ a _____ _____?

What happens next _____ _____ _____ a flaw in _____ _____?

_____ _____ after uncovering system _____?

What procedures were _____ _____ the _____ _____ a _____ flaw?

_____ do you do _____ _____ _____ error _____?

What _____ you do _____ _____ finally catch _____ _____ weakness?

What action is _____ _____ _____ a weakness _____ _____ system?

What should d'ya _____ _____ stumbling _____ some vulnerability _____ _____ _____?

What _____ _____ _____ _____ a weak point?

What goes _____ _____ a potential threat _____ _____ _____?
